**Making Memories** David W. Krueger, 2000-02-01 These essays and lessons are a prolonged reflection on that final hug given and received when my two children departed for college In these essays I try to draw the enduring qualities of the process of being a parent from the moments and incidents of my own experience I write of teaching our children to listen to their own internal voice so that they do not waste time in adulthood searching for something missing from childhood And of listening to our own head and heart as parents I write of momentary acknowledgements of the model we provide as a person the everyday creativity of parenting love being a verb reverse truths admirable restraint and adolescent storms I write of postponed revelations such as how heroes change how we ultimately become unemployed as parents and the how the shadow of the past lengthens Our children teach us much about ourselves not all of which we necessarily want to learn All we can know here together on the floor of our children s souls is

that everything we do as parents matters Finally by the time we've got the rhythm of the thing it's over Making Memories documents how children give birth to their parents It is about learning from our children and ultimately learning to say goodbye to them so they can mean it when they say it back to us

**Psychoanalytic Reflections on Parenting Teens and Young Adults** Anne J. Adelman, 2018-03-08 Psychoanalytic Reflections on Parenting Teens and Young Adults explores the rich multi-layered parent-child interactions that unfold during the period of separation and launching While this is a necessary transitional time parents inevitably experience feelings of loss and longing for the past as well as hope for the future With honesty humor and originality the book brings together the voices of psychoanalysts speaking frankly and not just as professionals but also as parents grappling with raising young adults in today's fast-paced world The contributors reflect on the joys regrets and surprises as well as the challenges and triumphs they experience as their children reach the threshold of young adulthood They address a wide range of topics relevant to parents and practitioners alike indeed to all those who are closely involved with the growth and maturation of today's youth Offering both a broad perspective and an intimate look at present-day parenting dilemmas the chapters focus on five main areas of interest raising youth in the digital age developmental difficulties evolving gender norms social concerns and finally the building of resiliency Psychoanalytic Reflections on Parenting Teens and Young Adults offers an alternative lens to consider the complex challenges parents face in raising today's teens and young adults replacing the customary notion of failure to launch with the concept of holding on with open arms The explorations in this book advance the idea that in the end these struggles are essential for growth buoyancy and wisdom It will appeal greatly to psychoanalysts and psychoanalytic psychotherapists as well as family therapists
