The FBI and Martin Luther King, Jr. David J. Garrow, 2015-02-17 The author of Bearing the Cross the Pulitzer Prize winning biography of Martin Luther King Jr exposes the government's massive surveillance campaign against the civil rights leader When US attorney general Robert F Kennedy authorized a wiretap of Martin Luther King Jr's phones by the Federal Bureau of Investigation he set in motion one of the most invasive surveillance operations in American history Sparked by informant reports of King's alleged involvement with communists the FBI amassed a trove of information on the civil rights leader Their findings failed to turn up any evidence of communist influence but they did expose sensitive aspects of King's personal life that the FBI went on to use in its attempts to mar his public image Based on meticulous research into the agency's surveillance records historian David Garrow illustrates how the FBI followed King's movements throughout the country bugging his hotel rooms and tapping his phones wherever he went in an obsessive quest to destroy his growing influence Garrow uncovers the voyeurism and racism within J Edgar Hoover's FBI while unmasking Hoover's personal desire to destroy King The spying only intensified once King publicly denounced the Vietnam War and the FBI continued to surveil him until his death The FBI and Martin Luther King Jr clearly demonstrates an unprecedented abuse of power by the FBI and the government as a whole

The Least of

These Anthony E. Cook, 2014-06-11 First published in 1997 Examining race law and religion in today's America *The Least of These* highlights the power of these principles to both divide and unite and promotes a new form of liberalism that incorporates the spiritual values long neglected by earlier progressive liberals Relaunching the fundamental tenet of progressive liberalism that a justly ordered society must protect the interests and promote opportunities for the least advantaged of its population Anthony Cook argues for a revival of the progressive vision of American politics While the affirmative action debates smolder around the country Cook contends that the spiritual foundation of this liberal tenet must be unearthed and elaborated to fit our times before we can attempt to tackle the issues that the civil rights era has left unanswered As the twentieth century closes *The Least of These* provides a greater understanding of the roots of our ongoing socio-political struggles and serves as an invaluable profile of progressive liberal politics from World War II to the present

A Baptist Preacher's Buddhist Teacher Lawrence Edward Carter Sr., 2018-11-01 In this inspiring soul-stirring memoir Lawrence E. Carter Sr., founding dean of the Martin Luther King Jr. International Chapel, shares his remarkable quest to experience King's beloved community and his surprising discovery in mid-life that King's dream was being realized by the Japanese Buddhist philosopher and tireless peace worker Daisaku Ikeda Coming of age on the cusp of the American Civil Rights Movement, Carter was personally mentored by Martin Luther King Jr. and followed in his footsteps first to get an advanced degree in theology at Boston University and then to teach and train a new generation of activists and ministers at King's alma mater Morehouse College Over the years, however, Carter was disheartened to watch the radical cosmic vision at the heart of King's message gradually diluted and marginalized He found himself in near despair until his remarkable encounter with the lay Buddhist association Soka Gakkai International and a life-changing meeting with Ikeda, its president Carter knew that King had been inspired by Gandhi, a Hindu, and now Ikeda, a Buddhist, was showing him how King's message of justice, equality, and the fundamental dignity of life could be carried to millions of people around the world What ensued was not a conversion but a conversation about the essential role of interfaith dialogue, the primacy of education, and the value of a living faith to create a human revolution and realize at last Martin Luther King's truest dream of a global world house In these dark and frustrating times, the powerful dialogue between Carter and Ikeda gives hope and guidance to a new generation of reformers, activists, and visionaries

The Making of American Liberal Theology Gary J. Dorrien, 2006-01-01 In this first of three volumes, Dorrien identifies the

indigenous roots of American liberal theology and demonstrates a wider longer running tradition than has been thought The tradition took shape in the nineteenth century motivated by a desire to map a modernist third way between orthodoxy and rationalistic deism atheism It is defined by its openness to modern intellectual inquiry its commitment to the authority of individual reason and experience its conception of Christianity as an ethical way of life and its commitment to make Christianity credible and socially relevant to modern people Dorrien takes a narrative approach and provides a biographical reading of important religious thinkers of the time including William E Channing Ralph Waldo Emerson Horace Bushnell Henry Ward Beecher Elizabeth Cady Stanton and Charles Briggs Dorrien notes that although liberal theology moved into elite academic institutions its conceptual foundations were laid in the pulpit rather than the classroom **Ethical**

Leadership Walter E. Fluker, 2009 We live in a leadership crisis In an age when incompatible worlds collide and when scandals rock formerly stable institutions says Walter Fluker what counts most is ethical leadership and the qualities of personal integrity spiritual discipline intellectual openness and moral anchoring Fluker finds these characteristics exemplified in the work and thought of black church giants Martin Luther King Jr and Howard Thurman This volume for leaders and emergent leaders in religious and other settings sets forth the context and principles for ethical leadership particularly for ministries and other professions whose mission directly advances the common good Fluker's volume grounds leadership in story the appropriation of one's roots as a basis for personal and social transformation He then explores the key values of character civility and community for ethical action on the personal public and spiritual realms From these considerations he develops a model of the specific virtues that embody each realm of ethical leadership before applying them to the practical aspects of leadership and decisionmaking **International Encyclopedia of Civil Society** Helmut K.

Anheier, Stefan Toepler, 2009-11-24 Recently the topic of civil society has generated a wave of interest and a wealth of new information Until now no publication has attempted to organize and consolidate this knowledge The International Encyclopedia of Civil Society fills this gap establishing a common set of understandings and terminology and an analytical starting point for future research Global in scope and authoritative in content the Encyclopedia offers succinct summaries of core concepts and theories definitions of terms biographical entries on important figures and organizational profiles In addition it serves as a reliable and up to date guide to additional sources of information In sum the Encyclopedia provides an overview of the contours of civil society social capital philanthropy and nonprofits across cultures and historical periods For researchers in nonprofit and civil society studies political science economics management and social enterprise this is the most systematic appraisal of a rapidly growing field
