**The Saturday Review of Politics, Literature, Science, Art, and Finance** ,1870      **"The" Athenaeum** ,1894      The New Testament in Cross-Cultural Perspective Richard L. Rohrbaugh,2006-10-15 The Bible is not a Western book and the world of the New Testament is not our world The New Testament world was preindustrial Mediterranean and populated mostly by nonliterate peasants who depended on hearing these writings read aloud Only a few of the literate elite were part of the Jesus movement and they knew nothing of either modernity or the Western culture we inhabit today This means that for all North Americans reading the New Testament is always an exercise in cross cultural communication Travelers diplomats and exchange students take great pains to bridge the cultural gaps that cloud mutual understanding But North American readers habitually suspend cross cultural awareness when encountering the Bible The result is that we unwittingly project our own cultural understandings onto the pages of the New Testament Rohrbaugh argues that to whatever degree we can bridge cultural gaps between ourselves and New Testament writers we learn to value their intentions rather than the meanings we create from their words Rohrbaugh s insightful interpretations of Gospel passages go a long way toward helping to span distances between the New Testament world and the present      **Alabama and the Borderlands** R. Cosmopolitan Studies with 20 innovative essays by humanities scholars from all over the world that re-examine theories and practices of cosmopolitanism from a variety of perspectives. The volume satisfies the need for a stronger involvement of Comparative and World Literatures and Cultures Translation and Education Theories in this crucial debate and also proposes an experimental way to explore in depth the necessity of a cosmopolitan method as well as the riches of cosmopolitan representations. The essays follow a logical progression from the situated philosophical and political foundations of the debate to interdisciplinary propositions for a pedagogy of cosmopolitanism through studies of modern and contemporary cosmopolitan cultural practices in literature and the arts and the concurrent analysis of prototypes of cosmopolitan identities. This trajectory allows readers to appreciate new historical theoretical aesthetic and practical implications of cosmopolitanism that pertain to multiple genres and media under different modes of production and reception. In the deterritorialized landscape of Migrating Minds, mental and sentimental mobility rather than the legacy of place is the key to an efficient humanist response to deadening globalization.
