

What is government itself but the greatest of all reflections on human nature? If men were angels, no government would be necessary. If angels were to govern men, neither external nor internal controls on government would be necessary.

## **Reflections On Human Nature:**

**Reflections on Human Nature** Arthur O. Lovejoy, 2020-02-03 He discusses the theory of human nature held by the founders of the American Constitution giving special attention to James Madison and the Federalist Papers

**Reflections on Human Nature** Arthur Oncken Lovejoy, 1961

**Reflections on the Human Condition** Eric Hoffer, 1973 This collection of aphorisms and philosophical comment represents Eric Hoffer at his best It offers stunning insights that strike home with startling frequency often most uncomfortably it has a fine unity a well defined theme That some of the statements invite argument and questioning is inevitable and stimulating Here is a book of the wry epigram and the icy aphorism which made his earlier books so appealing and gained for him a wide audience Publisher description

**The Art of Political Leadership** Fred I. Greenstein, 2006 Fred Greenstein has been a paragon of scholarship and practical advice in his many years of work on the presidency Here some of the leading scholars of the presidency and leadership studies come together to pay tribute to Greenstein and his work Original essays reflect the broad sweep of Greenstein s scholarship from the systematic study of personality and politics to the analysis of chief executives from Woodrow Wilson on The essayists pay special attention to the political styles advisory systems and decision making processes of presidents from the 1920s to today In his studies of the American presidency Greenstein pioneered the use of archival documents to test hypotheses and illuminate issues that bear on the performance of the modern executive office The distinguished list of contributors to this volume include John Burke Robert A Dahl Alexander and Juliette George Betty Glad Alonzo Hamby Erwin Hargrove John Kessel Anthony King Kenneth Kitts J Donald Moon and Fred Greenstein s first and last graduate students at Princeton Larry Berman and Meena Bose Greenstein himself generously writes a new essay on Plumbing the Presidential Psyche adding to his substantial contributions to political psychology

[Comparative Reflections on Persons and Selves](#) Pavel Stankov, Michael Dufresne, 2023-06-14 What matters in personal survival What makes self awareness possible If there is no permanent self should we be altruistic These and other questions were tackled by the international participants in the 2018 Uehiro Graduate Student Philosophy Conference at University of Hawai i at M noa Their responses explore the subject of subjecthood from interdisciplinary and comparative perspectives Some approach it from an analytic point of view others from a historical and as many as five draw from non Western traditions to argue their points We have selected seven of the 21 papers presented at the conference Given their comparative scope they provide a slightly unusual sample of the discussions in philosophy of self and personhood today The collection would be of interest not only to graduate students and professional philosophers but also to anyone curious about the comparative methods used to investigate the self in philosophy

**Black Natural Law** Vincent W. Lloyd, 2016-05-02 Black Natural Law offers a new way of understanding the African American political tradition Iconoclastically attacking left including James Baldwin and Audre Lorde right including Clarence Thomas and Ben Carson and center Barack Obama Vincent William Lloyd charges that many Black leaders today embrace secular

white modes of political engagement abandoning the deep connections between religious philosophical and political ideas that once animated Black politics By telling the stories of Frederick Douglass Anna Julia Cooper W E B Du Bois and Martin Luther King Jr Lloyd shows how appeals to a higher law or God s law have long fueled Black political engagement Such appeals do not seek to implement divine directives on earth rather they pose a challenge to the wisdom of the world and they mobilize communities for collective action Black natural law is deeply democratic while charismatic leaders may provide the occasion for reflection and mobilization all are capable of discerning the higher law using our human capacities for reason and emotion At a time when continuing racial injustice poses a deep moral challenge the most powerful intellectual resources in the struggle for justice have been abandoned Black Natural Law recovers a rich tradition and it examines just how this tradition was forgotten A Black intellectual class emerged that was disconnected from social movement organizing and beholden to white interests Appeals to higher law became politically impotent overly rational or overly sentimental Recovering the Black natural law tradition provides a powerful resource for confronting police violence mass incarceration and today s gross racial inequities Black Natural Law will change the way we understand natural law a topic central to the Western ethical and political tradition While drawing particularly on African American resources Black Natural Law speaks to all who seek politics animated by justice

**From Here to Eternity: Reflections on Death, Immortality, and the Resurrection of the Body** Randall B. Smith, 2023-01-27 Throughout history and across cultures people have shared the hope and the belief that somehow something about the human person survives death Indeed it seems that without a notion of life after death this life would seem meaningless If in the end everything we have strived for and all our love comes to naught and is simply swallowed up by nothingness then what was the point of it all In *From Here to Eternity* Randall Smith shows how the Christian doctrines regarding the resurrection of the body and the communion of saints provide an understanding of life after death as a meaningful fulfillment of this life not a negation of it

**Daily Reflections on Divine Mercy** John Paul Thomas, 2016-03-17 Daily Reflections on Divine Mercy was written to provide an awakening to the abundant Mercy of God It offers daily reflections and prayers to help deepen the day to day faith life of every Catholic so that you can understand the abundance of Mercy poured forth from the Heart of our Savior as it is revealed in the writings of Saint Maria Faustina Kowalska Divine Mercy in My Soul Diary of Saint Maria Faustina Kowalska is soon to become a classic spiritual book that everyone is encouraged to read in their lifetime However many find this invitation intimidating not just because of the width of her book but because of the depth of its message on The Divine Mercy in each of Saint Faustina's notebook entries This book Daily Reflections on Divine Mercy was written with the hope of guiding you through Saint Faustina's Diary and her six notebooks of reflections It can be used on its own to help you pause and reflect on the beauty of Jesus messages to her or as a companion book as you simultaneously read Saint Faustina's Diary Daily Reflections on Divine Mercy offers 365 daily teachings reflections and prayers based upon the pages of Saint Faustina's Diary The structured way to use this daily reflection book is to do just that reflect upon one page each day However some may feel called to skip around a bit read a few reflections at a time or return to a particular reflection through which God spoke to you Therefore though this book was written with the intent of providing one reflection for each day of the year the best way to use it is any way you feel called and the way that benefits your relationship with God the most The first paragraph for each day offers this author's insights to the words and teachings of Saint Faustina The section of her Diary used for the day's teaching is marked so that the reader can also read her Diary first hand so as to see the primary source that the author of this book took inspiration from for that day's reflection Though the primary text of the Diary is never quoted nor are the reflections of this book exact representations of the Diary they do provide the foundational basis for the spiritual message shared in each reflection The second paragraph for each day offers a short reflection put more as a question to the reader It offers the same insight in a different format so as to enter more deeply into the message of the day Finally each daily reflection ends with a prayer focused upon the message and reflection for that day The reader is encouraged to pray this prayer several times

Ideally it is prayed first thing in the morning again during the day and again at night as an examination on how well the daily message was received As you seek to survive the world we live in allow these pages to be a font of Mercy for you from God Allow God s Divine Mercy to penetrate your heart so that you will know the abundance of His love and be more prepared to share that love with others

the sciences serve as sources of knowledge into human life and the human condition especially in areas where science does not reach terribly far as yet It seems hard not to grant some truth to many allegories from literature art and some religions Naturalism has room for knowledge gathered outside science provided the imported claims satisfy also by naturalistic methods Naturalism and the debate about its scope and limits thrive on discrepancy We hope that collectively the selected essays that follow will give a fair view of the vitality and tribulations of naturalism as a variegated contemporary philosophical perspective

**Reflections on Communication, Education, Scholarship, and Life** Xin-An Lu, 2003-07 Our actions in education business and government are no longer guided by conscious ideals but by entrenched practices that are products of expediency indolence and even tyranny Inveterate and ubiquitous problems abound Students hate school Employees dislike their jobs Professors become disinclined toward teaching Boredom and procrastination are everywhere There are promotion requirements such as scholarly publications by college professors that promote nothing and benefit none except to move the person into the next nominal category along the spectrum of the organizational ladder We are plagued with senseless competitive patterns and numerical evaluations that make life a mere matter of rat race the winning of which does not uplift us into the sublimity of humanity but trammel us in the degradation of being rats Essays in this book reflect on and search for answers to widespread and inveterate problems that degenerate modern life into mere livelihood Products in sober solitude rather than in the societal cacophony most essays in the book were written during the author's doctoral studies

*Reflections on Leadership and Career Development* Manfred F. R. Kets de Vries, 2010-01-11 Views from the interface of psychoanalysis and organizational life In the books in this series Manfred Kets de Vries failed engineer entrepreneur manqué reluctant economist international management guru psychoanalyst wit and outdoorsman offers an overview of his work spanning four decades a period in which he has established himself as the leading figure in the clinical study of organizational leadership At a key point in his career working as he puts it in the twilight zone of economics

management and psychoanalysis he decided to strike out on a little trodden path and bring the person back into the organization Now Kets de Vries occupies a unique position in the academic business world putting leaders and companies of the couch and working at the often intimate interface where the inner theater of the individual meets the outer world of the organization The second book in this series Reflections on Leadership and Career Development takes different perspectives on the intimate connection between the personality or inner theater of individuals and the organizational context in which they work how different personality types in positions of leadership or as members of management teams affect the functioning and success of organizations Kets de Vries looks at the way basic psychological processes operate on individual and corporate performance and analyzes them in the context of case studies of leaders and organizations He examines narcissism dysfunctional collusion between leaders and followers some new leadership archetypes and the roles that organizational therapists coaches or consultants can play in their interventions The book includes a lengthy study of Vladimir Putin as CEO of Russia Inc an assessment of the former Russian president's performance as an organizational leader The final part of the book examines the career life cycle and how executives cope or fail to cope with rites de passage like succession and retirement For the first time this book provides a glimpse of Manfred Kets de Vries own inner theater as the wellspring of his success as psychoanalyst mentor and inspiration to a generation of leaders Reflections on Leadership and Career Development offers a rare opportunity to observe Manfred on his own legendary couch a personal perspective not to be missed Paul McMorran HR Director TNK BP

*A Political Companion to Frederick Douglass* Neil Roberts, 2018-06-29 A splendid opportunity to rethink Douglass's political thought relevant today given the discourse of white nationalism in the United States Choice Frederick Douglass was a writer and public speaker whose impact on America has been long studied by historians and literary critics Yet as political theorists have focused on the legacies of such notables as W E B Du Bois and Booker T Washington Douglass's profound influence on Afro modern and American political thought has often been undervalued In an effort to fill this gap in the scholarship on Douglass editor Neil Roberts and an exciting group of established and rising scholars examine the author's autobiographies essays speeches and novella Together they illuminate his genius for analyzing and articulating core American ideals such as independence liberation individualism and freedom particularly in the context of slavery The contributors explore Douglass's understanding of the self made American and the way in which he expanded the notion of individual potential by arguing that citizens had a responsibility to improve not only their own situations but also those of their communities *A Political Companion to Frederick Douglass* also considers the idea of agency investigating Douglass's passionate insistence that every person in a democracy even a slave possesses an innate ability to act Various essays illuminate Douglass's complex racial politics deconstructing what seems at first to be his surprising aversion to racial pride and others explore and critique concepts of masculinity gender and judgment in his oeuvre The volume concludes with a discussion of Douglass's contributions to pre and post Civil War jurisprudence Rich insights

from scholarship both old and new A fine collection Political Theory
