King, 2024-11-01 What do I do when I can't believe By nature and nurture we're trained to doubt We're fluent in skepticism It's no surprise then many of us struggle to believe the basic claims of Christianity Does God exist Was Jesus God Did Jesus rise from the dead Without convinced right answers to these questions many bump into a seemingly immovable barrier to Christian faith But this book offers another way Centered on faith as trust this book offers the way of hope for those who struggle to believe in Christian claims Engaging Scripture and the Christian tradition it proposes a way of faith without belief The Children's advocate. Stephenson Thomas Bowman Stephenson, *An Essay Toward the Amendment of the Last English-translation of the Bible* Robert Gell, 1659 **Handbook of Autobiography / Autofiction** Martina Wagner-Egelhaaf, 2019-01-29 Autobiographical writings have been a major cultural genre from antiquity to the present time General questions of the literary as e.g. the relation between literature and reality

truth and fiction the dependency of author narrator and figure or issues of individual and cultural styles etc can be studied preeminently in the autobiographical genre Yet the tradition of life writing has in the course of literary history developed manifold types and forms Especially in the globalized age where the media and other technological cultural factors contribute to a rapid transformation of lifestyles autobiographical writing has maintained even enhanced its popularity and importance By conceiving autobiography in a wide sense that includes memoirs diaries self portraits and autofiction as well as media transformations of the genre this three volume handbook offers a comprehensive survey of theoretical approaches systematic aspects and historical developments in an international and interdisciplinary perspective While autobiography is usually considered to be a European tradition special emphasis is placed on the modes of self representation in non Western cultures and on inter and transcultural perspectives of the genre The individual contributions are closely interconnected by a system of cross references The handbook addresses scholars of cultural and literary studies students as well as non academic readers
