Love, Power, and Gender in Seventeenth-Century French Fairy Tales Bronwyn Reddan, 2020-12 Love is a key ingredient in the stereotypical fairy tale ending in which everyone lives happily ever after. This romantic formula continues to influence contemporary ideas about love and marriage but it ignores the history of love as an emotion that shapes and is shaped by hierarchies of power including gender, class, education, and social status. This interdisciplinary study questions the idealization of love as the ultimate happy ending by showing how the conteuses, the women writers who dominated the first French fairy tale vogue in the 1690s, used the fairy tale genre to critique the power dynamics of courtship and marriage. Their tales do not sit comfortably in the fairy tale canon as they explore the good, the bad, and the ugly effects of love and marriage on the lives of their heroines. Bronwyn Reddan argues that the conteuses' scripts for love emphasize the importance of gender in determining the right way to love in seventeenth-century France. Their version of fairy tale love is historical and contingent rather than universal and timeless. This conversation about love compels revision of the happily ever after narrative and offers incisive commentary on the gendered scripts for the performance of love in courtship and marriage in seventeenth-century France. Powerful Connections

Peter William Shoemaker, 2007 Powerful Connections: The Poetics of Patronage in the Age of Louis XIII explores the role of patronage in shaping French literary culture between 1614 and 1661, a period that witnessed both the rise of the early modern state under Richelieu and the beginnings of modern literary culture in the salons and academies. It includes readings of texts by authors such as Jean Louis Guez de Balzac, Theophile de Viau, Charles Sorel, and Pierre Corneille that reveal the personal side of political power and its impact upon literary practice. *Miracles of Love* Nora Martin Peterson, 2021-11-12 Before children's stories came to exemplify the French fairy tale, early modern audiences read the works of women writers known as conteuses. From the late seventeenth century through the Revolution, the conteuses published rich, complex tales that were popular in literary salons and elite courtly settings. These unpredictable works feature candid representations of female desire, strong support for the education of women, and surprising twists on the fairy tale formulas familiar to readers of Charles Perrault. Not only witty and entertaining, the tales also comment on the unfair treatment of women that the authors saw in society, history, and myth. Brief biographies introduce to new audiences writers who challenged social conventions, won popular and critical acclaim, and defined the fairy tale genre in their own time.

The Tapestry of Popular Songs in 16th- and 17th-Century China Kathryn Lowry, 2021-09-20 Popular songs in sixteenth and seventeenth century China form a rich and intriguing body of materials hardly studied so far in the English speaking world This book is about these songs and their impact on Chinese culture and literary practice It examines the tapestry books in which popular songs circulated how books shaped readers how books were shaped by a range of literacies and how arrangements of performance texts aided imitation and selection of words or phrases Publishing histories of the popular song collections bring to light how songs were duplicated for readers among the elite and sub elite The analysis of how popular songs bring together the high and the low is of special value for literary scholars and intellectual historians and challenges the traditional dichotomy between elite and popular culture
