Reflective Love:

Love's Reflections Betty McLain, 2021-12-02 Who's the hunk Cindy sees in the mirror? Life working at the art gallery was pretty ordinary until Cindy's employers brought home three antique mirrors from Italy. Rumored to be magic, they boasted the ability to show a girl her true love. As Cindy unpacked the mirrors, she was startled to see a man looking back where her reflection should have been. James Michaels was shocked to see the woman's face in his mirror while he shaved. A police officer, he was accustomed to things he could explain. What he couldn't explain was how this woman he'd never met kept appearing in mirrors throughout town. Through intrigue and danger, Cindy and James try to discover who lives behind the reflections in the mirror. But will the two ever meet, or will they have to be content with only the mirror image? Betty's note: each book in the Love's Magic series is a standalone romance novel and can be enjoyed even if you haven't read other books in the series.

Love's Oneing Kerrie Hide, 2022-11-08 Grounded in Christian love mysticism, Love's Oneing gives voice to the luminous consciousness that awakens from within our oneness in God in contemplation. With great sensitivity, the book offers nuanced insight into the marriage of kenosis and desire in contemplation through the rich tapestry of writings from nine mystics: Julian of Norwich, the Cloud of Unknowing, author Meister Eckhart, Mechthild of Magdeburg, Clare of Assisi, John of the Cross, Teilhard de Chardin, Beatrice Bruteau, and Ilia Delio. With the delicate eye of a spiritual director immersed in mystical literature, Kerrie Hide situates these mystical teachings within contemplative prayer whilst offering a scholarly exploration of contemplative practice to embody the insights. Deeply grounded in traditional and contemporary mystical classics, Hide celebrates how the Christian mystical tradition lays a foundation for the evolutionary growth of communion, consciousness, and the insights of quantum science, highlighting key moments in contemplation that when surrendered into open, divine love, born of intellectual reflection, lived experience, and contemplative wisdom. Love's Oneing makes a unique contribution to the existing literature on contemplation at a time when the recovery of the mystical dimension of life is crucial for the future of our planet in this climate crisis moment.

Love and Politics Alice Ormiston, 2012-02-01 Alice Ormiston's Love and Politics argues that modern politics is rooted not merely in the pursuit of power but that it is essentially underpinned by the experience of love. Hegel understood love as a principle that unites reason and emotion and self and other and that provides the foundation for a deep sense of connectedness to the world and for genuine acts of autonomy. Through an original and highly accessible interpretation of Hegel's works, Ormiston shows how the modern commitment to individual rights and freedoms can only be adequately understood by reference to the experience of love that lies at the foundation of the modern subject and its political expression in acts of conscience. Hegel's thought thus joins forces with feminist arguments for an embodied theory of the subject and for a focus on empathy in political reasoning with republican concerns about democracy and civic education and with postmodern concerns about the otherness of certain experiences and forms of knowledge. Ormiston's book offers a developed concept of the subject that can serve as a foundation for resistance to

problems of our time including atomism and instrumental rationality the ills of an unfettered capitalism and the reality of a radical evil

Immediacy and Reflection in Kierkegaard's Thought Paul Cruysberghs, Johan Tael, Karl Verstrynge, 2003 We live in a reflective age That is Soren Kierkegaard's overall conclusion when evaluating the time he lives in But his appraisal contains both approval and criticism On the one hand reflection is a necessary category to deal with the dynamics and the qualities of the modern age on the other hand it bears a great danger It is Kierkegaard's firm conviction that reflection should always relate to a kind of immediacy that safeguards it from becoming hollow and detached from our existential reality Throughout the voluminous and complex work of Kierkegaard the notions of immediacy and reflection play a crucial role They appear in such an early work as *From the Papers of One Still Living* as well as in the late *Anti Climacus* writings and indeed their significance or influence can be felt in all philosophical texts published in between That is not to say that the meaning of the notions is unequivocal After all Kierkegaard not only uses the terms in very divergent contexts but his own understanding of them appears to evolve quite strongly in the course of his oeuvre Moreover in spite of their clearly philosophical character the two notions play an unmistakable role in Kierkegaard's understanding of religion They appear frequently in the religious discourses indeed In short Kierkegaard's use of the notions of immediacy and reflection covers a broad array of meanings and interpretations The dialectics of immediacy and reflection of reflection killing immediacy and raising the question of the possibility of a new immediacy is the main theme of *Immediacy and Reflection in Kierkegaard's Thought* The book contains contributions authored by a number of well known Kierkegaard scholars Kierkegaard's theory of the existence spheres of life provides a first viewpoint on the interplay of immediacy and reflection Here the philosophical and pseudonymous writings are the main subject of research If on the other hand one pays a closer look at the significance of a second immediacy for a religious attitude to life The religious discourses come into play when the possibility of a second immediacy is taken into consideration In conclusion the theme of immediacy and reflection is connected to some important trends in the modern and contemporary era On the one hand it is linked to the philosophical influences Kierkegaard underwent e.g. from Hegel on the other hand Kierkegaard is confronted with later thinkers Heidegger in particular

Volume 17: Kierkegaard's Pseudonyms Katalin Nun, Jon Stewart, 2016-12-05 One of the elements that many readers

admire in Kierkegaard's skill as a writer is his ability to create different voices and perspectives in his works. Instead of unilaterally presenting clear cut doctrines and theses he confronts the reader with a range of personalities and figures who all espouse different views. One important aspect of this play of perspectives is Kierkegaard's controversial use of pseudonyms. The present volume is dedicated to exploring the different pseudonyms and authorial voices in Kierkegaard's writing. The articles featured here try to explore each pseudonymous author as a literary figure and to explain what kind of a person is at issue in each of the pseudonymous works. The hope is that by taking seriously each of these figures as individuals we will be able to gain new insights into the texts which they are ostensibly responsible for. *Stendhal* Harold Bloom, 2009

Passionate Impressions in Love's Reflection Cherie Leigh, 2020-12-07 It becomes obvious to anyone who gets to know me that I am a hopeless romantic. I am not sure what instigated my sentimentality over love and romance but I have an affinity for all things that exhibit the beautiful qualities of passion. The incredible holding power of love should not be taken for granted even as it can either profoundly entice or greatly elude. The full effects of love's intensity move me with deep appreciation. Some may say that I live in a fantasy world with my notions about romantic love but I don't let that bother me. I just hop on my magical unicorn and ride off into the sunset. I use my poetry to express intensity of emotions whether it be to entice, delight, mystify, enlighten, ache or touch. Sometimes even through love's painful experiences there can be profound beauty taken from it that leaves lasting impressions. For love in all its reflections has much to teach us about its purpose as the most powerful force in existence. Since the beginning of time as we know it it has lived and breathed its testimony serving to inspire. This collection of poetry came together for publication.

from encouragement from friends and fellow peer poets who believe in me I have always enjoyed writing but the past few years have been pivotal times of creativity I have changed from a woman seeking deliverance from pain to a woman experiencing inexplicable passion The obsession of love has become an innate part of my personality that needs to express itself in words I guess you could say I am smitten about anything written about love My hope is for the readers of my poetry to experience an emotional connection or perhaps find release through my various themes of love Some of my love poems take on a tone of spirituality while others embrace aspects of sensuality But all show phases and faces of love in need of expression For as mysterious as love can be it always makes its presence known in one form or another with unmistakable impact Welcome to my world of Passionate Impressions in Love s Reflection The Unity-Based Family H.B.

Fox-Muraton,2020-10-26 While Kierkegaard s philosophy focuses on concrete human existence his thought has rarely been challenged regarding concrete and contemporary moral issues This volume offers an overview of contemporary ethical issues from a Kierkegaardian perspective deliberately taking him out of the sphere of Theology and Christian Ethics and examining the ways in which his works can provide fruitful insight into questions which Kierkegaard certainly never himself envisaged such as accepting refugees into our communities understanding how we relate to social media issues of identity with regard to bioengineering or transgender identity or problems of interreligious dialogue The contributions in this volume by international scholars seek to address both the challenges and insights of Kierkegaard s existential ethics for our

contemporary societies and its relation to topics of current interest in the field of moral philosophy The volume is organized into three major sections the first focusing on the relation between ethics and religion a topic of primary importance with regard to the development of religious foundationalism and the challenges of dealing with diverse belief systems within our communities the second on our understandings of ourselves and our relations to others with regard to issues of media and community and the third targeting more specifically questions of identity and the ways in which the developments of modern science impact identity construction This work offers new paths for critically engaging with the moral issues of our times from an existential perspective

Subordinated Ethics Caitlin Smith

Gilson, 2020-08-21 With Dostoyevsky's Idiot and Aquinas Dumb Ox as guides this book seeks to recover the elemental mystery of the natural law a law revealed only in wonder If ethics is to guide us along the way it must recover its subordination description must precede prescription If ethics is to invite us along the way it cannot lead either as politburo or even as public orthodoxy It cannot be smugly symbolic but must be by way of signage of directionality of the open realization that ethical meaning is en route pointing the way because it is within the way as only sign not symbol can point to the sacramental terminus The courtesies of dogma and tradition are the road signs and guideposts along the longior via not themselves the termini We seek the dialogic heart of the natural law through two seemingly contradictory voices and approaches St Thomas Aquinas and his famous five ways and Fyodor Dostoyevsky's holy idiot Prince Myshkin It is precisely the apparent miscellany of these selected voices that provide us with a connatural invitation into the natural law as subordinated as descriptive guide not as prescriptive leader Religion and Culture Timothy P. Fallon, SJ, Philip Boo Riley, 1987-01-23 While the framework of this book is Lonergan the essays stand as original and constructive works in a number of fields and topics The theme of the relation of religion to culture is addressed from four orientations philosophy theology human science and economics The contributors include Stephen Toulmin Frederick Crowe S J Sebastian Moore Walter Conn and William Johnston S J Topics covered include process thought historical mindedness mysticism religious truth and language nuclear war and economic transformation Lonergan's monumental Insight 1957 and Method in Theology 1972 are substantial and powerful The key to these and other works is method Lonergan's thought rests on the subject's intelligent and responsible self appropriation grounded in creative and cooperative work from diverse disciplines This volume demonstrates the richness and importance of the methodical collaboration called for by one of our century's greatest minds
