Successful Change Management in Health Care Annette Chowthi-Williams, Geraldine Davis, 2022-03-03 Change is frequent in healthcare yet change management is often far from perfect This book considers the complexity of change within large organisations explores existing models of change and emphasises the vital role of emotional and cognitive readiness in successful change management Despite the plethora of organisational change management approaches used in healthcare the success rate of change in organisations can be as low as 30 percent New thinking about change management is required to improve success in service development improvement and innovation Arguing that emotional and cognitive readiness for change requires engagement with the people involved and a thorough understanding of areas of friction and potential challenge this book also delves into the neglected issue of emotion examining emotional labour and emotion and change It investigates how human emotion can be incorporated into Change Management Models alongside and intertwined with cognitive approaches to support effective change Using the NHS as a central case study this book incorporates examples of actual change from a range of healthcare settings from acute to primary care enabling readers to see how Change Management Models can be adapted and utilised in practice This is an essential read for students as future change leaders and practitioners and managers leading and managing change in healthcare

Human Resource Management in Nursing Dale Kayser Jernigan, 1988 *Geriatrics Models of Care* Michael L. Malone, Marie Boltz, Jonny Macias Tejada, Heidi White, 2024-05-30 Following the success of the previous edition the second edition of *Geriatrics Models of Care* is the definitive resource for systems-based practice improvement for the care of older adults Several new models of care have been published in the last eight years new outcomes have emerged to better understand the impact of existing models and with the rise of the Age-Friendly Health Systems movement promoting organized efforts to prepare our health care settings for older individuals is of more importance than ever The second edition is organized based on the practice setting along a continuum of care hospital transitions from hospital to home outpatient settings and the emergency department This book also highlights long-term care models which is an important part of the continuum of care for older Americans Further this edition features models that address the needs of vulnerable populations

This new section will describe a spectrum of programs for older adults who have Alzheimer's disease or Parkinson's disease. Other models describe best practices for older adults undergoing surgery or those who want to remain functioning independently in their home. A defining feature of this book is that each chapter follows a standard template: 1 the challenge which led to the model, 2 the patient population served, 3 core components of the intervention, 4 the role of interdisciplinary health professionals, 5 evidence to support the intervention, 6 lessons learned in the implementation and dissemination of the model, 7 implications for family caregivers and communities, particularly underserved and diverse communities, and 8 how each model will provide care across the continuum during an entire episode of care. In addition, each chapter features a call out box with practical tips for implementing the model.

Johns Hopkins Evidence-Based Practice for Nurses and Healthcare Professionals: Model and Guidelines, Fourth Edition Deborah Dang, Sandra L. Dearholt, Kim Bissett, Judith Ascenzi, Madeleine Whalen, 2021-06-30. Johns Hopkins Evidence Based Practice for Nurses and Healthcare Professionals has proven to be one of the most foundational books on EBP in nursing and healthcare. Building on the strength of previous versions, the fourth edition is fully revised to include updated content based on more than a decade of the model's use, refinement in real life settings, and feedback from nurses and other healthcare professionals around the world. Key features of the book include: NEW strategies for dissemination including guidance on submitting manuscripts for publication; EXPANDED focus on the importance of interprofessional collaboration and teamwork, particularly when addressing the complex care issues often tackled by EBP teams; EXPANDED synthesis and translation steps including an expanded list of outcome measures to determine the success of an EBP project; Tools to guide the EBP process such as stakeholder analysis, action planning, and dissemination; Explanation of the practice question, evidence, and translation (PET) approach to EBP projects; Overview of the patient intervention comparison and outcome (PICO) approach to EBP question development; Creation of a supportive infrastructure for building an EBP nursing environment; Exemplars detailing real world EBP experiences.
