*Through the History of the Cold War* John Lukacs, 2011-06-06 In September 1952 John Lukacs then a young and unknown historian wrote George Kennan 1904-2005 the U.S. ambassador to the Soviet Union asking one of the nation's best known diplomats what he thought of Lukacs's own views on Kennan's widely debated idea of containing rather than militarily confronting the Soviet Union. A month later to Lukacs's surprise he received a personal reply from Kennan. So began an exchange of letters that would continue for more than fifty years. Lukacs would go on to become one of America's most distinguished and prolific diplomatic historians while Kennan who would retire from public life to begin a new career as Pulitzer Prize winning author would become revered as the man whose strategy of containment led to a peaceful end to the Cold War. Their letters collected here for the first time capture the writing and thinking of two of the country's most important voices on America's role and place in world affairs. From the division of Europe into East and West after World War II to its unification as the Soviet Union disintegrated and from the war in Vietnam to the threat of nuclear annihilation and the fate of democracy in America and the world this book provides an insider's tour of the issues and pivotal events that defined the Cold War. The correspondence also charts the growth and development of an intellectual and personal friendship that was intense, devoted and honest. As Kennan later wrote Lukacs in letter perceptive understanding and constructive criticism is as I see it in itself a form of creative philosophical thought. It is a belief to which both men subscribed and that they both practiced. Presented with an introduction by Lukacs the letters in *Through the History of the Cold War* reveal new dimensions to Kennan's thinking about America and its future and illuminate the political and spiritual philosophies that the two authors shared as they wrote about a world transformed by war and by the clash of ideologies that defined the twentieth century.

**The Turn to Transcendence** Glenn W.

Olsen,2012-07-30 Phenomenal A must read for us who desire to topple the dictatorship of relativism and culture of death and replace it with the only alternative The Imaginative Conservative Especially concerned with the public nature of religion historian Glenn W Olsen author of Christian Marriage A Historical Study and On the Road to Emmaus The Catholic Dialogue with American and Modernity sets forth an exhaustively researched and persuasive account of how religion has been reshaped in the modern period The Turn to Transcendence traces both the loss of transcendence and attempts to recover it while making its own proposals Neither reactionary nor modernist it questions how under conditions of modern life some form of the sacred and some form of the secular might both flourish at the same time But it also provides a warning that a religion unable to maintain itself with its own overt architecture language and calendars against an enveloping secular culture is destined for oblivion Glenn Olsen s book could hardly be more pivotal or insightful Confronting the growing amnesia regarding culture s religious origin and transcendent purpose Olsen proves both a masterful cartographer of modernity and a visionary of a culture that encourages and enables us to seek beyond ourselves Carl A Anderson Supreme Knight of the Knights of Columbus A brilliant book It rests on an amazing amount of scholarship that is wide ranging in history literature art science music theology and philosophy James Hitchcock professor of history St Louis University

**The Publishers Weekly** ,2005

**War in an Age of Risk** Christopher Coker,2013-05-08 Wars throughout history have been fought in the name of ideology religion and the pursuit of peace Our thinking about war when it is justified how it should be fought and how it is perceived has changed dramatically over time Whereas in the past war has been seen as a battle of wills this provocative and illuminating new book shows how war has evolved into an exercise in risk management In a rare blend of political science sociology history and cultural thought Christopher Coker peels away the layers of meaning shrouding our current understanding of war and warfare Using the

ideas of writers such as Zygmunt Bauman Ulrich Beck and Frank Furedi he shows that risk has become the language of business politics and public policy and so we should not be surprised that it has now become the language of war The book highlights the increasing difference between homeland security and national security in the modern world arguing that the defense of the citizen is often now more challenging than the defense of the state By demonstrating the changing character and complexity of conflict from World War I to the current the current fight against terrorism the book provides a powerful and highly distinctive account of the re branding of war in an age of risk This book is set to ignite debate amongst students and scholars of international politics as well as appealing to anyone interested in war and its place in contemporary society

Library Journal ,2005 *History and Film* Eleftheria Thanouli,2018-10-18 History and Film A Tale of Two Disciplines addresses the representation of history in cinema a much argued debate on the need to understand cinematic history in its own terms and develop a certain vocabulary for discussing historical films their relation to public history and their impact on public historical consciousness Eleftheria Thanouli does this by changing the agenda altogether combining a macro level perspective with a micro level one in order to argue that cinematic history is the dominant form of historiography in the 20th century as it succeeded in remediating and repurposing the key formal rhetorical and ideological practices of 19th century professional historiography With case studies ranging from The Thin Red Line and Life is Beautiful to The Fog of War and The Last Bolshevik Thanouli bridges the gap between history and film studies and lays the foundations for a new visual historiography *Choice* ,2006 *Crisis* ,2005 A journal of lay Catholic opinion Modern Age ,2005
