Profiling Serial Killers Micki Pistorius, 2012-10-02 The science of profiling is relatively new having first been tried in the United States in the 1940s However it took about another twenty years of development and refinement before it became

recognised as an investigative tool in the apprehension of criminals Profiling can be described as an educated attempt to provide investigative agencies with specific information about the type of individual who could have committed a particular crime Nowadays it is utilised with other sound investigative techniques Profiling serial killers and other crimes in South Africa contains a introduction to the subject followed by chapters with case studies on serial killers pyromaniacs rapists child molesters stalkers and white collar crime and intelligence profiling

Serial Killers and Sadistic Murderers Jack Levin, 2009-09-18 After twenty five years of investigating analyzing and interviewing serial killers their family members neighbors and even surviving victims Jack Levin has become one of the world s most respected experts on the motivations and modus operandi of dangerous criminals In this gripping book he taps his wealth of experience with the criminal mind to offer lessons for law enforcement and the general public about how serial killers think as well as the conditions under which hideous murders typically occur These lessons he hopes will lead to more effective ways to thwart such crimes in the future Levin s face to face meetings and correspondence with such notorious murderers as the Hillside strangler Kenneth Bianchi and Orville Lynn Majors the male nurse who was convicted of killing numerous patients in his charge reveal that these types of killers are not motivated by money revenge or rage In fact the only motivation seems to be a sadistic craving for power and a need to feel in control Levin also for the first time lets down his guard and reveals what it feels like to be seated so close to such cold blooded killers Many killers as Levin points out are meticulous planners Levin has found that even in situations that appear spontaneous for instance a workplace shooting by a disgruntled employee the deed is carefully thought out and prepared for in advance Another factor that consistently emerges in conversations with killers who have committed the most heinous of acts is the total absence of remorse or any notion of moral responsibility Murder appears to be easy for these criminals and they kill with a feeling of complete impunity Levin also notes the skillfully deceptive facades that such murderers are able to affect They are extremely adept liars he admits to having been fooled who enjoy playing mind games even though outwardly they seem above suspicion This is one reason they are so dangerous and difficult for investigators to track down and prosecute This chilling glimpse into the minds of some of the worst criminals makes a valuable contribution to criminology and is a must read for both true crime buffs and law enforcement professionals

Ten Rowan

Hodge, 2014-08-08 Entertainment turns to horror across a long frozen winter Ten episodes in ten cities A new live play detective show is sweeping the nation a ratings sensation where terrible crimes play out on stage for audiences to solve But someone else knows the script and is shadowing the show as it traverses the United States While home viewers countdown ten fictional murder mysteries from their living rooms the cross country killer is collecting gruesome keepsakes When the FBI identifies a pattern involving three horrific crimes in Chicago New York and Los Angeles Special Agent Lincoln Polk is assigned the case This chase will push him to breaking point testing loyalties and stirring memories buried in the past Strap yourself in for an unrelenting rollercoaster ride through ten weeks of hell

In Dark Alleys the Role Playing Game ,

Strangers On The Street - Serial homicide in South Africa Micki Pistorius,2012-10-03 The first comprehensive study of serial homicide in South Africa is intended primarily for psychologists students educators and police officers who require background on the behavioural patterns motives and other details about serial killers It is a serious attempt to understand the mind of the serial killer so that he may be identified and apprehended as soon as possible For as the author points out serial killers prospects of rehabilitation are negative and they need to be removed from society for the remainder of their lives Detectives need specific training to investigate serial homicide and Pistorius believes that an understanding of the psychodynamics of serial killers should be extended to state prosecutors judges parole officers and pathologists She also believes that those who work with children need to be aware that all documented cases of serial killers reveal either childhood abuse or neglect and that children displaying antisocial behaviour should be identified and receive counselling Only in being proactive in preserving the mental health and well being of children can the double tragedy of serial homicide ultimately be prevented
