potentials of transitional justice in Turkey's ongoing conflict by focusing on the perspectives of victims survivors and grassroots justice activists Such perspectives have received little attention in the transitional justice literature even as it has exhibited an increasing interest in contexts where no formal transition has taken place But as this book demonstrates the Kurdish conflict reveals the importance not only of documenting these perspectives but in seeing how those most affected by conflict are able to transform their experience into political action Drawing on Kurdish victim survivors own understandings of their experiences and activists perceptions of the potential of transitional justice the book thereby addresses and advocates the transformative potential of bottom up grassroots level efforts to deliver transitional justice goals This book will appeal to transitional justice scholars and practitioners those with interests in the role of social movements as well as others with interests in the Kurdish conflict or in Middle Eastern politics more generally
