Papa Wore No Halo:

A Coat of Many Colors Walter Conser, 2006-09-04 While religious diversity is often considered a recent phenomenon in America the Cape Fear region of southeastern North Carolina has been a diverse community since the area was first settled Early on the region and the port city of Wilmington were more urban than the rest of the state and thus provided people with opportunities seldom found in other parts of North Carolina This area drew residents from many ethnic backgrounds and the men and women who settled there became an integral part of the region s culture Set against the backdrop of national and southern religious experience A Coat of Many Colors examines issues of religious diversity and regional identity in the Cape Fear area Author Walter H Conser Jr draws on a broad range of sources including congregational records sermon texts liturgy newspaper accounts family memoirs and technological developments to explore the evolution of religious life in this area Beginning with the story of prehistoric Native Americans and continuing through an examination of life at the end of twentieth century Conser tracks the development of the various religions denominations and ethnic groups that call the Cape Fear region home From early Native American traditions to the establishment of the first churches cathedrals synagogues mosques and temples A Coat of Many Colors offers a comprehensive view of the religious and ethnic diversity that have characterized Cape Fear throughout its history Through the lens of regional history Conser explores how this area s rich religious and racial diversity can be seen as a microcosm for the South and he examines the ways in which religion can affect such diverse aspects of life as architecture and race relations

Translation and Cultural Change Eva Hung, 2005-05-26 History tells us that translation plays a part in the development of all cultures Historical cases also show us repeatedly that translated works which had real social and cultural impact often bear little resemblance to the idealized concept of a good translation Since the perception and reception of translated works as well as the translation norms which are established through contest and or consensus reflect the concerns preferences and aspirations of their host cultures they are never static or homogenous even within a given culture This book is dedicated to exploring some of the factors in the interplay of culture and translation with an emphasis on translation activities outside the Anglo European tradition particularly in China and Japan
