Reasoning Into Reality A System Cybernetics Model And Therapeutic Interpretation Of Buddhist Middle Path Analysis:

Reasoning Into Reality Peter G. Fenner, 1995 An innovative interpretation of Buddhist Middle Path thought the most advanced level of Buddhist philosophy into the contemporary language of psychology and systems theory Uniquely relevant to the Western disciplines of philosophy psychology and psychotherapy this model shows how Middle Path analysis applies to psychotherapeutic settings Buddhist Theology Roger Jackson, John Makransky, 2013-12-16 Scholars of Buddhism themselves Buddhist here seek to apply the critical tools of the academy to reassess the truth and transformative value of their tradition in its relevance to the contemporary world Cybernetic Revelation J.D. Casten, 2012-11-20 Cybernetic Revelation explores the dual philosophical histories of deconstruction and artificial intelligence tracing the development of concepts like the logos and the notion of modeling the mind technologically from pre history to contemporary thinkers like Slavoj i ek Steven Pinker Bernard Stiegler and Daniel C Dennett The writing is clear and accessible throughout yet the text probes deeply into major philosophers seen by JD Casten as conceptual engineers Philosophers covered include Anaximander Heraclitus Parmenides Plato Aristotle Philo Augustine Shakespeare Descartes Spinoza Leibniz Locke Berkeley Hume Kant Hegel Nietzsche Freud Jung Joyce Dewey Wittgenstein Heidegger Adorno Benjamin Derrida Chomsky i ek Pinker Dennett Hofstadter Stiegler more with special chapters on AI s history Complexity Deconstructing AI Aesthetics Consciousness more

The Death of Psychotherapy Donald A. Eisner, 2000-01-30 Psychologist attorney Eisner puts psychotherapy on trial by critically examining its effectiveness through the lens of the scientific method From psychoanalysis to cognitive behavior therapy as well as the 500 or so other psychotherapies there is not a single experimental study that supports the effectiveness of psychotherapy over a placebo or religious healing Using both case examples and clinical research this book challenges the conclusion that there is empirical support for the notion that psychotherapy is effective *Computing and Philosophy in Asia* Soraj Hongladarom, 2009-03-26 This volume is a collection of selected papers presented at the Second Asia Pacific Computing and Philosophy Conference which was held in Bangkok Thailand in January 2005 The conference was organized by the Center for Ethics of Science and Technology Chulalongkorn University on behalf of the International Association of Computing and Philosophy www.ia-cap.org Computing have had a long relationship with philosophy starting from the problem of how symbols being manipulated in computing bear a relation to the outside world to those of artificial intelligence robotics computer simulation and so on Moreover as computer technologies have become thoroughly pervasive in today s environment there are also issues concerning social and ethical impacts brought about by them The papers in the volume represent a wide variety of concerns and various dimensions within which computing and philosophy are related Furthermore it also represents some of the first attempts to highlight cultural dimensions of computing and philosophy which became prominent when the conference was held for the first time within the milieu of an Asian culture The First Asia Pacific

Computing and Philosophy was held in Canberra Australia Hence many of the papers in the volume address this added dimension Apart from the usual problems of how computers and human lives are interconnected the papers here also discuss how computers are related to human lives as lived in a specific culture Thus the book breaks a new ground and should be of interest to a wide range of scholars and students who are interested not only on computing and philosophy generally construed but also on this exciting new dimension of how the cultures of Asia the West and others bear upon the traditional issues in computing and philosophy and on how this dimension raises some new concerns and agenda Among the topics discussed in this volume are political online forums in Saudi Arabia e democracy and structural transformation of public sphere the Buddhist informational person a glance into the lives of computerized generation in Thailand technology and journalism in the market local approaches and global potential of information ethics computer enhanced good life computer teaching ethics and many others

Immersive Systemic Knowing Raghav Rajagopalan, 2020-10-16 This book advances systems thinking by introducing a new philosophy of systemic knowing It argues that there are inescapable limits to rational understanding Humankind has always depended on extended ways of knowing to complement the rational analytic approach The book establishes that the application of such methods is fundamental to systemic practice The author advocates embracing two modes of consciousness intentionality which Western philosophy has long recognized and non intentional awareness which Eastern philosophy additionally highlights The simultaneity of these two modes of consciousness and the variety of knowings they spawn are harnessed for a more holistic systemic knowing Four practices from fields related to systems thinking are examined two contemporary action research methodologies from the US and the UK the Sumedhian Indian approach to inquiry about processes within groups and a technique of group psychotherapy originating in Eastern Europe Each of these systematically harnesses knowing using both modes of consciousness Therefore the author insists such approaches must be included in systemic practice in purposeful and methodical juxtaposition to rational analytic ways The book provides examples and guidelines for deployment All researchers and practitioners of systems thinking and action research must read this book Raghav has craftfully blended Eastern and Western wisdom He uses his immersion into Eastern ways of knowing practically to elaborate the systems philosophy in rich detail He has incorporated from cooperative inquiry as action research the idea of four ways of knowing practical propositional presentational and experiential to bolster the foundations of systems thinking

SHANKAR SANKARAN Professor University of Technology Sydney Australia President International Society of Systems Sciences ISSS 2019 2020 This is a book with the potential to stimulate the emergence of a new paradigm Raghav shows that systems thinking can transcend rational analysis and incorporate other ways of knowing such as arts based methods also rather than be overly preoccupied with striving for change there is value in simply abiding which comes with a deep appreciation of the ecological relationships we are part of It is not that rational analysis is wrong it is that it is only part of a genuinely transformative practice

GERALD MIDGLEY Co Director Centre for Systems Studies

University of Hull former President ISSS 2013 14 Raghav Rajagopalan s writing on generating deep appreciation for the social and ecological interdependencies ties in closely with my own work The philosophical ideas he develops contain the tracings and essential tones of Gregory Bateson s idea of Mind as a process of living complexities reaching well beyond the notion of the body This book demonstrates outstanding erudition and deep compassion at the same time It should delight the adventurous reader unafraid of big questions NORA BATESON President of the International Bateson Institute **The History of Tibet: The modern period, 1895-1959: the encounter with modernity** Alex McKay,2003 *Prisoners of Shangri-La* Donald S. Lopez Jr.,2018-02-27 Intro Contents Preface to the Twentieth Anniversary Edition Acknowledgments Introduction Chapter One The Name Chapter Two The Book Chapter Three The Eye Chapter Four The Spell Chapter Five The Art Chapter Six The Field Chapter Seven The Prison Notes Index Freedom Beyond Conditioning Jane Wiesner,2015-10-05 If we live in the Western world we are said to be free But are we To what degree are we bound by our thoughts and emotions What fuses us to habitual patterns of thinking and behaving Are we ever really free of conditioning Freedom Beyond Conditioning East West researches the complex world of emotional life It looks at the multifaceted relationships between body and mind and the body mind fusion that is emotion Using empirical data this book investigates the correlations between emotional life and mental freedom analysing the experiential nature of a conditioned existence while answering some difficult philosophical questions Freedom Beyond Conditioning presents an interesting anthology of some of the world s most critical thinkers It suggests that freedom is defined through its etymological links to friendship and justice revealing the quintessential paradox of responsible freedom This book blends the subtleties of Eastern theories of energy and their relationship to freedom with the Western world s science based approach to mind and body Ultimately Freedom Beyond Conditioning synthesises a healthy expression of emotional energy with the achievement of balance and wellbeing and offers it as a true representation of freedom one that is revealed through the paradoxical freedom of restraint
