hierarchical networks of communication and memorialization After the attacks poems circulated in public spaces in unexpected ways creating links and relationships that were binding they were inscribed on banners and monuments musicalized in anthems protest songs and hip hop music reproduced on manifestos and blogs sent by email and text scribbled on scraps of paper and posted on walls performed publicly and painted as graffiti These forms of expression also resonated strongly with Spanish poets who had already been exploring the possibilities of ethical engagement and aesthetic creation Poetry and Crisis explores how this essentially poetic sensibility emerged from tragedy laying the groundwork for similar kinds of affective and grassroots mobilization that continue to grow in Europe today **Encyclopedia of Latin American Literature**
