Seal Called Andre

Frances Dipper

Seal Called Andre:

A Seal Called Andre Harry Goodridge, Lew Dietz, 2014-10-07 Tells the true story of the unique human animal friendship between Harry Goodridge and Andre the harbor seal who was as comfortable in Goodridge's home as he was in Penobscot Bay Andre swims with Harry and rides happily in the back seat of Harry's car He quickly picked up tricks perhaps the first time a wild animal has been trained in a free release situation He became Rockport Maine's honorary harbormaster and was ranked second only to Andrew Wyeth as the state's most acclaimed summer resident Year after year Andre swam south in the winter only to return again to Harry the next spring It's a timeless and iconic Maine story **A Seal Called Andre** Harry Goodridge, Lew Dietz, 1980-12-01 Thousands of visitors to Rockport Maine saw Andre perform the tricks Harry taught him Here is the whole story this book was the inspiration for Andre a 1994 feature movie **Andre the Famous Harbor Seal** Fran Hodgkins, 2003-01-01 Sometimes just sometimes a human being and a wild animal make a special connection that changes both of their lives So it was with Rockport Maine's Harry Goodridge and the harbor seal pup he named Andre The two became inseparable though the seal was free to come and go as he pleased His floating enclosure in the harbor simply minimized his presence in skiffs owned by yachtsmen who complained about his sunbathing in their dinghies *The Summer of Cecily* Nan Lincoln, 2004 A heart warming and inspiring true tale about the meeting of a creature of the land and a creature of the sea of falling in love and ultimately having to say good bye It is also the story of a very special place where an ordinary day can turn into an extraordinary adventure *A Year with the Seals* Alix Morris, 2025-07-15 Environmental journalist Alix Morris spends an eye opening year getting to know these elusive intelligent creatures investigating the effects of their extraordinary return from the brink of extinction and how we can try to bring nature back into balance It might be their large strangely human eyes or their dog like playfulness but seals have long captured people's interest and affection making them the perfect candidate for an environmental cause as well as the subject of decades of study Alix Morris spends a year with these magnetic creatures and brings them to life on the page season by season as she learns about their intelligence their relationships with each other their ecosystems and the changing climate Morris also gets to know all of the competing interests in the intense debate about the newly recovered seal populations in our coastal waters from local fishermen whose catch is often diminished by savvy seals to tribes who once relied on seal hunting for food clothing and medicine to seal rescue workers and biologists to surfers and swimmers now encountering seal hunting sharks in coastal waters *A Year with the Seals* is a rare look at what happens when conservation efforts actually work and how human tampering with ecosystems continues to have unexpected consequences But it's also a gripping adventure story of a journalist determined to understand seals and our relationship with them for herself *RSPB Spotlight Seals* Frances Dipper, 2021-03-18 Seals are the sleekest and most agile of all marine mammals and they are superbly adapted to the watery world in which they spend most of their time With their whiskery dog like faces curious nature and vulnerable pups they are

enduringly appealing animals Although air breathing seals are superbly tuned to hunt sleep mate and keep warm while out at sea but they remain inextricably linked to land In *Spotlight Seals* Frances Dipper explores the intricate lives of the UK's native Grey and Common Seals and their amazing physical and behavioural adaptations to a life split between land and sea She reveals the complex physiology that allows seals to dive deep and for long periods without coming to any harm Once exploited for their meat and skins seals now have protection around the British Isles Their numbers are increasing but they still face the danger of plastic litter in their environment Dipper also explores age old legends interactions between humans and seals and the best places to watch them in the UK The *Spotlight* series introduces readers to the lives and behaviour of our favourite animals with eye catching colour photographs and informative expert text **Seal** Victoria

Dickenson,2015-11-15 Playful and inquisitive seals have long been interested in humans and humans have reciprocated that interest falling for their beauty grace and charm as they frolic alongside our boats or loll on sandy shores In this newest entry in the *Animal* series Victoria Dickenson traces the history of our interaction with these beautiful fascinating swimmers from the centuries of hunting in which people killed countless seals for their skin oil and meat to the present when the white furred baby seal has become one of the most potent symbols of the need for ecological conservation Along the way she offers an approachable account of seal biology and behavior and she delineates the threats they face from habitat destruction and climate change Beautifully illustrated and packed with stories from folklore myth and history *Seal* offers a richly immersive view of a much loved storied creature Any Resemblance to Actual Persons Hal Erickson,2017-11-28 Most film buffs know
