Arthurian Literature ,1995 **The Golden Specific** S. E. Grove,2016-06-14 For fans of The Golden Compass this is book two in the Mapmakers Trilogy and follow up to S E Grove s stunning debut The Glass Sentence It is the summer of 1892 one year since Sophia Tims and her friend Theo embarked upon the dangerous adventure that rewrote the map of the world Since their return home to Boston she has continued searching for clues to her parents disappearance combing archives and libraries grasping at even the most slender leads Theo has apprenticed himself to an explorer in order to follow those leads across the country but one after another proves to be a dead end Then Sophia discovers that a crucial piece of the puzzle exists in a foreign Age At the same time Theo discovers that his old life outside the law threatens to destroy the new one he has built with Sophia and her uncle Shadrack What he and Sophia do not know is that their separate discoveries are intertwined and that one remarkable person is part of both There is a city that holds all of the answers but it cannot be found on any map Surrounded by plague it can only be reached by a journey through darkness and chaos which is at the same time the plague s cure The Golden Specific This delicious blend of magic history and science will continue to delight fans of intricate world building and rich storytelling School Library Journal Readers who have already read the first installment will gladly savor another journey with Sophia and marvel at the worlds they enter Brilliantly imagined and full of wonder Kirkus Reviews **Books** ,1991 Books Magazine ,1991 **Children's Book Review Index 85-94 V 3** George Baer,1995-12-04 *Golden Sheaves Gathered from the Fields of Ancient and Modern Literature* ,1869 Golden Sheaves H.A. Cleveland,2022-05-10 Reprint of the original first published in 1869 Historical Dictionary of Scandinavian Cinema John Sundholm,Isak Thorsen,Lars Gustaf Andersson,Olof Hedling,Gunnar Iversen,Birgir Thor Møller,2012-09-20 Although

relatively small the northern countries of Scandinavia have made a disproportionately large contribution to world cinema. Indeed some of their films are among the best known of all times including *The Seventh Seal*, *Dancer in the Dark* and *The Girl with the Dragon Tattoo*. And Scandinavian directors are also among the best known just to mention Ingmar Bergman and Lars von Trier. But there is much more to the cinema of Denmark, Norway, Sweden, Finland and Iceland than that and this book shows us what they have been accomplishing over more than a century from the beginnings of cinema until the present. *The Historical Dictionary of Scandinavian Cinema* shows just how long and busy this history has been in the chronology starting in 1896. The introduction then describes the situation in each one of the component countries all of which approached and developed the field in a similar but also slightly different manner. The dictionary section with over 400 substantial entries looks at the situation in greater detail with over 400 substantial entries on major actors, directors and others, significant films, various genres and themes and subjects such as animation, ethnicity, migration and censorship. Given its contribution to world cinema it is good to finally have an encyclopedia like this which can meet the interests of the scholar and researcher but also the movie fan.

Whitaker's Book List, 1991 *Major Authors and Illustrators for Children and Young Adults* Joyce Nakamura, 1993. Contains updated and revised sketches on nearly 800 of the most widely read authors and illustrators appearing in Gale's *Something about the author* series.

In Search of Arctic Birds Richard Vaughan, 2010-10-30. Arctic birds have long held a fascination for Richard Vaughan whose trips to the region watching and photographing birds have provided the raw material for a number of previous publications. Here he focuses on the historical aspects of Arctic ornithology bringing to life not only the birds but the activities of those who have lived with them or explored in search of them. A general introduction to the Arctic and the forces that shape its bird populations and their biology is followed by sections on native peoples, whaling and discovery ships and the famous ornithologists who have investigated these often inhospitable habitats. Conservation both of individual species and of habitats is discussed against the background of threats to the Arctic environment. Since half the Arctic lies in Russia detailed consideration is naturally given to Arctic bird studies in that country as well as in North America and Greenland. Purely ornithological interludes look in detail at the Gyrfalcon, Knots, Ross's Gull, geese, divers, Snowy Owls and many more. The book includes practical advice on how to visit the Arctic and where and when to go. Richard Vaughan's own photographs and the drawings of Swedish artist Gunnar Brusewitz do real justice to the beauty of both the environment and its birds.
