Machine Age Maya The Industrialization O:

Religious Transformation in Maya Guatemala John P. Hawkins, 2021-05 Drawing on over fifty years of research and data collected by field school students Hawkins argues that two factors cultural collapse and systematic social and economic exclusion explain the recent religious transformation of Maya Guatemala and the style and emotional intensity through which that transformation is expressed

Maya Resurgence in Guatemala Richard Wilson, 1999-09-01 Across Guatemala Mayan peoples are struggling to recover from decades of cataclysmic upheaval religious conversions civil war displacement military repression Richard Wilson carried out long term research with Q'eqchi' speaking Mayas in the province of Alta Verapaz to ascertain how these events affected social organization and identity He finds that their rituals of fertility and healing abandoned in the 1970s during Catholic and Protestant evangelizations have been reinvented by an ethnic revivalist movement led by Catholic lay activists who seek to renovate the earth cult in order to create a new pan Q'eqchi' ethnic identity

Sons of the Sierra Patrick J. McNamara, 2012-09-01 The period following Mexico's war with the United States in 1847 was

characterized by violent conflicts as liberal and conservative factions battled for control of the national government. The civil strife was particularly bloody in south central Mexico including the southern state of Oaxaca. In *Sons of the Sierra* Patrick McNamara explores events in the Oaxaca district of Ixtlan where Zapotec Indians supported the liberal cause and sought to exercise influence over statewide and national politics. Two Mexican presidents had direct ties to Ixtlan district: Benito Juárez, who served as Mexico's liberal president from 1858 to 1872, was born in the district, and Porfirio Díaz, president from 1876 to 1911, had led a National Guard battalion made up of Zapotec soldiers throughout the years of civil war. Paying close attention to the Zapotec people as they achieved greater influence, McNamara examines the political culture of Díaz's presidency and explores how Díaz, who became increasingly dictatorial over the course of his time in office, managed to stay in power for thirty-five years. McNamara reveals the weight of memory and storytelling as Ixtlan veterans and their families reminded government officials of their ties to both Juárez and Díaz. While Juárez remained a hero in their minds, Díaz came to represent the arrogance of Mexico City and the illegitimacy of the Porfiriato that ended with the 1910 revolution.

Fear as a Way of Life Linda Green, 1999-07-05 Between the late 1970s and the mid 1980s, the people of Guatemala were subjected to a state-sponsored campaign of political violence and repression designed to not only defeat a left-wing revolutionary insurgency but also destroy Mayan communities and culture. The Mayan Indians in the western highlands were labeled by the government as revolutionary sympathizers, and many Mayan women lost husbands, sons, and other family members who were brutally murdered or who simply disappeared. Based on years of field research conducted in the rural highlands, *Fear as a Way of Life* traces the intricate links between the recent political violence and repression and the long-term systemic violence connected with class inequalities and gender and ethnic oppression: the violence of everyday life.

Quichean Civilization Robert M. Carmack, 2024-06-21 The Quiche state in Guatemala flourished for several centuries before being destroyed by the conquistadors in 1524. During the early years of the ensuing period, the Quicheans recorded their past history and legends, writing in their own language but using the Latin alphabet. Many of these chronicles have survived, each illuminating various aspects of pre-conquest Quichean culture. Organized in six sections, *Quichean Civilization* categorizes all the documented sources describing the Quiche Maya. I. Introduction II. Native Documents III. Primary Spanish Documents IV. Secondary Sources V. Modern Anthropological Sources VI. A Case Study: T'utul C'oyoi. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, *Voices Revived* makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1973.

Third World Urbanization J. Abu-Lughod, R. Jr Hay, 2013-07-04 First published in 2006, despite the growing significance of the Third World and the critical nature of its urbanization, there are few synthetic books covering more than one region of the Third World which can be used either by

scholars seeking an overview of the process of world urbanization or by students in the growing number of courses now being offered in the field of comparative urbanism The most distressing problem was that the field of urbanization particularly with reference to developing countries seemed to us to have stagnated at theoretically sterile conceptualizations or even worse had deteriorated into fragmented empirical descriptive reports whether observing with sympathy or noting with alarm the rapidly declining condition of individual cities This book attempts to rectify this deficiency

Privatization and the New Medical Pluralism Anita Chary, Peter Rohloff, 2015-09-17 Privatization and the New Medical Pluralism is the first collection of its kind to explore the contemporary terrain of healthcare in Guatemala through reflective ethnography This volume offers a nuanced portrait of the effects of healthcare privatization for indigenous Maya people who have historically endured numerous disparities in health and healthcare access The collection provides an updated understanding of medical pluralism which concerns not only the tensions and exchanges between ethnomedicine and biomedicine that have historically shaped Maya people's experiences of health but also the multiple competing biomedical institutions that have emerged in a highly privatized market driven environment of care The contributors examine the macro structural and micro level implications of the proliferation of non governmental organizations private fee for service clinics and new pharmaceuticals against the backdrop of a deteriorating public health system In this environment health seekers encounter new challenges and opportunities relationships between the public private and civil sectors transform and new forms of inequality in access to healthcare abound This volume connects these themes to critical studies of global and public health exposing the strictures and apertures of healthcare privatization for marginalized populations in Guatemala

Monte Albán's Hinterland, Part II Stephen Kowalewski, Gary Feinman, Laura Finsten, Richard E. Blanton, Linda Nicholas, 1989-01-01 This two volume monograph is the final report and synthesis of the Valley of Oaxaca Settlement Pattern Project's full coverage surface survey and makes significant theoretical and methodological contributions to the investigation of social evolution cultural ecology and regional analysis

Farhadian, 2014 The Oxford Handbook of Religious Conversion offers a comprehensive exploration of the dynamics of religious conversion which for centuries has profoundly shaped societies cultures and individuals throughout the world Scholars from a wide array of religions and disciplines interpret both the varieties of conversion experiences and the processes that inform this personal and communal phenomenon This volume examines the experiences of individuals and communities who change religions those who experience an intensification of their religion of origin and those who encounter new religions through colonial intrusion missionary work and charismatic and revitalization movements The thirty two innovative essays provide overviews of the history of particular religions including Hinduism Buddhism Confucianism Taoism Sikhism Islam Christianity Judaism indigenous religions and new religious movements The essays also offer a wide range of disciplinary perspectives

Brown, Louis E. Swanson, 2015-08-26 The twentieth century was one of profound transformation in rural America Demographic shifts and economic restructuring have conspired to alter dramatically the lives of rural people and their communities Challenges for Rural America in the Twenty First Century defines these changes and interprets their implications for the future of rural America The volume follows in the tradition of decennial volumes co edited by presidents of the Rural Sociological Society and published in the Society s Rural Studies Series Essays have been specially commissioned to examine key aspects of public policy relevant to rural America in the new century Contributors include Lionel Beaulieu Alessandro Bonnano David Brown Ralph Brown Frederick Buttel Ted Bradshaw Douglas Constance Steve Daniels Lynn England William Falk Cornelia Flora Jan Flora Glenn Fuguitt Nina Glasgow Leland Glenna Angela Gonzales Gary Green Rosalind Harris Tom Hirschl Douglas Jackson Smith Leif Jensen Ken Johnson Richard Krannich Daniel Lichter Linda Lobao Al Luloff Tom Lyson Kate MacTavish David McGranahan Diane McLaughlin Philip McMichael Lois Wright Morton Domenico Parisi Peggy Petrzela Kenneth Pigg Rogelio Saenz Sonya Salamon Jeff Sharp Curtis Stofferahn Louis Swanson Ann Tickameyer Leanne Tigges Cruz Torres Mildred Warner Ronald Wimberley Dreamal Worthen and Julie Zimmerman *The Last Colonial Massacre* Greg Grandin, 2011-06-24 After decades of bloodshed and political terror many lament the rise of the left in Latin America Since the triumph of Castro politicians and historians have accused the left there of rejecting democracy embracing communist totalitarianism and prompting both revolutionary violence and a right wing backlash Through unprecedented archival research and gripping personal testimonies Greg Grandin powerfully challenges these views in this classic work In doing so he uncovers the hidden history of the Latin American Cold War of hidebound

reactionaries holding on to their power and privilege of Mayan Marxists blending indigenous notions of justice with universal ideas of equality and of a United States supporting new styles of state terror throughout the region With Guatemala as his case study Grandin argues that the Latin American Cold War was a struggle not between political liberalism and Soviet communism but two visions of democracy one vibrant and egalitarian the other tepid and unequal and that the conflict's main effect was to eliminate homegrown notions of social democracy Updated with a new preface by the author and an interview with Naomi Klein *The Last Colonial Massacre* is history of the highest order a work that will dramatically recast our understanding of Latin American politics and the role of the United States in the Cold War and beyond This work admirably explains the process in which hopes of democracy were brutally repressed in Guatemala and its people experienced a civil war lasting for half a century *International History Review* A richly detailed humane and passionately subversive portrait of inspiring reformers tragically redefined by the Cold War as enemies of the state *Journal of American History* Weaving Identities Carol Hendrickson, 2010-01-01 Traje the brightly colored traditional dress of the highland Maya is the principal visual expression of indigenous identity in Guatemala today Whether worn in beauty pageants made for religious celebrations or sold in tourist markets traje is more than mere cloth it plays an active role in the construction and expression of ethnicity gender education politics wealth and nationality for Maya and non Maya alike Carol Hendrickson presents an ethnography of clothing focused on the traje particularly women's traje of Tecpán Guatemala a bi ethnic community in the central highlands She covers the period from 1980 when the recent round of violence began to the early 1990s when Maya revitalization efforts emerged Using a symbolic analysis informed by political concerns Hendrickson seeks to increase the value accorded to a subject like weaving which is sometimes disparaged as craft or women's work She examines traje in three dimensions as part of the enduring images of the Indian as an indicator of change in the human life cycle and cloth production and as a medium for innovation and creative expression From this study emerges a picture of highland life in which traje and the people who wear it are bound to tradition and place yet are also actively changing and reflecting the wider world The book will be important reading for all those interested in the contemporary Maya the cultural analysis of material culture and the role of women in culture preservation and change **Catalog of Copyright Entries.
