

Congress of the United States,

met and held at the City of New York on
Wednesday the fourth of March, one thousand seven hundred and seventy six.

THE

We the People

of the United States

IN CONGRESS, July 4, 1776.
The unanimous Declaration of the thirteen united States of America.

When in the course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume among the powers of the earth, the separate and equal station to which the Laws of Nature and of Nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness. — That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed, — That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness. Prudence, in such a case, dictates that慎重 should be exercised; and that no step should be taken which is likely to be followed by the most dangerous and bloody consequences, without exploring every safe and honorable means, by which the existing Government may be reformed, and its Administration adapted to the People's Safety and Happiness. And when it is found that a long train of abuses and usurpations, pursuing invariably the same Object, evinces a design to reduce them to absolute Tyranny, it is their duty to throw off such Government, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness.

Mahan, Corbett, and the Foundations of Naval Strategic Thought Kevin D McCranie,2021-02-15 At the turn of the twentieth century Alfred Thayer Mahan and Julian Stafford Corbett emerged as foundational thinkers on naval strategy and maritime power Important in their lifetimes their writings remain relevant in the contemporary environment The significance of Corbett and Mahan to modern naval strategy seems beyond question but too often their theories are simplified or used without a real understanding of their fundamental bases Labeling a strategy operation or even a navy Mahanian or Corbettian tells very little Mahan Corbett and the Foundations of Naval Strategic Thought provides an in depth introduction and a means to stimulate discussion about the theories of Mahan and Corbett Although there is no substitute for opening the actual writings of Mahan and Corbett this requires time not just to read but most importantly to understand how states exploit the sea in the strategic sense Mahan Corbett and the Foundations of Naval Strategic Thought takes the reader from their grand strategic foundations of sea power and maritime strategy through their ideas about naval warfare and strategy to how Mahan and Corbett thought a navy should integrate with other instruments of national power and finally to how they thought states with powerful navies win wars This window into naval strategy provides twenty first century readers an understanding of what navies can and perhaps more importantly cannot do in the international environment *Sea Power and Freedom* Gerard Fiennes,1918 **America's Sailors in the Great War** Lisle A. was not the case In this book Kurt Raaflaub asks the essential question when why and under what circumstances did the concept of freedom originate To find out Raaflaub analyses ancient Greek texts from Homer to Thucydides in their social and political contexts Archaic Greece he concludes had little use for the idea of political freedom the concept arose instead during the great confrontation between Greeks and Persians in the early fifth century BCE Raaflaub then examines the relationship of freedom with other concepts such as equality citizenship and law and pursues subsequent uses of the idea often paradoxically as a tool of domination propaganda and ideology Raaflaub s book thus illuminates both the history of ancient Greek society and the evolution of one of humankind s most important values and will be of great interest to anyone who wants to understand the conceptual fabric that still shapes our world views History Teacher's Magazine ,1919
