Reform In Soviet Politics The Lessons Of Recent Policies On Land And Water:

Reform in Soviet Politics Thane Gustafson,1981 This book examines the record of the Brezhnev regime in its only major domestic innovation the attempt to modernise Soviet agriculture Under Brezhnev the Soviets have invested more than half a trillion dollars in the countryside but the Kremlin has remarkably little to show for the effort The reason for the poor return Gustafson argues is that it is fundamentally flawed because it has been conducted along traditional Soviet lines For all its innovative features the agricultural programme resembles nothing so much as the Stalinist industrialising campaigns of the fifties The Soviets cannot afford another such reform Consequently the agricultural programme cannot stand as a model for meeting the complex problems the Soviets will have to deal with in the next twenty years Gustafson asserts that whatever solution they devise will depend on whether the Soviet political elite can develop resources and instruments of power more appropriate to the needs of a mature industrial economy But whether such changes are possible rests on fundamental questions about the essence of power in the Soviet regime

Soviet Science on the Edge of Reform Harley D. Balzer,2019-06-04 It is my sincere hope that the reforms currently being introduced in the USSR will render much of this book obsolete Yet even if perestroika brings significant change to the Soviet Union historians will want a record of what existed before After four years it has become apparent that perestroika is a painful long term process In such a large and diverse country even the reforms that are successful cannot take place everywhere at once One major goal in publishing this book is to make data from a major interview project on Soviet science and technology available to a broader audience Despite the changes taking place many of the features illuminated by these unique data persist

The Soviet Polity in the Modern Era Erik P. Hoffmann,Robbin Frederick Laird,

The Environment and World History Edmund Burke III,Kenneth Pomeranz,2009-04-08 Since around 1500 C E humans have shaped the global environment in ways that were previously unimaginable Bringing together leading environmental historians and world historians this book offers an overview of global environmental history throughout this

remarkable 500 year period In eleven essays the contributors examine the connections between environmental change and other major topics of early modern and modern world history population growth commercialization imperialism industrialization the fossil fuel revolution and more Rather than attributing environmental change largely to European science technology and capitalism the essays illuminate a series of culturally distinctive yet often parallel developments arising in many parts of the world leading to intensified exploitation of land and water The wide range of regional studies including some in Russia China the Middle East India Southeast Asia Latin America Southern Africa and Western Europe together with the book s broader thematic essays makes *The Environment and World History* ideal for courses that seek to incorporate the environment and environmental change more fully into a truly integrative understanding of world history

As Moscow Sees Us Richard M. Mills,1990 Examines the prism through which Soviet analysts interpret American domestic and foreign politics and the factors that shape continuity and change in the Soviet framework The author analyzes this perspective by asking from the Soviet viewpoint such questions as who rules America

Cracks in the Monolith James R. Millar,1992 The Soviet Union E. Shiraev,Eero Carroll,2008-11-24 The book analyzes Soviet society as a hard reality emphasizes the varying perceptions of it in the Soviet Union and the US and insists that while glorifications of the Soviet reality have been useful the most accurate descriptions of this reality were critical

Soviet Regional Economic Policy Jonathan R. Schiffer,2016-01-06 An analysis of Soviet spatial resource allocation decision making during the period 1955 1980 utilizing a political economy framework to evaluate the East West debate over relative investment shares in the European and Pacific Siberian parts of the USSR It has case studies and trade details

Problems of Communism ,1982 *What Have We Learned About Science and Technology from the Russian Experience?* Loren R. Graham,1998 Describes the impact of Russian scientific research on science in the United States

The Future of the Democratic Left in Industrial Democracies Erwin Hargrove,2010-11-01 **Russian Foreign Policy Since 1990** Peter Shearman,2018-02-12 A book which brings together leading experts on Russia s foreign relations providing the most comprehensive coverage of contemporary Russian foreign policy currently available in a single volume Detailed case studies of relations with specific countries and regions are complemented by chapters that examine the process of decision making conflict between domestic institutional actors the role of groups such as the military and Russia s search for a new identity

The State in Socialist Society Neil Harding,1984-01-01 The focus of all the essays in this collection is the problem of state power in Communist regimes The problematic nature of the relationship between state and society has troubled the marxist tradition since its inception and continues to be an unresolved issue for its contemporary theorists Western attempts to characterise the state formations of Communist regimes are equally notoriously debatable and fraught with methodological problems Both indigenous and Western attempts to theorise these formations are thoroughly reviewed

in the early chapters of this book Later chapters each written by an expert in the field go on to explore particular issues the problem of nationalism within a multi national state for instance or the recent experience of selected Communist regimes in attempting to adapt their institutions to meet new problems Special attention is paid to the USSR in view of the enormous significance of the Soviet State and the extent to which it has served as a model Other case studies have been included on the basis that these state formations display unique features Yugoslavia that size and importance commends them China or that failure in the process of institutional adaptation is instructive for their pathology Poland What this book sets out to do is to bring a variety of approaches and a varied expertise to bear upon a very large but relatively neglected issue in contemporary politics the nature of the state formations of Communist regimes

From Lathes to Looms Dorothy Solinger, 1991-10-01 For more than three decades all manner of critics of socialist states non socialists and socialists alike have excoriated one of the most unfortunate consequences of the Stalinist style command economy its proclivity to favor heavy industry over other economic sectors Ironically these systems set up in the name of the people s interest shortchanged their constituents livelihood as factories and foundries spewed out an endless stream of machinery and metals at the expense of consumer items and daily necessities In the late 1970 s after the death of Mao Zedong Chinese leaders were able openly and soberly to scrutinize their faltering industrial system Under the determined leadership of Deng Xiaoping they quickly altered the proportions of industrial output in favor of consumer goods The Chinese leaders had two chief economic goals to increase the financial returns to the central government and to lay the foundation for a reoriented future pattern of national growth that would give China a secure niche in world markets They also hoped to open up new employment channels and to meet mass needs for consumer goods This study shows why and how these goals were chosen and spells out how they were realized Though there is no evidence of conscious borrowing in its vision and tactics the agenda the Chinese leaders chose was highly resonant with what is elsewhere labeled industrial policy For this reason the book draws on the literature of industrial policy in France and Japan where this form of policy first took root rather than adopting the more conventional model of comparative communism The book uncovers striking similarities between China s post 1979 plan and what occurred in France and Japan after World War II at the level of elite perception and goals and in societal behavioral terms These similar conditions in context decision making pattern and implementation style provide the framework of analysis for this volume a framework that could be applied to ex colonial and dependent Third World economies as well as to more authoritarian socialist planning systems

The Politics of Transition in Central Asia and the Caucasus Amanda E Wooden, Christoph H. Stefes, 2009-06-08 Most books on the Caucasus and Central Asia are country by country studies This book on the other hand fills a gap in Central Eurasian studies as one of the few comparative case study books on Central Eurasia covering both the Caucasus and Central Asia it considers key themes right across the two regions highlighting both political change and continuity Comparative case study chapters written by regional experts from a variety of methodological

backgrounds provide historical context and evaluate Soviet political legacies and emerging policy outcomes Key topics include the varied types and sources of authoritarianism political opposition and protest politics predetermined outcomes of post Soviet economic choices social and stability impacts of natural resource wealth variations in educational reform international norm influence on gender policy and the power of human rights activists Overall the book provides a thorough up to date overview of what is increasingly becoming a significant area of concern *Reconstructive Critics* Raymond J.

Struyk,1999 Struyk an analyst of housing policy and finance and community development with the Urban Institute was inspired for this account by Russian and Hungarian think tanks he worked with in 1990 and 1991 as well as efforts to create or restructure such bodies in the west He draws on interviews with people from think tanks and policy makers in Armenia Bulgaria Hungary and the Russian Federation and with representatives of the donor community both in those countries and elsewhere Annotation copyrighted by Book News Inc Portland OR **Crisis in Soviet Agriculture** Stefan

Hedlund,2019-08-06 This book first published in 1984 analyses the institutions and decision making processes that determined agricultural production in the Soviet Union It addresses the crisis in Soviet agriculture of the early 1980s examining the problems of low productivity adverse natural conditions and an underdeveloped infrastructure The book s analysis of the crisis focuses on the growing gap between demand and supply of agricultural produce and the pressures on the government to alleviate the food shortages **Internal Factors in Russian Foreign Policy** Neil Malcolm,1996 After the turmoil following the collapse of Soviet power post Communist Russia has emerged as an assertively independent force in international affairs Meanwhile an intense debate has been underway in Moscow about Russia s national interests and foreign policy priorities Domestic political conflicts and the close ties with former Soviet partner states have made internal factors particularly particularly important in shaping Russian foreign policy Internal Factors in Russian Foreign Policy is the first systematic analysis of the domestic political forces which condition the international behaviour of the new Russian state Four leading specialists examine in turn the areas of foreign policy thinking and debate how policy is made the public politics of foreign policy and the role of the military They explore the changing domestic alignments associated with recent shifts in Russian foreign policy focusing on the roles played by institutions such as the Security Council and the legislature by military groupings and by emerging economic interests The authors throw new light on the domestic foundations of Moscow s more assertive and self reliant stance **Soviet Power and the Countryside** N. Melvin,2003-11-04 Drawing upon extensive archival and other original sources Soviet Power and the Countryside offers a new approach to understanding the political dynamics that led to the collapse of the Soviet order A detailed analysis of the design implementation and collapse of Soviet policy toward the countryside is used to explore the implications of a broadening of participation in the policy process from the 1960s Neil J Melvin argues that the new knowledge about rural society created as a result of this process provided the basis for a fundamental change in the nature of power relations in the Soviet order leading to the decay and eventual

collapse of policy making institutions
