Remaking Beijing Tiananmen Square And The Creation Of A Political Space:

Remaking Beijing Wu Hung, 2005 Tiananmen Square is the most sacred space in Beijing a site for Mao's monumental portrait for museums parades and more recently for violent demonstrations Wu Hung grew up in Beijing and witnessed its transformation In this lavishly illustrated work he offers a vivid often personal account of the struggle over Beijing's reinvention and offers new insights into the city's history The final part of the book is devoted to paintings photographs and performances by artists that take issue with the political and cultural meanings of Tiananmen Square and official efforts of repression **BOOK JACKET** **A Guide to Spatial History** Konrad Lawson, Riccardo Bavaj, Bernhard Struck, 2022-01-07 This guide provides an overview of the thematic areas analytical aspects and avenues of research which together form a broader conversation around doing spatial history Spatial history is not a field with clearly delineated boundaries For the most part it lacks a distinct unambiguous scholarly identity It can only be thought of in relation to other typically more established fields Indeed one of the most valuable utilities of spatial history is its capacity to facilitate conversations across those fields Consequently it must be discussed in relation to a variety of historiographical contexts Each of these have their own intellectual genealogies institutional settings and conceptual path dependencies With this in mind this guide surveys the following areas territoriality infrastructure and borders nature environment and landscape city and home social space and political protest spaces of knowledge spatial imaginaries cartographic representations and historical GIS research **Mao Cult** Daniel Leese, 2011-10-31 Although many books have explored Mao's posthumous legacy none has scrutinized the massive worship that was fostered around him during the Cultural Revolution This book is the first to do so By analyzing secret archival documents Daniel Leese traces the history of the cult within the Communist Party and at the grassroots level The party leadership's original intention was to develop a prominent brand symbol which would compete with the nationalists elevation of Chiang Kai shek However they did not anticipate that Mao would use this symbolic power to mobilize Chinese youth to rebel against party bureaucracy itself The result was anarchy and when the army was called in it relied on mandatory rituals of worship such as daily reading of the Little Red Book to restore order Such fascinating detail sheds light not only on the personality cult of Mao but also on hero worship in other traditions ***China After Mao*** Frank Dikötter, 2022-11-15 A blow by blow account An important corrective to the conventional view of China's rise Financial Times From internationally renowned historian Frank Dikötter winner of the Samuel Johnson Prize a myth shattering history of China from the death of Chairman Mao to Xi Jinping Through decades of direct experience of the People's Republic combined with extraordinary access to hundreds of hitherto unseen documents in communist party archives the author of *The People's Trilogy* offers a riveting account of China's rise from the disaster of the Cultural Revolution He takes us inside the country's unprecedented four decade economic transformation from rural villages to industrial metropolises and elite party conclaves that vaulted the nation from 126th largest economy in the world to second largest A historian at the pinnacle of his field Dik

ter challenges much of what we think we know about how this happened Casting aside the image of a society marching unwaveringly toward growth in lockstep to the beat of the party drum he recounts instead a fascinating tale of contradictions illusions and palace intrigue of disasters narrowly averted shadow banking anti corruption purges and extreme state wealth existing alongside everyday poverty He examines China's navigation of the 2008 financial crash its increasing hostility towards perceived Western interference and its development into a thoroughly entrenched dictatorship with a sprawling security apparatus and the most sophisticated surveillance system in the world As this magisterial book makes clear the communist party's goal was never to join the democratic world but to resist it and ultimately defeat it *The Spirit of Cities*

Daniel A. Bell, Avner de-Shalit, 2013-10-27 A lively and personal book that returns the city to political thought Cities shape the lives and outlooks of billions of people yet they have been overshadowed in contemporary political thought by nation states identity groups and concepts like justice and freedom The Spirit of Cities revives the classical idea that a city expresses its own distinctive ethos or values In the ancient world Athens was synonymous with democracy and Sparta represented military discipline In this original and engaging book Daniel Bell and Avner de Shalit explore how this classical idea can be applied to today's cities and they explain why philosophy and the social sciences need to rediscover the spirit of cities Bell and de Shalit look at nine modern cities and the prevailing ethos that distinguishes each one The cities are Jerusalem religion Montreal language Singapore nation building Hong Kong materialism Beijing political power Oxford learning Berlin tolerance and intolerance Paris romance and New York ambition Bell and de Shalit draw upon the richly varied histories of each city as well as novels poems biographies tourist guides architectural landmarks and the authors own personal reflections and insights They show how the ethos of each city is expressed in political cultural and economic life and also how pride in a city's ethos can oppose the homogenizing tendencies of globalization and curb the excesses of nationalism The Spirit of Cities is unreservedly impressionistic Combining strolling and storytelling with cutting edge theory the book encourages debate and opens up new avenues of inquiry in philosophy and the social sciences It is a must read for lovers of cities everywhere In a new preface Bell and de Shalit further develop their idea of civic pride the pride city dwellers feel for their city and its ethos over that of others **China's Youth Cultures and Collective Spaces** Vanessa Frangville, Gwennaël Gaffric, 2019-09-10

David Carrier, Joachim Pissarro, 2020-04-17 Wild Art refers to work that exists outside the established rarified world of art galleries and cultural channels It encompasses uncatalogued uncommodified art not often recognized as such from graffiti to performance self adornment and beyond Picking up from their breakthrough book on the subject Wild Art David Carrier and Joachim Pissarro here delve into the ideas driving these forms of art inquire how it came to be marginalized and advocate for a definition of taste one in which each expression is acknowledged as being different while deserving equal merit Arguing that both the art world and wild art have the same capacity to produce aesthetic joy Carrier and Pissarro contend that watching skateboarders perform Christ Air for example produces the same sublime experience in one audience that another enjoys while taking in a ballet therefore both mediums deserve careful reconsideration In making their case the two provide a history of the institutionalization of taste in Western thought point to missed opportunities for its democratization in the

past and demonstrate how the recognition and acceptance of wild art in the present will radically transform our understanding of contemporary visual art in the future Provocative and optimistic Aesthetics of the Margins The Margins of Aesthetics rejects the concept of kitsch and the high low art binary ultimately challenging the art world to become a larger and more inclusive place

The Red Flag David Priestland, 2016-05-03 The best and the most accessible one volume history of communism now available A far reaching vividly written account Foreign Affairs In The Red Flag Oxford professor David Priestland tells the epic story of a movement that has taken root in dozens of countries across two hundred years from its birth after the French Revolution to its ideological maturity in nineteenth century Germany to its rise to dominance and subsequent fall in the twentieth century Beginning with the first modern Communists in the age of Robespierre Priestland examines the motives of thinkers and leaders including Marx Engels Lenin Stalin Castro Che Guevara Mao Ho Chi Minh Gorbachev and many others Priestland also shows how Communism in all its varieties appealed to different societies for different reasons in some as a response to inequalities and in others more out of a desire to catch up with the West But paradoxically while destroying one web of inequality Communist leaders were simultaneously weaving another It was this dynamic together with widespread economic failure and an escalating loss of faith in the system that ultimately destroyed Soviet Communism itself At a time when global capitalism is in crisis and powerful new political forces have arisen to confront Western democracy The Red Flag is essential reading if we are to apply the lessons of the past to navigating the future Detailed and scholarly but written in lively prose this is a rich satisfying account of the most successful utopian political movement in history Publishers Weekly starred review

Becoming China Jeanne-Marie Gescher, 2017-11-09 An account of China's past and present how a small group of people at the edges of the Yellow River evolved to become the state of China today Despite decades of a relatively open door relationship with the rest of the world China is still a mystery to many outside it How does China work what does it want why does it want it and what does its rise to global power mean for the rest of the world As the twenty first century looks set to be the stage for a battle about competing geopolitical ideals these are urgent questions for everyone with an interest in what the future might bring A world of its own China is both a microcosm and an amplification of questions and events in the wider world China's story offers us an opportunity to hold a mirror to ourselves to our own assumptions to our values and to our ideas about the most important question of all what it means to be human in the world of the state Epic in scope this is the story of how China became the state it is today and how its worldview is based on what has gone before Weaving together inspirations ideas wars and dreams Jeanne Marie Gescher reveals the heart of what it means to be Chinese and how the past impacts the present

[Online Society in China](#) David Kurt Herold, Peter Marolt, 2011-03-25 This book discusses the rich and varied culture of China's online society and its impact on offline China It

argues that the internet in China is a separate space in which individuals and institutions emerge and interact While offline and online spaces are connected and influence each other the Chinese internet is more than merely a technological or media extension of offline Chinese society Instead of following existing studies by locating online China in offline society the contributors in this book discuss the carnival of the Chinese internet on its own terms Examining the complex relationship between government officials and the people using the Internet in China this book demonstrates that culture is highly influential in how technology is used Discussing a wide range of different activities the contributors examine what Chinese people actually do on the internet and how their actions can be interpreted within the online society they are creating

The Forbidden City Geremie R. Barmé, Geremie Barmé, 2011-06-01 The Forbidden City Zijin Cheng lying at the heart of Beijing formed the hub of the Celestial Empire for five centuries Over the past century it has led a reduced life as the refuge for a deposed emperor as well as a heritage museum for monarchist republican and socialist citizens and it has been celebrated and excoriated as a symbol of all that was magnificent and terrible in dynastic China's legacy *The Forbidden City* Geremie Barmé, 2008 Barmé peels away the veneer of power secrecy inscrutability and passions of imperial China to provide a new and original history of the culture politics and architecture of the Forbidden City an extraordinary attraction which encapsulates much of the country's history Sunday Telegraph

China at War Hans van de Ven, 2018-02-12 China's mid twentieth century wars pose extraordinary interpretive challenges The issue is not just that the Chinese fought for such a long time from the Marco Polo Bridge Incident of July 1937 until the close of the Korean War in 1953 across such vast territory As Hans van de Ven explains the greatest puzzles lie in understanding China's simultaneous external and internal wars Much is at stake politically in how this story is told Today in its official history and public commemorations the People's Republic asserts Chinese unity against Japan during World War II But this overwrites the era's stark divisions between Communists and Nationalists increasingly erasing the civil war from memory Van de Ven argues that the war with Japan the civil war and its aftermath were in fact of a piece a singular process of conflict and political change Reintegrating the Communist uprising with the Sino Japanese War he shows how the Communists took advantage of wartime to increase their appeal how fissures between the Nationalists and Communists affected anti Japanese resistance and how the fractious coalition fostered conditions for revolution In the process the Chinese invented an influential paradigm of war wherein the Clausewitzian model of total war between well defined interstate enemies gave way to murky campaigns of national liberation involving diverse domestic and outside belligerents This history disappears when the realities of China's mid century conflicts are stripped from public view *China at War* recovers them *Places of Memory in Modern China* Marc Andre Matten, 2011-12-09 In the last decades the scholarship on issues of national and cultural identity of China has been constantly on the rise This edited volume aims at addressing these issues by applying Pierre Nora's approach of places of memory lieux de mémoire to the Chinese context The volume assembles a number of articles that focus on the most

significant places of memory in modern and contemporary China ranging from Qin Shihuang's Terracotta Warriors to the Chiang Kai-shek Memorial Hall. The genesis and nature of these places are discussed in detail by combining approaches of both cultural and historical sciences. In addition, issues of cultural memory and politics are addressed in order to question the ideological construction of these places. Architecture, Power and National Identity Lawrence Vale, 2014-05-01. Tied to this it explains the role that architecture and planning play in the forceful assertion of state power. In the dazzling global metropolis of Shanghai, what has it meant to call this city home? In this account, part microhistory, part memoir, Jie Li salvages intimate recollections by successive generations of inhabitants of two vibrant, culturally mixed Shanghai alleyways from the Republican, Maoist, and post-Mao eras. Exploring three dimensions of private life: territories, artifacts, and gossip, Li re-creates the sounds, smells, look, and feel of home over a tumultuous century. First built by British and Japanese companies in 1915 and 1927, the two homes at the center of this narrative were located in an industrial part of the former International Settlement. Before their recent demolition, they were nestled in Shanghai's labyrinthine alleyways which housed more than half of the city's population from the Sino-Japanese War to the Cultural Revolution. Through interviews with her own family members as well as their neighbors, classmates, and co-workers, Li weaves a complex social tapestry reflecting the lived experiences of ordinary people struggling to absorb and adapt to major historical change. These voices include workers, intellectuals, Communists, Nationalists, foreigners, compradors, wives, concubines, and children who all fought for a foothold and haven in this city, witnessing spectacles so full of farce and pathos they could only be whispered as secret histories.
