Religious Methods And Resources In Bioethics:

Religious Methods and Resources in Bioethics P.F. Camenisch, 2013-03-09 A volume on religious theological methods in biomedical ethics inevitably of whether the methodological dimension can be distinct raises the question guished from the various other things that go on in ethical discourse It is difficult to answer this question definitively since many elements in moral conversation can be interpreted in different ways Barbara Hilkert Andolsen illustrates this issue in this volume when she defines one of her crucial categories gender justice as being both procedural and substantive normative This difficulty of finally separating the methodological from the normative arises in many areas of contemporary ethical writing both feminist and otherwise Nevertheless it seems that in many cases we can separate out the methodological issues with considerable precision Albert Jonsen and James Childress achieve just such a sharp focus in their essays This does not mean that a careful dissecting of their papers would not reveal normative elements lurking about their methodological points It is simply to say that the issues they analyze and the positions they take are at least prima facie overwhelmingly methodological They are much more about how we think about ethical matters than they are about what we think about them **Religious Methods**

and Resources in Bioethics Paul F. Camenisch, 2014-01-15 Secular Bioethics in Theological Perspective E.E. Shelp, 2012-12-06 Theologians and theologically educated participants in discussions of bioethics have been placed on the defensive during recent years The dominance of religious perspectives and theological voices that marked the emergence and establishment of bioethics in the late 1960s and 1970s has eroded steadily as philosophers lawyers and others have relativized their role and influence at best or dismissed it entirely at worst The secularization of bioethics which has occurred for a variety of reasons has prompted some prominent writers to reflect on what has been lost Daniel Callahan for example writes whatever the ultimate truth status of religious perspectives they have provided a way of looking at the world and understanding one's own life that has a fecundity and uniqueness not matched by philosophy law or political theory Those of us who have lost our religious faith may be glad that we have discovered what we take to be the reality of things but we can still recognize that we have also lost something of great value as well the faith vision insights and experience of whole peoples and traditions who no less than we unbelievers struggled to make sense of things That those goods are part of a garment we no longer want to wear does not make their loss anything other than still a loss and it is not a negligible one 2 p 2 AIDS Bibliography, 1995-07 Reading the Bible in the Strange World of Medicine Allen Verhey, 2003-12-11 Author of such major books as Remembering Jesus Christian Community Scripture and the Moral Life Allen Verhey has become one of today's most trusted Christian voices in contemporary ethics including the moral challenges that new medical technologies pose to Christian faith and decision making With this new book Verhey brings the biblical tradition to bear on contemporary bioethical concerns Drawing on an unmatched depth of insight in these two realms Verhey explores how the Bible can illuminate and guide medical ethics He argues that churches are called to think and speak clearly about bioethical concerns

and he lays out here the scriptural tools for them to do so After firmly grounding Christian ethical discourse in Scripture Verhey shows how the Bible can be applied to such pressing questions as suffering genetic intervention abortion reproductive technologies end of life care physician assisted suicide and more Filled with faith based wisdom and apt illustrations of the moral dilemmas discussed this book is a must read for Christians grappling with the ethical dimensions of medicine today

Brave New World? Celia Deane-Drummond, 2003-11-01 One of the key issues facing us in the next millennium is the ability to manipulate the genetics of living organisms The possibility of manipulating human genetics raises many theological ethical and socio political issues These include specific decisions about whether the technology will be developed how it will be applied and more general questions about the technical manipulation of natural processes From a theological perspective the human genome project not only challenges particular doctrines such as that of creation eschatology and anthropology but also raises particular issues of social justice and medical ethics The purpose of this book is to bring together the collective expertise of theologians scientists and social scientists in order to provide a forum for critique and public debate focused on the human genome project It is hoped that the results presented in this book offer a sophisticated theological and ethical response

Human Dignity and Human Cloning Silja Vöneky, Rüdiger Wolfrum, 2013-12-01 Human Dignity and Human Cloning contains contributions by philosophers theologians and lawyers on legal and ethical questions concerning the reproductive and therapeutic cloning of human beings The main focus lies on the admissibility of cloning in German Constitutional law as well as in public international law As these legal questions cannot be answered without taking account of the ethical discussion the topic is analyzed from different cultural and religious viewpoints

Strange Writing Robert Ford Campany, 1996-01-25 This is the first comprehensive Western language study of the important Chinese genre of writing known as accounts of the anomalies zhiguai in its formative period The book sets forth a new view of the nature and origins of the genre

The Story of Bioethics Jennifer K. Walter, Eran P. Klein, 2003-10-08 This literally refreshing collection is based on the notion that the future of bioethics is inseparable from its past Seminal works provide a unique and relatively unexplored vehicle for investigating not only where bioethics began but where it may be going as well In this volume a number of the pioneers in bioethics Tom Beauchamp Lisa Sowle Cahill James Childress Charles E Curran Patricia King H Tristram Engelhardt William F May Edmund D Pellegrino Warren Reich Robert Veatch and LeRoy Walters reflect on their early work and how they fit into the past and future of bioethics Coming from many disciplines generations and perspectives these trailblazing authors provide a broad overview of the history and current state of the field Invaluable to anyone with a serious interest in the development and future of bioethics at a time when new paths into medical questions are made almost daily The Story of Bioethics is a Baedeker beyond compare

History and Contemporary Issues Charles E. Curran, 2016-10-06 This is a collection of the most important writings of Charles E Curran from the 1980s and 1990s He examines the history of moral theology in general the development of Catholic medical ethics

the role of the laity in the thought of John Courtney Murray and the evolution of Catholic moral theology from the end of World War II to the close of the 20th century The volume also includes a selection of his writings on fertility control homosexuality public policy gay rights academic freedom and Catholic higher education **Conscience and Prayer** Dennis Joseph Billy,James Keating,2001 Conscience and Prayer takes the new conversation between Christian spirituality and moral theology to a deeper level of precision and focus The authors argue that the relationship between moral theology and spirituality can best be explored by looking at how conscience is related to prayer In exploring this relationship both historically and theologically Billy and Keating open new ways to approach the fundamental aspects of Catholic moral theology BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved *Bibliography on East Asian Religion and Philosophy* ,2001 This comprehensive research bibliography compiles annotates indexes and cross references resources in the principal Western languages which focus on China Japan and Korea in the areas of philosophy and religious studies supporting resources in theology history culture and related social sciences A notable additional feature is the inclusion of extensive Internet based resources such as a wide variety of web sites discussion lists electronic texts virtual libraries online journals and related material On Moral Medicine M. Therese Lysaught,Joseph Kotva,Stephen E. Lammers,Allen Verhey,2012-07-20 In print for more than two decades On Moral Medicine remains the definitive anthology for Christian theological reflection on medical ethics This third edition updates and expands the earlier awardwinning volumes providing classrooms and individuals alike with one of the finest available resources for ethics engaged modern medicine **To Live as Long as Heaven and Earth** Robert F. Campany,2002-04-08 In late classical and early medieval China ascetics strove to become transcendent deathless beings with supernormal powers Practitioners developed dietetic alchemical meditative gymnastic sexual and medicinal disciplines some of which are still practiced today to perfect themselves and thus transcend death Narratives of their achievements circulated widely Ge Hong 283 343 c e collected and preserved many of their stories in his Traditions of Divine Transcendents affording us a window onto this extraordinary response to human mortality Robert Ford Campany's groundbreaking and carefully researched text offers the first complete critical translation and commentary for this important Chinese religious work at the same time establishing a method for reconstructing lost texts from medieval China Clear exacting and annotated the translation comprises over a hundred lively engaging narratives of individuals deemed to have fought death and won Additionally To Live as Long as Heaven and Earth systematically introduces the Chinese quest for transcendence illuminating a poorly understood tradition that was an important source of Daoist religion and a major social cultural and religious phenomenon in its own right **Religion Index Two** ,1996 *The Nature of Principles* Steven S. Coughlin (Ph. D.),2008 **Embodiment, Morality, and Medicine** L.S. Cahill,M.A. Farley,2013-04-17 Embodiment Morality and Medicine deals with the relevance of embodiment to bioethics considering both the historical development and contemporary perspectives on the mind body relation The emphasis of all

authors is on the importance of the body in defining personal identity as well as on the role of social context in shaping experience of the body Among the perspectives considered are Christian Jewish Islamic Buddhist and African American Feminist concerns are important throughout Belmont Revisited James F. Childress, Eric Mark Meslin, Harold T. Shapiro, 2005 Research on human subjects has always been a highly controversial topic in the field of bioethics The book featuring contributions from a Who's Who of bioethics scholars analyzes the seminal document on the topic in the United States the 1979 Belmont Report widely regarded as the single most influential set of guidelines in the practice of bioethics The Belmont Report is a 20 page statement that spells out the rationale for ethical research on humans concluding that three primary principles are at play respect for persons beneficence and justice Since the publication of Belmont these three principles spelled out further by philosopher Tom Beauchamp and ethicist James Childress and known as the Georgetown mantra have dominated all discussions of research on human subjects though as this book will show not everyone agrees that this is the most helpful way to think about the matter In fact this book is both a broad overview of the evolution of the Belmont Report and more important 1 an assessment of its shortcomings and 2 a strong call to rethink how hospitals and pharmaceutical companies can conduct research more humanely and more ethically So while the book looks back to the creation of Belmont it also looks forward to the future of research Contributors in addition to the editors include Alexander Capron Ruth Faden Eric Cassell Karen Lebacqz Larry Churchill Robert Levine Patricia King Georgetown Susan Sherwin Ezekiel Emanuel Robert Veach Georgetown Henry Richardson Georgetown John Evans **Conscience and Its Problems** Kenneth E. Kirk, 1999-01-01 This book originally published in 1927 has proven to be one of the most important and influential books in the field of ethics in the twentieth century It remains a pertinent original and insightful work a landmark statement of modern casuistry The Library of Theological Ethics series focuses on what it means to think theologically and ethically It presents a selection of important and otherwise unavailable texts in easily accessible form Volumes in this series will enable sustained dialogue with predecessors though reflection on classic works in the field **A Bibliography of Islamic Criminal Law, Supplement** Olaf Köndgen, 2024-07-15 The present work supplements the original volume of A Bibliography of Islamic Criminal Law the most extensive bibliography on Islamic criminal law ever compiled Drawing on a multitude of sources online and offline this bibliography covers in its thematic section not only the classical crime categories of *ud d qi* and *ta z r* but also a large number of newly emerging and related fields In a second section dedicated to countries eras and institutions Olaf Köndgen comprehensively covers the historical and modern application of Islamic criminal law in all its forms Unlocking the richness of this sub field of Islamic law also with the help of two detailed indices this innovative reference work is highly relevant for all those researching Islamic law in general and the application of Islamic criminal law over time in particular
