China, Taiwan, Hong Kong Arlene D. C. Luster, 1969 A Functional Biology of Scyphozoa M.N. Arai, 2012-12-06 Scyphozoa have attracted the attention of many types of people Naturalists watch their graceful locomotion Fishermen may dread the swarms which can prevent fishing or eat larval fish Bathers retreat from the water if they are stung People from some Asiatic countries eat the medusae Comparative physiologists examine them as possibly simple models for the functioning of various systems This book integrates data from those and other investigations into a functional biology of scyphozoa It will emphasize the wide range of adaptive responses possible in these morphologically relatively simple animals The book will concentrate on the research of the last 35 years partly because there has been a rapid expansion of knowledge during that period and partly because much of the previous work was summarized by books published between 1961 and 1970 Bibliographies of papers on scyphozoa were included in Mayer 1910 and Kramp 1961 Taxonomic diagnoses are also included in those monographs as well as in a monograph on the scyphomedusae of the USSR published by Naumov Naumov 1961 Most importantly a generation of scyphozoan workers has used as its bible the monograph by F S Russell 1970 The Medusae of the British Isles In spite of its restrictive title his book reviews most of the information on the biology of scyphozoa up to that date **The Long & the Short of Chinese Cooking** James Rollband, 1976 **Book Review Digest**, 1922 **Contemporary Authors, New Revision Series** CONTEMPORARY., 1981 Culinary Nationalism in Asia Michelle T. King, 2019-07-11 With culinary nationalism defined as a process in flux as opposed to the limited concept of national cuisine the contributors of this book call for explicit critical comparisons of cases of culinary nationalism among Asian regions with the intention of recognizing patterns of modern culinary development As a result the formation of modern cuisine is revealed to be a process that takes place around the world in different forms and periods and not exclusive to

current Eurocentric models Key themes include the historical legacies of imperialism colonialism nationalism the Cold War and global capitalism in Asian cuisines internal culinary boundaries between genders ethnicities social classes religious groups and perceived traditions modernities and global contexts of Asian cuisines as both nationalist and internationalist enterprises and Asia itself as a vibrant culinary imaginary The book which includes a foreword from Krishnendu Ray and an afterword from James L Watson sets out a fresh agenda for thinking about future food studies scholarship
