Rembrandt Colour Library:

Rembrandt Michael Kitson, 1992 An introduction to the work of Rembrandt
Surveys the life and work of seventeenth century artist Rembrandt van Rijn and includes over ninety color and black and white illustrations
Rembrandt Trewin Copplestone, 1967
Dutch Painting Christopher Brown, 1976 Carefully chosen selection of plates covering all aspects of the Golden Age of Dutch painting are represented and reproduced in colors of the originals
Rembrandt Christian Tümpel, 1993 A book which is the result of more than 20 years of research and offers new interpretations of the art of Rembrandt van Rijn 1606-1669 It was designed to be a catalogue raisonné of works by the artist or works traditionally attributed to him In a text that incorporates his own scholarship as well as the latest findings of the Rembrandt Research Project the author explores the development of Rembrandt's art through the story of the artist's life
First Tümpel frees the iconographic interpretation of Rembrandt's art of its traditional literary connections Second he demonstrates that Rembrandt was inspired by various 16th century visual materials and was therefore less original than was assumed until now The author also analyzes the stylistic traditions of Rembrandt's time and ultimately presents a series of convincing interpretations of Rembrandt's famous history pieces
Rembrandt, 1965
A Corpus of Rembrandt Paintings
J. Bruyn, B. Haak, S.H. Levie, P.J.J. van Thiel, 2012-12-06 Since the second half of the last century art historians realizing that the image of Rembrandt's work had become blurred with time have attempted to redefine the artist's significance both as a source of inspiration to other artists and as a great artist in his own right In order to carry on the work started by previous generations a group of leading Dutch art historians from the university and museum world joined forces in the late 1960s in order to study afresh the paintings usually ascribed to the artist The researchers came together in the Rembrandt Research Project which was established to provide the art world with a new standard reference work which would serve the community of art historians for the nearby and long future They examined the originals of all works attributed to Rembrandt taking full advantage of today's sophisticated techniques including radiography neutron activation autoradiography dendrochronology and paint sample analysis thereby gaining valuable insight into the genesis and condition of the paintings The result of this meticulous research is laid down chronologically in the following Volumes THIS VOLUME A Corpus of Rembrandt Paintings Volume I which deals with works from Rembrandt's early years in Leiden 1629-1631 published in 1982 A Corpus of Rembrandt Paintings Volume II covering his first years in Amsterdam 1631-1634 published in 1986 A Corpus of Rembrandt Paintings Volume III goes into his later years of reputation 1635-1642 published in 1990 Each Volume consists of a number of Introductory Chapters as well as the full Catalogue of all paintings from the given time period attributed to Rembrandt In this catalogue each painting is discussed and examined in a detailed way comprising a descriptive an interpretative and a documentary section For the authenticity evaluation of the paintings three different categories are used to divide the works in A Paintings by Rembrandt B Paintings of which Rembrandt's authorship cannot be positively either

accepted or rejected and C Paintings of which Rembrandt's authorship cannot be accepted This volume Volume I contains 730 pages starting with four introductory chapters and discussing 93 paintings In clear and accessible explanatory text all different paintings are discussed larded with immaculate images of each painting Details are shown where possible as well as the results of modern day technical imaging In this volume the first ever works by Rembrandt are discussed also using his etchings as comparison

Strathern, 2025-01-07 A sweeping history of The Age of Reason revealing how although it was a time of great progress it was also an era of brutality and intolerance with a very human cost During the 1600s between the end of the Renaissance and the start of the Enlightenment Europe lived through an era known as The Age of Reason This was a revolutionary period that saw great advances in areas such as art science philosophy political theory and economics However all this was accomplished against a background of extreme political turbulence on a continental scale in the form of internal conflicts and international wars Indeed the Age of Reason itself was born at the same time as the Thirty Years War which would devastate central Europe to an extent that would not be experienced again until World War I This period also saw the development of European empires across the world as well as a lucrative new transatlantic commerce that brought transformative riches to Western European society However there was a dark underside to this brilliant wealth it was dependent upon human slavery By exploring all the key events and bringing to life some of the most influential characters of the era including Caravaggio Rembrandt Newton Descartes Spinoza Louis XIV and Charles I acclaimed historian Paul Strathern tells the vivid story of this paradoxical age while also exploring the painful cost of creating the progress and modernity upon which the Western world was built **Rembrandt** Trewin Cooplestone, 1967 **Rembrandt** Harmenszoon van Rijn Rembrandt, 1967
