International Finance: Theory and Policy in Africa Daniel Gbetnkom, 2012-01-26 It is now well known that there are close links between financial sector development and economic growth and in turn between economic growth and poverty reduction A well functioning financial sector that allocates finance to the best opportunities can contribute to a more diverse economy and a more equal society rewarding entrepreneurial newcomers and challenging an entrenched and sometimes corrupt economic and political status quo However at first glance the international finance theory and policies would seem to have little relevance for Africa as there were built up in response to developments that took place far from Africa and whose direct impact on Africa was limited Nonetheless key components of the international finance functioning are very relevant for Africa The ongoing global financial and economic crises that are shaking the world have come as a stark reminder that African countries have a direct interest in global financial stability even though they may not be the main actors In this line economic fundamentals sound national macroeconomic and structural policies and a sound and properly regulated financial system are as critical as ever in Africa This volume explores the application of the basic theory and the policies of international financial transactions in Africa It contains six chapters on conceptual and policy oriented issues Analyses raise important questions and offers favorable counter arguments to the application of international finance theory after bringing to focus the relevance of certain themes in Africa's inter state and intrastate policies

The Challenges of Democratic Governance in Nigeria's Fourth Republic Stanley Nariho Ngoa, Farooq A. Kperogi, Eghosa E. Osaghae, 2024-10-14 This book is a collection of scholarly essays from some of Nigeria's most notable social science scholars on the character contours and peculiarities of democratic practices in Nigeria's fourth attempt at constitutional rule after years of brutally absolutist military regimes The Fourth Republic began in 1999 and continues to this day It is coterminous with the restoration of constitutional rule after 16 years of sustained military rule which represents the longest stretch of democratic self rule since Nigeria won independence from British colonialism in 1960 The chapters in this book contain scholarly insights into the pitfalls of governance institutional dysfunctions and foundational woes that continue to threaten the vitality of the Fourth Republic Contributors to the book offer critical theoretical lenses to gaze at the decline in democratic citizenship weakening of faith in the promises of democracy loss of critical media engagement with the state and deterioration of the socio political fortunes of the state in Nigeria

Review of the Task Force on Foreign Assistance United States. Congress. House. Committee on Foreign Affairs, 1991 *Planning for Human Systems* Jean-Marc Choukroun, Roberta M. Snow, 2015-10-01 Russell Lincoln Ackoff is a recognized authority in the field of operations research and systems theory This volume is divided into four major sections The first deals with Ackoff's intellectual roots in the American pragmatic tradition The second section demonstrates how systems thinkers have incorporated Ackoff's ideas in their own work The third section shows the influence of Ackoff's thinking on decision making and problem solving while the final section offers a reassessment of current approaches to

systems planning on the national level In addition the editors have provided a general introduction as well as introductions to each of the five sections Planning for Human Systems will be of interest to students and scholars of operations research and systems theory Contributors Michel Chevalier C West Churchman Thomas A Cowan Eric Trist Ian I Mitroff Stafford Beer and Ignacy Sachs

Knowledge and Incentives in Policy Stefanie Haeffele, 2018-06-04 The relative effectiveness of various institutions such as the market or government is based on the ability for individuals to access and use dispersed knowledge in society and the incentives that steer their actions Market process theory emphasizes the effectiveness of the price system to consolidate and transmit knowledge in the marketplace Together this framework provides new insights on the capability of individuals to cooperate and improve society and the limits to government interventions in society The original research in each chapter uses this economic way of thinking to analyze a variety of public policy issues examining the incentives responsible for and the factors that contribute to the creation and effectiveness of the policies These chapters authored by public policy practitioners and researchers tackle such pressing issues as public education the process for approving medical devices tax policy and land use regulation

Hunger and Public Action Jean Drèze, Amartya Sen, 1989 This book analyses the role of public action in solving the problem of hunger in the modern world and is divided into four parts Hunger in the modern world Famines Undernutrition and deprivation and Hunger and public action

Human Rights in a Divided World David Hollenbach, 2024-07-01 An astute case for Catholic engagement with human rights for all Human rights should protect the dignity and well being of all people But in today s deeply divided world some argue that cultural differences and economic inequality undermine their universality In *Human Rights in a Divided World* David Hollenbach offers a comprehensive and cohesive analysis of the challenges to human rights suggesting that today s global realities call for important developments rooted in Catholic ethics This work of theological social ethics draws on a range of disciplines to address the question of whether or not human rights remain valid as universal standards for action in a multicultural religiously pluralistic and economically unequal world Hollenbach provides a compelling account of the contribution that Catholic ethics and practice make to an unequal world He applies the proposed understanding of human rights to several issues that are much debated today including religious freedom the rights of refugees and other forced migrants economic rights in the face of significant inequality and the rights of women *Human Rights in a Divided World* offers a clear path forward for the church in its engagement with politics and guidance for students of human rights as well as those working to advance them

The Politics of Global Debt Stephen P. Riley, 2016-07-27 *The Politics of Global Debt* is a detailed political analysis of the origins and consequences of the global debt crisis which emerged in the early 1980s It assesses both imperialist and New Right interpretations of the crisis and also presents a series of case studies of the effects of external debt upon Africa Latin America Eastern Europe and Asia The book focusses upon the sovereign debt of states and its management and examines the ways in which global economic structures inefficient policies weak institutions and corrupt

political leaders contribute to a global debt crisis which has both international and domestic roots **The Battle for Asia**

Mark T. Berger, 2004-03-01 Asia has long been an ideological battleground between capitalism and communism between nationalism and Westernisation and between the nation state and globalization This book is a history of the Asian region from 1945 to the present day which delineates the various ideological battles over Asia's development Subjects covered include theories of development decolonization US political and economic intervention the effects of communism the end of the Cold War the rise of neo liberalism Asia after the crisis Asia in the era of globalisation Broad in sweep and rich in theory and empirical detail this is an essential account of the growth of Asian miracle and its turbulent position in the global economy of the twenty first century *The Road from Mont Pèlerin* Philip Mirowski, Dieter Plehwe, 2009-06-19 What exactly is neoliberalism and where did it come from This volume attempts to answer these questions by exploring neoliberalism's origins and growth as a political and economic movement The Road from Mont Pèlerin presents the key debates and conflicts that occurred among neoliberal scholars and their political and corporate allies regarding trade unions development economics antitrust policies and the influence of philanthropy *Rivalry And Cooperation In The Asia-Pacific: The Dynamics Of A Region In Transition (In 2 Volumes)* Mark Beeson, 2019-09-23 Rivalry and Cooperation in the Asia Pacific provides a comprehensive and accessible introduction to the most important strategic and economic region in the world Asia Pacific is a region that is undergoing a major transformation largely as a consequence of the rise of China and its growing rivalry with the United States Whatever happens in the Asia Pacific will profoundly influence global events not just regional ones Looking ahead the region's future direction and even its name is contested and uncertain This two volume reference work by one of the world's leading analysts of regional affairs places these events in historical context and considers what they may mean for future political economic and strategic relations By focusing on the United States China and the region's most significant middle powers the book explains why and how the Asia Pacific has become the fulcrum of international events *Emerging Markets in an Upside Down World* Jerome Booth, 2014-06-03 The world is upside down The emerging market countries are more important than many investors realise They have been catching up with the West over the past few decades Greater market freedom has spread since the end of the Cold War and with it institutional changes which have further assisted emerging economies in becoming more productive flexible and resilient The Western financial crisis from 2008 has quickened the pace of the relative rise of emerging markets their relative economic power and with it political power but also their financial power as savers investors and creditors Emerging Markets in an Upside Down World Challenging Perceptions in Asset Allocation and Investment argues that finance theory has misunderstood risk and that this has led to poor investment decisions and that emerging markets constitute a good example of why traditional finance theory is faulty The book accurately describes the complex and changing global environment currently facing the investor and asset allocator It raises many questions often bypassed because of the use of simplifying assumptions and models The narrative builds towards

a checklist of issues and questions for the asset allocator and investor and then to a discussion of a variety of regulatory and policy issues Aimed at institutional and retail investors as well as economics finance business and international relations students Emerging Markets in an Upside Down World covers many complex ideas but is written to be accessible to the non expert

Property Rights, Indigenous People and the Developing World David Lea, 2008-06-30 This work offers an analysis of the Western formal system of private property and its moral justification and explains the relevance of the institution to particular current issues that face aboriginal peoples and the developing world The subjects under study include broadly aboriginal land claims third world development intellectual property rights and the relatively recent TRIPs agreement Trade related Aspects of Intellectual Property Rights Within these broad areas we highlight the following concerns the maintenance of cultural integrity group autonomy economic benefit access to health care biodiversity biopiracy and even the independence of the recently emerged third world nation states Despite certain apparent advantages from embracing the Western institution of private ownership the text explains that the Western institution of private property is undergoing a fundamental redefinition through the expansion

Collision and Collusion Janine R. Wedel, 2015-03-17 When the Soviet Union's communist empire collapsed in 1989 a mood of euphoria took hold in the West and in Eastern Europe The West had won the ultimate victory it had driven a silver stake through the heart of Communism Its next planned step was to help the nations of Eastern Europe to reconstruct themselves as democratic free market states and full partners in the First World Order But that as Janine Wedel reveals in this gripping volume was before Western governments set their poorly conceived programs in motion Collision and Collusion tells the bizarre and sometimes scandalous story of Western governments attempts to aid the former Soviet block He shows how by mid decade Western aid policies had often backfired effectively discouraging market reforms and exasperating electorates who remarkably had voted back in the previously despised Communists Collision and Collusion is the first book to explain where the Western dollars intended to aid Eastern Europe went and why they did so little to help Taking a hard look at the bureaucrats politicians and consultants who worked to set up Western economic and political systems in Eastern Europe the book details the extraordinary costs of institutional ignorance cultural misunderstanding and unrealistic expectations

The Political Economy Of International Organizations Roland Vaubel, Thomas D Willett, 2019-10-16 The idea for this volume was conceived by Frederick Praeger founder of Westview Press who asked Roland Vaubel if he would put together a collection of chapters on the public choice approach to the study of international organizations Vaubel felt it would be useful to have a coeditor from the United States and Thomas D Willett enthusiastically agreed to take on these duties

Liberty in Hume's History of England N. Capaldi, D. Livingston, 1990-10-31 LIBERTY IN HUME'S HISTORY OF ENGLAND In his own lifetime Hume was feted by his admirers as a great historian and even his enemies conceded that he was a controversial historian with whom one had to reckon On the other hand Hume failed to achieve positive recognition for his philosophical views It was Hume's History of England that

played an influential role in public policy debate during the eighteenth century in both Great Britain and in the United States. Hume's *History of England* passed through seven editions and was beginning to be perceived as a classic before Hume's death. Voltaire as an historian considered it perhaps the best ever written in any language. Gibbon greatly admired Hume's work and said of a letter written by Hume in 1776 praising the *Decline and Fall of the Roman Empire* that a compliment from Hume overpaid the labor of ten years. After Hume's death on August 20, 1776, the *History* became a factor in the revolutionary events that began to unfold. Louis XVI was a close student of Hume's *History* and his valet records that upon having learned that the Convention had voted the death penalty, the King asked for the volume in Hume's *History* covering the trial and execution of Charles I to read in the days that remained. But if Louis XVI found the consolations of philosophical history in the Stuart volumes, Thomas Jefferson saw in them a cause for alarm.

The Political Economy of Economic Growth in Africa, 1960-2000: Volume 1 Benno J. Ndulu, Stephen A. O'Connell, Robert H. Bates, Paul Collier, Chukwuma C. Soludo, 2009-04-30

The period from 1960 to 2000 was one of remarkable growth and transformation in the world economy. Why did most of Sub-Saharan Africa fail to develop over this period? Why did a few small African economies succeed spectacularly? *The Political Economy of Economic Growth in Africa 1960-2000* is by far the most ambitious and comprehensive assessment of Africa's post-independence economic performance to date. Volume 1 examines the impact of resource wealth and geographical remoteness on Africa's growth and develops a new dataset of governance regimes covering all of Sub-Saharan Africa. Separate chapters analyze the dominant patterns of governance observed over the period and their impact on growth, the ideological formation of the political elite, the roots of political violence and reform, and the lessons of the 1960-2000 period for contemporary growth strategy.
