Sea Kings of Mars & Other Poems RALPH E. VAUGHAN, 2023-09-27 Now Mars is dry dusty and lifeless but it was not always so Long ago maritime empires thrived on a wetter warmer Mars a Mars of vast oceans and splendid cities In strange ships of bone and wood traders explorers and pirates plied those sparkling turquoise seas in search of trade adventure and treasure Join them

The Stellar Legion Leigh Brackett, 2011-11-05 MacIan was a man with a secret and it had followed him to Venus and the Legion escape was impossible Excerpt Silence was on the barracks like a lid clamped over tight coiled springs Men in rumpled uniforms outlanders of the Stellar Legion space rats the scrapings of the Solar System sweated in the sullen heat of the Venusian swamplands before the rains Sweated and listened The metal door clanged open to admit Lehn the young Venusian Commandant and every man jerked tautly to his feet Ian MacIan the white haired space burned Earthman alone and hungrily poised for action Thekla the swart Martian low canaler grinning like a weasel beside Bhak the hulking strangler from Titan Every quick nervous glance was riveted on Lehn The young officer stood silent in the open door tugging at his fair mustache to MacIan watching he was a trim clean incongruity in this brutal wilderness of savagery and iron men Behind him the eternal mists writhed in a thin curtain over the swamp stretching for miles beyond the soggy earthworks through it came the sound every ear had listened to for days a low monotonous piping that seemed to ring from the ends of the earth The Nahali the six foot scarlet eyed swamp dwellers whose touch was weapon enough praying to their gods for rain When it came the hot torrential downpour of southern Venus the Nahali would burst in a scaly tide over the fort Only a moat of charged water and four electro cannons stood between the Legion and the horde If those things failed it meant two hundred lives burned out the circle of protective forts broken the fertile uplands plundered and laid waste MacIan looked at Lehn's clean university bred young face and wondered cynically if he was strong enough to do his job Lehn spoke so abruptly that the men started I'm calling for volunteers A reconnaissance in Nahali territory you know well enough what that means Three men Well Ian MacIan stepped forward followed instantly by the Martian Thekla Bhak the Titan hesitated his queerly bright blank eyes darting from Thekla to Lehn and back to MacIan Then he stepped up his hairy face twisted in a sly grin Lehn eyed them his mouth hard with distaste under his fair mustache Then he nodded and said Report in an hour light equipment Turning to go he added almost as an afterthought Report to my quarters MacIan Immediately MacIan's bony Celtic face tightened and his blue eyes narrowed with wary distrust But he followed Lehn his gaunt powerful body as ramrod straight as the Venusian's own and no eye that watched him go held any friendship

Thralls of the Endless Night Leigh Brackett, 2011-06-10 In the freezing night the great ship held mysterious secrets secrets that the Piruts and the Hans wanted Excerpt Wes Kirk shut his teeth together hard He turned his back on Ma Kirk

and the five younger ones huddled around the box of heat stones and went to the doorway padding soft and tight with the anger in him He shoved the curtain of little skins aside and crouched there with his thick shoulders fitted into the angle of the jamb staring out cold wind threading in across his splayed and naked feet The hackles rose golden and stiff across Kirk's back He said carefully I would like to kill the Captain and the First Officer and the Second Officer and all the little Officers and the Engineers and all their families His voice carried inside on the wind eddies Ma Kirk yelled Wes You come here and let that curtain down You want us all to freeze Her dark furred shoulders moved rhythmically over the socking child She added sharply Besides that s fool s talk Jakk Randl s talk and only gets the sucking plant Who s to hear it Kirk raised his heavy over lids and let his pupils widen huge liquid drops spreading black across his eyeballs slicking the dim grey light into themselves forcing line and shape out of blurred nothingness He made no move to drop the curtain The same sandscape he had stared at since he was able to crawl by away from the box of heat stones Flat grey plain running and left to the little curve of the horizon Rocks in it and edible moss Wind made gullies with grey shrubs thick in their bottoms guarding their sour white berries with thorns and sacs of poisoned dust that burst when touched Between the fields and the gullies there were huts like his own sunk into the earth and sodded tight A lot of huts but not as many as there had been the old ones said The Hans died and the huts were empty and the wind and the earth took them back again Kirk raised his shaggy head The light of the yellow star they called Sun caught in the huge luminous blackness of his eyes Beyond the Hans quarter just where the flat plain began to rise were the Engineers Not many of them anymore You could see the rusty lumps where the huts had been the tumbled heaps of metal that might have meant something once a longer time ago than anyone could remember But there were still plenty of huts standing Two hands and one hand and a thumb of them full of Engineers who said how the furrows should be laid for the planting but did nothing about the tilling of them And beyond the Engineers the Officers The baby cried Ma Kirk shrilled at her son and two of the younger ones fought over a bone with no meat on it rolling and snapping on the dirt floor Kirk shifted his head forward to shut out the sound of them and followed the line of the plain upward with sullen glowing eyes

Lord of the Earthquake Leigh Brackett, 2011-12-10 In the mysterious lands of Manoa Xacul claims he is a god but is he really the one causing the rumbling and fire spouting from the ground ExcerptIt was stiflingly hot in the submarine's tiny cabin The steady pound of the screws was a throbbing ache Coh Langham his scarred hawk face set in lines of restless boredom stared out the port at the featureless muck that rolled endlessly away under the searchlight Krim he said abruptly you re crazy Simon Krim hunched like a shaggy black bull over the tiny control panel spoke without taking his eyes from the sea floor What s the matter Langham Has the thrill petered out Thrill Langham's strong brown body stripped to dungarees hitched angrily lower in the seat Yes he had expected a thrill He had hated seeing Krim again it took him back to a time he wanted to forget But Krim had asked him and he at a loose end and restless as always had accepted Hunting a sunken continent with a submarine was something he hadn't done before It looked exciting The

excitement had resolved itself into three weeks of hellish monotony heat and inactivity and utter boredom Simon Krim grunted That s all you think about isn t it Thrills Your father was a hard working archeologist my best friend And you spend your life crashing planes and climbing mountains having adventures There was an edge to his voice his hairy body gleamed with sweat and there were tight lines around his mouth Coh Langham s blue eyes went hard under the scarlet cloth that held back his damp fair hair My life s my own Krim My father certainly never got much out of his **Outpost on Io** Leigh Brackett,2011-06-01 Pendleton s quiet voice was grave Mars is old and tired and torn with famine Venus is young but her courage is undisciplined Her barbarians aren t suited to mechanized warfare And Earth He sighed Perhaps if we hadn t fought so much among ourselves Excerpt MacVickers stopped at the brink of the dark round shaft It was cold and he was stark naked except for the silver collar welded around his neck But it was more than cold that made him shiver and clamp his long bony jaw He didn t know what the shaft was for or where it led But he had a sudden feeling that once he went down he was down for good The small round metal platform rocked uneasily under his feet Beyond the railing as far as MacVickers could see to the short curve of Io s horizon there was mud Thin slimy blue green mud The shaft went down under the mud MacVickers looked at it He licked dry lips and his grey green eyes narrow and hot in his gaunt dark face flashed a desperate look at the small flyer from which he had just been taken It bobbed on the heaving mud mocking him The eight foot European guard standing between it and MacVickers made a slow weaving motion with his tentacles MacVickers studied the European with the hating eyes of a wolf in a trap His smooth black body had a dull sheen of red under the Jupiter light There was no back nor front to him no face Only the four long rubbery legs the roundish body and the tentacles in a waving crown above MacVickers bared white uneven teeth His big bony fists clenched He took one step toward the European A tentacle flicked out daintily and touched the silver collar at the Earthman s throat Raw electric current generated in the European s body struck into him a shuddering blinding agony surging down his spine He stumbled backward and his foot went off into emptiness He twisted blindly catching the opposite side of the shaft and hung there groping with his foot for the ladder rungs cursing in a harsh toneless voice The tentacle struck out again with swift exquisite skill Three times like a red hot lash across his face and twice harder across his hands Then it touched the collar again MacVickers retched and let go He fell jarringly down the ladder managed to break his fall onto the metal floor below and crouched there sick and furious and afraid The hatch cover clanged down over him like the falling hammer of doom Enchantress of Venus Leigh Brackett,2011-06-01 Few men have gone beyond that barrier into the vast mystery of Inner Venus Fewer still have come back Excerpt The ship moved slowly across the Red Sea through the shrouding veils of mist her sail barely filled by the languid thrust of the wind Her hull of a thin light metal floated without sound the surface of the strange ocean parting before her prow in silent rippling streamers of flame Night deepened toward the ship a river of indigo flowing out of the west The man known as Stark stood alone by the after rail and watched its coming He was full of impatience and a gathering sense of danger so that it seemed to him that

even the hot wind smelled of it The steersman lay drowsily over his sweep He was a big man with skin and hair the color of milk He did not speak but Stark felt that now and again the man s eyes turned toward him pale and calculating under half closed lids with a secret avarice The captain and the two other members of the little coasting vessel s crew were forward at their evening meal Once or twice Stark heard a burst of laughter half whispered and furtive It was as though all four shared in some private joke from which he was rigidly excluded The heat was oppressive Sweat gathered on Stark s dark face His shirt stuck to his back The air was heavy with moisture tainted with the muddy fecundity of the land that brooded westward behind the eternal fog There was something ominous about the sea itself Even on its own world the Red Sea is hardly more than legend It lies behind the Mountains of White Cloud the great barrier wall that hides away half a planet Few men have gone beyond that barrier into the vast mystery of Inner Venus Fewer still have come back Stark was one of that handful Three times before he had crossed the mountains and once he had stayed for nearly a year But he had never quite grown used to the Red Sea It was not water It was gaseous dense enough to float the buoyant hulls of the metal ships and it burned perpetually with its deep inner fires The mists that clouded it were stained with the bloody glow Beneath the surface Stark could see the drifts of flame where the lazy currents ran and the little coiling bursts of sparks that came upward and spread and melted into other bursts so that the face of the sea was like a cosmos of crimson stars It was very beautiful glowing against the blue luminous darkness of the night Beautiful and strange There was a padding of bare feet and the captain Malthor came up to Stark his outlines dim and ghostly in the gloom We will reach Shuruun he said before the second glass is run Stark nodded Good The voyage had seemed endless and the close confinement of the narrow deck had got badly on his nerves You will like Shuruun said the captain jovially Our wine our food our women all superb We don t have many visitors We keep to ourselves as you will see But those who do come He laughed and clapped Stark on the shoulder Ah yes You will be happy in Shuruun It seemed to Stark that he caught an echo of laughter from the unseen crew as though they listened and found a hidden jest in Malthor s words Stark said That s fine Perhaps said Malthor you would like to lodge with me I could make you a good price He had made a good price for Stark s passage from up the coast An exorbitantly good one Stark said No You don t have to be afraid said the Venusian in a confidential tone The strangers who come to Shuruun all have the same reason It s a good place to hide We re out of everybody s reach He paused but Stark did not rise to his bait Presently he chuckled and went on In fact it s such a safe place that most of the strangers decide to stay on Now at my house I could give you

A World Is Born Leigh Brackett, 2011-06-10 The first ripples of blue fire touched Dio s men Bolts of it fastened on gun butts and knuckles Men screamed and fell Jill cried out as he tore silver ornaments from her dress

Excerpt Mel Gray flung down his hoe with a sudden tigerish fierceness and stood erect Tom Ward working beside him glanced at Gray s Indianesque profile the youth of it hardened by war and the hells of the Eros prison blocks A quick flash of satisfaction crossed Ward s dark eyes Then he grinned and said mockingly Hell of a place to spend the rest of your life ain t it Mel Gray stared with slitted blue eyes down the valley The huge sun of Mercury seared his naked body Sweat channeled the dust on his skin His throat ached with thirst And the bitter landscape mocked him more than Wade s dark face The rest of my life he repeated softly The rest of my life He was twenty eight Wade spat in the damp black earth You ought to be glad helping the unfortunate building a haven for the derelict Shut up Fury rose in Gray hotter than the boiling springs that ran from the Sunside to water the valleys He hated Mercury He hated John Moulton and his daughter Jill who had conceived this plan of building a new world for the destitute and desperate veterans of the Second Interplanetary War I ve had enough unselfish service he whispered I m serving myself from now on
