Visual Methodologies Gillian Rose, 2007. Comprehensively revised and updated the Second Edition of the bestselling *Visual Methodologies* provides a critical introduction to the study and interpretation of visual culture. The Second Edition contains a completely new chapter on how to use the book; each chapter follows the same structure making comparisons between methods easier. Three extra chapters each discussing a method not covered in the First Edition.

Working with Conservation Data Athanasios Velios, 2024-12-30. *Working with Conservation Data* provides a practical step by step guide that describes how to approach the issue of documentation in a professional conservation environment. Documentation forms an essential part of conservation work allowing conservators to preserve essential information about objects over time. With the increasing popularity of digital tools for documenting conservation work it is important that a solid framework for organising this information is in place. Each chapter within this book corresponds to an individual step of a larger process of documentation providing readers with not only a reference for specific parts of the process but also a thorough guide to implementing or improving a conservation documentation system. The book explores important concepts involved in the documentation of conservation as well as research and practical questions and an analysis of implicit information embedded within conservation data and how it can be used to answer conservation questions. It also outlines best practices for producing conservation data and recommendations for structuring and sharing conservation data so that documentation records can be easily retrieved and combined with other data. *Working with Conservation Data* is an invaluable reference work suitable for conservators working on documentation projects as well as professionals working in the computing and information departments of museums, galleries, libraries and archives.

Summary Catalogue of European Decorative Arts in the J. Paul Getty Museum Gillian Wilson, Catherine Hess, 2002-03-07. J. Paul Getty had a passion for the exquisitely made furniture and decorative objects of eighteenth century France which he began collecting in the 1930s. Gillian Wilson, curator of decorative arts since 1971, has broadened and strengthened the collection adding Boulle furniture, mounted oriental porcelain tapestries, clocks, ceramics and more. In the 1980s and 1990s the Museum continued to enlarge its decorative arts holdings creating a European sculpture department in 1984 and adding glass, maiolica, goldsmiths' work, pietre dure and furniture from Italy and Northern Europe. This book is a revised and expanded edition of *Decorative Arts: An Illustrated Summary Catalogue of the Collection of the J. Paul Getty Museum* 1993. In addition to more than forty recent acquisitions among these four wall sconces from Versailles that once belonged to Marie Antoinette and an elaborate upholstered bed from the collection of Karl Lagerfeld, it includes the results of years of research. Designed for scholars, students and devotees of the decorative arts, this volume provides a comprehensive look at the Getty's fine collection.
