**The Politics of Dispossession** Edward W. Said, 1995-05-30 Author of the groundbreaking *The Question of Palestine* Edward Said has been America's most outspoken advocate for Palestinian self determination As these collected essays amply prove he is also our most intelligent and bracingly heretical writer on affairs involving not only Palestinians but also the Arab and Muslim worlds and their tortuous relations with the West Solidly imbued with historical context and geopolitical conjecture fresh unpredictable personal and incorruptible writing Boston Globe In *The Politics of Dispossession* Said traces his people's struggle for statehood through twenty five years of exile from the PLO's bloody 1970 exile from Jordan through the debacle of the Gulf War and the ambiguous 1994 peace accord with Israel As frank as he is about his personal involvement in that struggle Said is equally unsparing in his demolition of Arab icons and American shibboleths Stylish impassioned and informed by a magisterial knowledge of history and literature *The Politics of Dispossession* is a masterly synthesis of scholarship and polemic that has the power to redefine the debate over the Middle East

Variations on Sovereignty Hannes Černý, Janis Grzybowski, 2023-05-24 This edited book explores diverse contestations and transformations of sovereignty around the world Sovereignty plays a central role in modern political thought and practice but it also remains fundamentally contested Depending on the context and perspective it seems either omnipresent or elusive liberating or oppressive fading or resilient Indeed if in recent decades sovereignty has been expected to wane today it is back on the agenda not as the solid bedrock of modern international politics which it never was but as variations on a concept and institution that are ever contested and as a result constantly transforming Bringing together perspectives from various disciplines including International Relations IR political theory geography law and anthropology this volume goes beyond debates over the resilience or decline of sovereignty to instead emphasize how precisely the inherent ambiguities tensions and contestations in scholarship and practice spark sovereignty's manifold transformations offers three theoretical chapters that examine the illusions contradictions transformation and lasting appeal of sovereignty and the nation state explores sovereignty from various disciplinary perspectives in 11 empirical chapters that highlight its role in different contexts around the world from the European Union EU to the South China Sea to Western Sahara and Palestine problematizes the interplay between theory and practice of statehood and sovereignty as in the perception of Northern Cyprus as a fake state scholars promotion of Kurdish statehood in Iraq and studies affirming the Islamic State This book will be of much interest to students of statehood

*Encyclopedia of the Palestinians* Philip Mattar, 2005 Presents the history of modern Palestine and biographies of important Palestinians

*Blaming the Victims* Christopher Hitchens, Edward W. Said, 2020-05-05 Since the 1948 war which drove them from their heartland the Palestinian people have consistently been denied the most basic democratic rights *Blaming the Victims* shows how the historical fate of the Palestinians has been justified by spurious academic attempts to dismiss their claim to a home within the boundaries of historical Palestine and even to deny their very existence Beginning with a thorough exposé of the fraudulent assertions of Joan Peters concerning the indigenous inhabitants of Palestine prior to 1948 the book then turns to similar instances in Middle East research where the truth about the Palestinians has been systematically suppressed from the bogus though still widely believed explanations of why so many Palestinians fled their homes in 1948 to today's distorted propaganda about PLO terrorism The volume also includes sharp critiques of the wide consensus in the USA which supports Israel and its territorial ambitions while maintaining total silence about the competing reality of the Palestinians

**Children's Rights and Traditional Values** Gillian Douglas, Leslie Sebba, 2016-12-05 This book of essays by legal scholars from the United Kingdom, Ireland, Israel and Palestine explores the extent to which the recognition of the concept of children's rights is affected by adherence to religious, cultural and ethnic traditions. The aim is twofold: first to illuminate the interface between internationally agreed norms of conduct regarding children and national and cultural determination to preserve traditional approaches and secondly to reflect upon the conflicts within societies between different cultural and religious groups in their attempts to determine whether liberal, secular or conservative religious norms predominate in attitudes to children's upbringing. This is the first collection of papers covering and comparing the UK and Israeli/Palestinian jurisdictions. The particular blends of social, religious and cultural diversity in both regions mingled with the political factors operating as well render these jurisdictions of special interest as case studies in the reception of western liberal norms and values. Moreover, Israel and Palestine despite their manifestly different cultures as compared with Britain have been influenced by the colonial legacy of the common law rendering this particular east-west comparison of special interest.

*One Land, Two Peoples* Deborah J. Gerner, 2018-05-04 The Israeli/Palestinian conflict has once again captured world attention this time because of the coming together of Arafat and Rabin as a result of the secret Oslo Accords and the reactions ensuing from this historic and challenging event. *One Land Two Peoples* originally published in the throes of the intifada now brings its wide readership up to date on progress in the peace negotiations beginning with their breakdown and subsequent stalemate following the Gulf War and the ensuing renaissance stimulated by the Oslo Accords. *One Land Two Peoples* describes the Israeli/Palestinian dynamic as a conflict rooted in its own reality, a struggle that despite its international dimensions must be resolved by the principals themselves. Throughout Deborah Gerner shows how what is happening today is steeped in the history of the region and illustrates ways that theories of international relations can help address questions about the politics of national identity and the roles of economics, culture, religion and outside actors in fueling or quelling the conflict. In its first edition this text was commended for its clarity, conciseness and balanced viewpoint. It has been used in college classrooms ranging from international relations and foreign policy to Middle East studies, religious studies, peace studies, history, English and many more. This new and fully revised second edition includes updated maps, tables, photos, illustrations, media resources, chronology and glossary, all of which add to the superb text presentation. **Arab and**

**Israeli Terrorism** Kameel B. Nasr, 2007-05-07 Historically, terrorism has generally failed as a means to reach a political objective. Most often, terrorist incidents have brought fear to the civilian sector but only served to harden the attitudes of governments. Despite this indiscriminate, anticivilian violence steadily increased in the last half century, particularly in the Middle East. This work provides an historical overview of terrorism in the region, focusing on specific guerrilla actions. The

hijackings of the 1960s the Black September attack during the 1972 Munich Olympics and the rise of Abu Nidal are all covered thoroughly as are many other groups and incidents in the Middle East The ineffectiveness of counter terrorism showing how it often precipitates the rise of small terrorist cliques is also covered Particular attention is given to Israel s response to terrorism and the effect of terrorism on the country s development and national psyche *Justice Without Violence* Paul Ernest Wehr, Heidi Burgess, Guy M. Burgess, 1994 A mixture of theoretical analysis and case studies from Asia Africa Europe Latin America and the Middle East this book examines non violent direct action political action economic sanctions and social movements as alternative remedies in the struggle for justice The authors thus address the basic questions that underlie current debates in international politics over the use of preventive diplomacy humanitarian intervention and international enforcement action
