The Haunted Study P. J. Keating,2012-10-04 The Haunted Study a rare example of a work of literary history that is genuinely interdisciplinary explores how the leading novelists of the late Victorian and Edwardian periods came to develop so many of the attitudes that are now generally accepted as characteristically modern The writing of fiction is not treated as though it exists in some kind of isolation but is shown to be intimately related to other forms of social activity Conrad James Meredith and their immediate modernist successors Joyce Lawrence and Woolf may now seem to be set apart in a variety of crucial ways from say Ouida and Marie Corelli or even Gissing Wells and Bennett but all of them worked within the same rapidly changing society and were unavoidably influenced by its dominant economic political and cultural concerns These influences were not peripheral but central and formative They profoundly affected the creation of a commercially fragmented culture as well as the nature of fiction within that culture The Haunted Study covers an exceptionally large number of authors from the critically despised to the critically admired and examines the impact on their work of such factors as the professionalisation of literature the earning power of authors the emergence of new kinds of readers and disturbingly present throughout the whole period fundamental democratic change **"The" Athenaeum** ,1897 *Charles Darwin* J. David Archibald,2018-12-15 Charles Darwin A Reference Guide to His Life and Works provides an important new compendium presenting a detailed chronology of all aspects Darwin s life The extensive encyclopedia section includes many hundreds of entries of various kinds related to Darwin people places institutions concepts and his publications The bibliography provides a comprehensive listing of the vast majority of Darwin s works published during and after his lifetime It also provides a more selective list of publications concerning his life and work Includes a nearly year by year chronology detailing Charles Darwin s life family and work The A to Z section includes many entries on concepts and people important in Charles Darwin s life and his work emphasizing during his lifetime but extending somewhat backwards and forwards from there The bibliography includes all of Charles Darwin s articles and books published in his lifetime in English and other languages as well as a selective list of works about him and his work The index thoroughly cross references the chronological and encyclopedic entries *Lives of Victorian Literary Figures, Part V, Volume 1* Ralph Pite,William Baker,Judith L Fisher,Andrew Gasson,Andrew Maunder,2024-05-31 Considers the reputations and biographical portrayal of three innovative and controversial writers Mary Elizabeth Braddon Wilkie Collins and William Thackeray These anthologies of contemporary biographical material shed light on the processes at work in the establishment of a public image and a critical reputation *The Religious Revolution* Dominic Green,2025-09-23 An incisive study of the Western world s shift from institutional religion to more personal beliefs in the second half of the 19th century This is intellectual history at its most comprehensive

and convincing Publishers Weekly starred review The late nineteenth century was an age of grand ideas and great expectations fueled by rapid scientific and technological innovation In Europe the ancient authority of church and crown was overthrown for the volatile gambles of democracy and the capitalist market If it was an age that claimed to liberate women slaves and serfs it also harnessed children to its factories and subjected entire peoples to its empires Amid this tumult another sea change was underway the religious revolution In *The Religious Revolution* Dominic Green charts this profound cultural and political shift taking us on a whirlwind journey through the lives and ideas of Ralph Waldo Emerson and Walt Whitman of liphas L vi and Helena Blavatsky of Wagner and Nietzsche of Marx Darwin and Gandhi Challenged by the industrialization globalization and political unrest of their times these figures found themselves connecting with the religious impulse in surprising new ways inspiring others to move away from the strictures of religion and toward the thrill and intimacy of spirituality The modern era is often characterized as a time of increasing secularism but in this trenchant new work Green demonstrates how the foundations of modern society were laid as much by spirituality as by science or reason The *Religious Revolution* is a narrative tour de force that sweeps across several continents and five of the most turbulent and formative decades in history Threading together seemingly disparate intellectual trajectories Green illuminates how philosophers grifters artists scientists and yogis shared in a global cultural moment borrowing one another s beliefs and making the world we know today

Naturalist Fiction David Baguley, 1990 This is the first major study of naturalist fiction as a distinct literary genre It

focuses mainly on French naturalist literature analysing a number of key works in detail but also draws examples from other national traditions particularly from the English novel Professor Baguley questions and revises many traditional assumptions on important theoretical issues such as the nature of literary history the concepts of realism and naturalism and the relations between science and literature He demonstrates the prevalence of certain recurrent generic patterns themes and techniques in the general body of naturalist literature ranging from disquieting tragic developments to the most outrageous ironic and parodic effects He argues persuasively that far from being a mere record of the external aspects of reality naturalist fiction is a literature of scandalous provocation which employs the strategies of realist art to convey a profoundly disturbing vision of that reality
