Sean O Conaills:

Seán Ó Conaill's Book Seán Ó Conaill, 1981 *International Folkloristics* Alan Dundes, 1999 International folkloristics is a worldwide discipline in which scholars study various forms of folklore ranging from myth folktale and legend to custom and belief Twenty classic essays beginning with a piece by Jacob Grimm reveal the evolving theoretical underpinnings of folkloristics from its nineteenth century origins to its academic coming of age in the twentieth century Each piece is prefaced by extensive editorial introductions placing them in a historical and intellectual context The twenty essays presented here including several never published previously in English will be required reading for any serious student of folklore **Gaelic Prose in the Irish Free State** Philip O'Leary, 2010-07-01 This is an authoritative account of the a major but neglected aspect of the Irish cultural renaissance prose literature of the Gaelic Revival The period following the War of Independence and Civil War saw an outpouring of book length works in Irish from the state publishing agency An Gúm The frequency and production of new plays both original and translated have never been approached since This book investigates all of these works as well as journalism and manuscript material and discusses them in a lively and often humorous manner Publisher description **The Irish Folklore Commission 1935-1970** Mícheál Briody, 2008-06-16 Between 1935 and 1970 the Irish Folklore Commission Coimisiún Balaídeasa ireann under funded and at great personal cost to its staff assembled one of the world's largest folklore collections This study draws on the extensive government files on the Commission in the National Archives of Ireland and on a wide variety of other primary and secondary sources in order to recount and assess the work and achievement of this world famous institute The cultural linguistic political and ideological factors that had a bearing on the establishment and making permanent of the Commission and that impinged on many aspects of its work are here elucidated The genesis of the Commission is traced and the vision and mission of its Honorary Director Samus Duilearga James Hamilton Delargy is outlined The negotiations that preceded the setting up of the Commission in 1935 as well as protracted efforts from 1940 to 1970 to place it on a permanent foundation are recounted and examined at length All the various collecting programmes and other activities of the Commission are described in detail and many aspects of its work are assessed and in some cases reassessed This study also deals with the working methods and conditions of employment of the Commission's field and Head Office staff as well with Samus Duilearga's direction of the Commission Scattering the Proud Sean O'Conaill, 2012-07-12 In this radically original and optimistic reflection on the future of Christianity in the Western world Sean O'Conaill starts from the conviction that the life ministry and death of Jesus of Nazareth were a deliberate reversal of the human heroic journey to adulation and influence which has caused violence tyranny and injustice in all epochs He did not identify with or seek to emulate the powerful and the influential he sought out the outcasts and taught that every person was of equal worth in the eyes of God In the end he exalted the person who was most despised the victim by accepting an ignominious death O'Conaill argues that even since the earliest times Jesus's followers have been tempted to

rejoin the upward journey toward power and influence a journey which inevitably creates pyramids of esteem or hierarchies of respect which glorify individuals and elites at the expense of majorities The development of the relationship between Christianity and the political establishment in the fourth century soon associated Christ himself with coercion and led in the end to the schisms between East and West Protestant and Catholic and between Christianity and liberal secularism It is also at the root of the silent schism within the Catholic church today The future of Christianity then lies in its willingness to abandon this upward journey and to return to the essence of the gospel message not only institutionally but personally in the lives of all Christians This return to a countercultural stance will aim to raise the disadvantaged and to secure the future of the global family and its environment

The Event and Its Terrors Stuart John McLean, 2004 The Event and its Terrors undertakes a critical reimagining of one of the major events of Irish history the Great Famine of the 1840s and of its subsequent legacies Drawing on a wide range of sources past and present it considers the emergence of the Famine as an object of historical knowledge and controversy with reference both to the experience of modernity and to the production of academic and nationalist histories in colonial and post independence Ireland In doing so it explores the possibility of alternative modes of engagement with the past via contemporary eyewitness accounts oral histories literature folklore and present day commemorative events

The Origins and Rise of Dissident Irish Republicanism John F. Morrison, 2013-12-19 Throughout its history the Irish Republican Movement has been beset by splits The former paramilitary and author Brendan Behan famously quipped that The first thing on the agenda was always the split In this in depth research Morrison analyses the splits through his extensive range of interviews with leadership and rank and file members of the political and paramilitary wings of the Movement This timely analysis shows how the splits have both aided the politicization of Sinn Fein and the Provisional IRA while in parallel they have brought about the recent intensification of dissident

Republican paramilitary activity He charts the rise of groups including the Real IRA Continuity IRA and the newly emerging New IRA By applying his unique process model of splits Morrison provides an insightful analysis of this long lasting terrorist movement

Sin and Forgiveness Kay Carmichael,2019-09-16 Originally published in 2003 Western attitudes to crime were in the past rooted in concepts of sin and therefore of hopes for redemption and forgiveness So what happens to offenders and society as a whole in a world where people no longer talk of sin but of evil If hopes of redemption go too will revenge take the place of forgiveness Kay Carmichael explores these dilemmas in this topical and provocative book She traces the stories of Myra Hindley Mary Bell Sarah Payne James Bulger and his killers comparing public responses to such crimes in various Western countries Art and literature are examined for the light they throw on the evolution of our ideas about sin and forgiveness from Rembrandt to Nathaniel Hawthorne Samuel Becket Dali and writings inspired by the Holocaust Turning to our own day Carmichael discusses the emergence of structural sins or iniquities in which we may all find ourselves involved poverty slavery violence and war are her themes Her analysis leaves her sceptical about many contemporary appeals for forgiveness but hopeful about ideas of restorative justice

The Devil from over the Sea Sarah Covington,2022-03-24 In Ireland few figures have generated more hatred than Oliver Cromwell whose seventeenth century conquest massacres and dispossessions would endure in the social memory for ages to come The Devil from over the Sea explores the many ways in which Cromwell was remembered and sometimes conveniently forgotten in historical religious political and literary texts according to the interests of different communities across time Cromwell s powerful afterlife in Ireland however cannot be understood without also investigating his presence in folklore and the landscape in ruins and curses Nor can he be separated from the idea of the Cromwellian a term which came to elicit an entire chain of contemptuous associations that would begin after his invasion and assume a wholly new force in the nineteenth century What emerges from all these memorializing traces is a multitudinous Cromwell who could be represented as brutal comic sympathetic or satanic He could be discarded also tellingly from the accounts of the past and especially by those which viewed him as an embarrassment or worse In addition to exploring the many reasons why Cromwell was so vehemently remembered or forgotten in Ireland Sarah Covington finally uncovers the larger truths conveyed by sometimes fanciful or invented accounts Contrary to being damaging examples of myth making the memorializations contained in martyrologies folk tales or newspaper polemics were often productive in cohering communities or in displaying agency in the form of counter memories that claimed Cromwell for their own and reshaped Irish history in the process

The Limits and Legitimacy of Referendums Richard Albert, Richard Stacey, 2022 The possibility of democracy enhancing uses and anti democratic abuses of referendums reveals a paradox mechanisms of democracy can be exploited to do violence to the basic principles of democracy The Limits and Legitimacy of Referendums seeks to identify standards we might use to assess the democratic legitimacy of a referendum when we cannot

rely on the norms of traditional liberal democracy This innovative book explores how referendums manage the tension between liberalism and democracy and whether this device holds promise for reconciling these two commitments A range of scholars from around the world expose how referendums may be abused on one hand to achieve short term political or even personal gains and how on the other they may aspire to reflect the best traditions of deliberative innovative democracy enhancing popular decision making Structured around three big questions this book seeks to identify what makes a referendum legitimate First why have referendums on issues of fundamental political importance become so frequent around the world Second who are or who should be the people that make decisions about a political community s future And third are referendums an effective and reliable mechanism of popular sovereignty or democratic choice These essays written for scholars public lawyers political actors and citizens bring together diverse perspectives on referendums constitutionalism liberalism and democracy in ways that challenge the conventional wisdom prompt new answers to enduring questions and urge reconsideration of how we evaluate the legitimacy of referendums *Report* National Library of Ireland,1921
