The Sphinx on the Table Janine Burke, 2009-05-26 Sigmund Freud's collection of Egyptian Greek and Roman antiquities is one of the art world's best kept secrets. Over a forty year period he amassed an extraordinary array of nearly three thousand statues, vases, reliefs, busts, rings, and prints. For Freud, psychoanalysis and his art collection developed together in a symbiotic, nourishing relationship, each informing and enriching the other. Freud used myth to illustrate controversial theories like the Oedipus complex, situating ancient symbolism in a modern context. He explored the archaeology of the mind, unearthing his patients' dreams and memories while creating a personal museum of ancient treasure. Freud compared the process to analysis, where he cleared away material layer by layer to the technique of excavating a buried city. To create a portrait of Freud, the art collector Janine Burke builds a vibrant, richly detailed and intimate image of his life and times, tracing Freud's taste for beautiful things back to his earliest years. *The Sphinx on the Table* is set against the glittering, decadent backdrop of fin de siècle Vienna, where an artistic flowering took place in painting, theater, writing, and architecture.

Creation Out of Clay Brother Thomas, Bill Aron, 1999-08-27 This lovely book presents essays and recent works in porcelain by Brother Thomas. Bezanson is praised as one of the greatest artists in the Western pottery world by well-known Japanese ceramicist Tatsuzo Shimaoka. Brother Thomas explores his faith and the process of creation side by side with illustrations of the celebrated porcelain vases, plates, and tea bowls that are his life's work. The book also contains a nineteen-page photo essay on Brother Thomas at work in his studio by Bill Aron of Los Angeles, an introduction by Joan Chittister, and an illustrated index of the works of Brother Thomas, now held in more than fifty museum collections around the world.

In Search of New Age Spiritualities Adam Possamai, 2019-01-22 The search for an adequate understanding of the New Age phenomenon is fraught with difficulties when examined within the perspectives of sociology of religion, which have shed light on religion in modernity. New Agers cannot be located easily in the secularisation narrative; they move through fluid networks rather than settled collectivities; they assemble personal syncretisms of belief, myth, and practice rather than subscribe to codified doctrines and prescribed rituals. New Age is quickly found to be a label that is unacceptable to many of those designated as New Agers. This book advances our understanding of the so-called New Age phenomenon by analysing accounts of insiders' religious experience and orientations. This approach is brought to bear not only on the study of written documents relating to New Age and its putative antecedents but on the analysis of in-depth interviews with thirty-five spiritual actors.

Jung (RLE: Jung)* John-Raphael Staude, 2014-07-17 Originally published in 1981 this study presents Jung s theory of adult personality development and analyses and interprets in its biographical and historical context the genesis and development of Jung s theory of the individuation process Dr Staude argues that an in depth study of Jung s life offers insights into the patterns and processes of adult development and he focuses particularly on Jung s writings during and immediately after his mid life transition He shows how Jung articulated his hard won insights into adult development in his books and essays and into his analytic practice and considers how Jung s developmental theory relates to the changes he experienced in his own life and in his socio historical environment Dr Staude concludes that Jung s emphasis on impersonal universals of human psychic development complements and supplements the personal emphasis of ego development theory and provides the foundations for a more holistic understanding of adult developmental psychology **Sin and Repentance of the End Times** Archim.
