Palestine And The United Nations Prelude To A Solution:

United Nations Naval Peace Operations in the Territorial Sea Rob McLaughlin, 2009 Drawing on the operational experience of United Nations naval peace operations this book examines issues of authority for such operations as they relate to and impact upon the Territorial Sea

UNSCOP and the Arab-Israeli Conflict Elad Ben-Dror, 2022-11-22 This book provides the first comprehensive account of the work of the United Nations Special Committee on Palestine UNSCOP constituted by the United Nations General Assembly in 1947 to study the situation in Palestine at the end of the British Mandate and make recommendations about its political future Utilizing a wealth of archival documentation some of it never before studied Elad Ben Dror explores the various aspects of UNSCOP's activity to understand how it came to determine the fate of the country's inhabitants The book analyzes the methods and motivations of the various members with special attention given to the personal viewpoint of each member of the committee Through this Ben Dror shows that the partition recommendation emerged after a long process of study debate and compromise that was very much dependent on the characters and circumstances of the individual members of the committee UNSCOP and the Arab Israeli Conflict will be a key text in understanding the role of UNSCOP in shaping the modern Middle East It will be appropriate for scholars and students of political science Palestine and Israeli history the Arab Israeli conflict the UN and diplomacy and conflict resolution

The International Law Foundations of Palestinian Nationality Mutaz M. Qafisheh, 2008 By the end of British rule in Palestine on 14 May 1948 Palestinian nationality had become well established in accordance with both domestic law and international law Accordingly the legal origin of Palestinian nationality lies in this nearly thirty year period as the status of Palestinians has never been settled since Hence any legal consideration on the future status of individuals who once held Palestinian nationality should start from the point at which the British rule over Palestine was terminated This work provides a legal basis for future settlement of the status of Palestinians of all categories that emerged in some sixty years following the end of the Palestine Mandate Israeli citizens inhabitants of the occupied territory and Palestinian refugees In conclusion nationality as regulated by Britain in Palestine represents an international status that cannot be legally altered except in accordance with international law

Eroding the United Nations Charter Yehuda Z. Blum, 2023-11-27 In this thoughtful and meticulously researched book Professor Blum makes a major contribution to the exposure of an important aspect of UN practice He adds to his academic analysis the insight provided by his years as his country's Ambassador at the UN and provides the reader with a fascinating and well written argument The book reflects events and developments that took place prior to the summer of 1990 during the period marked by global confrontation between the two major power blocs of those days That confrontation found one of its strongest expressions in the United Nations and was largely responsible for the deterioration of the legal constitutional climate within the UN With the end of that confrontation as a result of the collapse of the former Soviet bloc and the disintegration of the Soviet Union itself a new climate of parliamentary cooperation within the

United Nations has come about Consequently there would now appear to exist a real prospect perhaps for the first time since the establishment of the Organization for a reconsideration of at least some of the practices that developed over the years within the cold war context and which constitute a departure from the legal constitutional requirements laid down by the Charter It is in this spirit this book is offered to the reader's attention An International Law Miscellany Shabtai Rosenne, 2023-12-14 This collection of 29 essays by Shabtai Rosenne commences with a reproduction of his monograph *The Time Factor in the Jurisdiction of the International Court* first published in 1960 A postscript has been added drawing attention to significant developments since The remaining essays are divided into five parts as follows The International Court of Justice and International Litigation The Law of Treaties and the Sources of Law The Law of the Sea Jewish and Israeli Matters and In Memoriam Some of these essays notably those on Jewish and Israeli Matters were originally written in Hebrew and have been especially translated for this volume All the materials have been updated since their original publication Imperial Perceptions of Palestine Lorenzo Kamel, 2015-07-03 The Palestine Exploration Fund established in 1865 is the oldest organization created specifically for the study of the Levant It helped to spur evangelical tourism to the region in the late 19th and early 20th centuries which in turn generated a huge array of literature that presented Palestine as a Holy Land in which local populations were often portrayed as a simple appendix to well known Biblical scenarios In the first book focused on modern and contemporary Palestine to provide a top down and a bottom up perspective on the process of simplification of the region and its inhabitants under British influence Lorenzo Kamel offers a comprehensive outlook based on primary sources from 17 archives that spans a variety of cultural and social boundaries including local identities land tenure toponymy religious and political charges institutions and borders By observing the historical dynamics through which a fluid region composed by different cultures and societies has been simplified the author explores how perceptions of Palestine have been affected today WINNER OF THE PALESTINE BOOK AWARD 2016 **Who's who in the United Nations** Christian E. Burckel, 1951 **The United Nations in Action** Louis B. Sohn, 1968 Presented through excerpts from official discussions and documents of the United Nations with editorial and bibliographical notes T p *Immigration, Ideology, and Public Activity from an American Jewish Perspective* Zohar Segev, 2021-11-08 Zohar Segev's book *Immigration Ideology and Public Activity from an American Jewish Perspective* examines the lives and careers of four distinguished figures involved in the Zionist movement in the USA and early years of Israel's statehood Aryeh Tartakower Aryeh Kubov Benjamin Akzin and Jacob Robinson emigrated from Europe to the USA during the 1930s and 1940s they later immigrated to Israel Following their paths reveals the multifaceted nature of modern Jewish history in the mid twentieth century providing a perspective on the reciprocal relations between the American Diaspora and the state of Israel Key historic events such as Adolf Eichmann's trial and the debate over the bombing of Auschwitz are given intriguing new perspectives from the papers of these central leaders in the Jewish and Zionist endeavor **Ralph Bunche and the Arab-Israeli Conflict** Elad

Ben-Dror, 2015-09-16 I swear by all that's Holy I will never come anywhere near the Palestine problem once I liberate myself from this trap Ralph Bunche wrote these lines to his wife in 1949 during the armistice talks on Rhodes A year later he was awarded the Nobel Peace Prize for his success in ending the 1948 Arab Israeli war Ralph Bunche and the Arab Israeli Conflict provides a comprehensive study of Ralph Bunche's diplomatic activities on the Palestine question Bunche was at the centre of the story from the referral of the issue to the United Nations in 1947 until the signing of the armistice agreements that ended the war He began as advisor to UNSCOP and then headed the secretariat of the commission tasked with implementing partition Later after serving as the senior aide to UN mediator Folke Bernadotte he was appointed to replace the Count after the latter's assassination Using extensive archival materials some of it revealed here for the first time this book addresses central questions such as the relationship between Bunche's African American identity and his diplomatic endeavours and the complexities of his outlook on the Arab Israeli conflict Through research and careful analysis it uncovers how Ralph Bunche managed to bridge the gaps between Israel and Arab states This book will be of interest to students and scholars of Middle Eastern History particularly Israeli History as well as Political Science and Diplomacy The Nonaligned and the United Nations Mannaraswamighala Sreeranga Rajan, Venkateshwara Subramaniam Mani, Changavalli Siva Rama Murthy, 1987 Contributed articles **The Changing International Community** Charles Boasson, Max Nurock, 2018-11-05 No detailed description available for The Changing International Community *An Ambiguous Partnership* Menahem Kaufman, 1991 While the history of Zionism in America is well documented the history of non Zionist activities in America is less well known An Ambiguous Partnership now tells that story Dr Menahem Kaufman gives a detailed account of how American public figures and Jewish organizations self defined as non Zionists were influenced by changing attitudes in American society and government towards the Zionist struggle and by the problem of Holocaust survivors in Europe This study describes the non Zionists involvement in the political processes in Washington and the United Nations which eventually brought about the establishment of the State of Israel *Israeli-Palestinian Activism* Alexander Koensler, 2016-03-09 When do words and actions empower When do they betray Based on ethnographic fieldwork this volume tracks the repercussions of advocacy activism against house demolitions in unrecognised Arab Bedouin villages in Israel's southern internal frontier It highlights the repercussions of activism for victims fund raisers and activists The ethnographic episodes show how humanitarian aid intervention and indigenous identity politics can turn into a double edged sword Ironically institutional lobbying for coexistence and its interpretative categories can sometimes perpetuate different forms of subjugation The volume also shows how beyond the institutional lobbying novel figures of activism emerge informal networks create non sectarian cross cutting countercultures and rethink human environment relationships These experimental political subjects redefine the categories of the conflict and elude the logic of zero sum games they point towards a shifting paradigm in current ethnopolitics Koensler outlines an ethnographic approach for the study of social

movements that follows multiple relations around mobilisations rather than studying activism in itself This perspective thus becomes relevant for scholars and activists engaged with the Israeli Palestinian conflict and those interested in global rights discourses The Legality of a Jewish State John Quigley,2021-12-16 In The Legality of a Jewish State the author traces the diplomatic history that led to the partition of Palestine in 1948 and the creation of Israel as a state He argues that the fate of Palestine was not determined on the basis of principle but by the failure of legality In focusing on the lawyer diplomats who pressed for and against a Jewish state at the United Nations he offers an explanation of the effort in 1947-48 by Arab states at the UN to gain a legal opinion from the International Court of Justice about partition and the declaration of a Jewish state Their arguments at that time may surprise a twenty first century reader touching on issues that are still at the heart of the contemporary conflict in the Middle East **Psychological Warfare and Propaganda** Ely J. Tavin,Yonah Alexander,1982 Formed in 1937 in the wake of the Arab revolt the Irgun Zvai Leumi continued to struggle for the existence of an independent Jewish nation in Palestine until the creation of the state of Israel in May of 1948 In the face of British opposition and Arab hostility the Irgun carried on its fight by means of both violence and psychological warfare In this it was typical of those underground groups that seek to bring about political change outside constitutional channels by combining the propaganda of the word with the propaganda of the deed Concentrating on the period 1942-48 the editors demonstrate the methods used by the Irgun to undermine British morale and to question the continued legitimacy of the British mandate in Palestine They also illustrated the tensions among and the conflicting policies of the major Jewish underground groups In so doing they provide a case study of the methods of political communication by which a nonstate group can achieve its goals even when opposed by an established government These documents also will provide insight into the current problems in the Middle East The perceptions and actions of the Jewish resistance movement particularly the Irgun under the leadership of Menachem Begin continue influence the attitudes and policies of Israelis and Arabs alike **Dictionary Catalog of the Klaus Library, Cincinnati** Hebrew Union College-Jewish Institute of Religion. Library,1964 No Return, No Refuge Howard Adelman,Elazar Barkan,2011-07-05 Refugee displacement is a global phenomenon that has uprooted millions of individuals over the past century In the 1980s repatriation became the preferred option for resolving the refugee crisis As human rights achieved global eminence refugees right of return fell under its umbrella Yet return as a right and its practice as a rite created a radical disconnect between principle and everyday practice and the repatriation of refugees and Internally Displaced Persons IDPs remains elusive in cases of forced displacement of victims by ethnic conflict Reviewing cases of ethnic displacement throughout the twentieth century in Europe Asia and Africa Howard Adelman and Elazar Barkan juxtapose the empirical lack of repatriation in cases of ethnic conflict unless accompanied by coercion The emphasis on repatriation during the last several decades has obscured other options leaving refugees to spend years warehoused in camps Repatriation takes place when identity defined by ethnicity or religion is not at the center of the displacing conflict or

when the ethnic group to which the refugees belong are not a minority in their original country or in the region to which they want to return Rather than perpetuate a ritual belief in return as a right without the prospect of realization Adelman and Barkan call for solutions that bracket return as a primary focus in cases of ethnic conflict The Library Catalogs of the Hoover Institution on War, Revolution, and Peace, Stanford University Hoover Institution on War, Revolution, and Peace,1969 Encyclopedia of the United Nations and International Agreements: N to S Edmund Jan Osmańczyk,2003 This thoroughly revised and updated edition is the most comprehensive and detailed reference ever published on United Nations The book demystifies the complex workings of the world s most important and influential international body
