

William Shakespeare was born in Stratford on about April 23rd 1564. His father William was a successful local businessman and his mother Mary was the daughter of a landowner. Relatively prosperous it is likely the family paid for William's education, although there is no evidence he attended university.

In 1582 William, aged only 18, married an older woman (26) named Anne Hathaway. Soon after they had their first daughter, Susanna. They had another 2 children but William's only son Hamnet died aged only 11. After his marriage information about the life of Shakespeare is sketchy but it seems he spent most of his time in London writing and performing in his plays. Only returning home during Lent when all theatres were closed. It is generally thought that during the 1590s he wrote the majority of his sonnets. This was a time of prolific writing and his plays developed a good deal of interest and controversy. *A Midsummer Night's Dream*, *Romeo and Juliet* and *Two Gentlemen of Verona* were written between 1589 and 1595.

William Shakespeare explores political survival as a question of interaction at court in *King Lear*, *Macbeth* and *Antony and Cleopatra*. Through a discussion of authority as an element that is distinct from power, this book offers a new perspective on the importance of acts of persuasion and the contribution the late tragedies make to Shakespeare's portrayal of monarchy. It argues that the most productive uses of the material power to judge or reward are those that reinforce royal authority and establish the monarch at the centre of the web of noble relationships. In the late tragedies, rulership is exercised at court. It acquires a nature of its own as the interaction of powerful and potentially powerful individuals among the nobility. The persuasive exercise of authority complements the tangible power that is founded on the monarch's material resources, so that consent to the monarch's supremacy is obtained through various discourses of justification and the performance of the monarch's social role. Shakespeare's combination of emotional intimacy with political concerns becomes central to the tragedies of these three plays when the failure to establish control over power and authority leads to the breakdown of established values and political traditions.
