Britain: Parliament: House of Commons: Committee of Public Accounts,2009-06-04 The BBC in 2007 08 spent 462 million on its 16 radio stations The BBC has set these 16 stations a combined target of efficiency savings of 69 million over the five year period to March 2013 representing an annual saving of 3 per cent The BBC proposed unacceptable constraints on the Comptroller and Auditor General s access to information and his discretion to report to his findings to Parliament The situation arose because the Comptroller and Auditor General does not have statutory unrestricted rights of access to the BBC which he does with all other publicly funded bodies The BBC has wide ranges of costs for similar programmes within and between its radio stations The average cost for an hour of comparable music programmes on Radio 2 is more than 50 per cent higher than on Radio 1 For most breakfast and drivetime slots the BBC s costs are significantly higher than commercial stations largely because of payments to presenters The BBC has not used cost comparisons across its own programmes or against commercial radio to identify scope for efficiencies The BBC uses its principal value for money indicator cost per listener hour to justify the cost of presenters on the basis of audience size but the indicator does not provide assurance that programme costs are the minimum necessary to reach the required quality and intended audience For most radio programmes presenters salaries represent the majority of programming costs but the BBC is paying more than the market price for its top radio presenters The BBC has prevented full public scrutiny of the value for money of expenditure on presenters by agreeing confidentiality clauses with some presenters *The Media Student's Guide to Radio Production* Bob Gilmurray,2013-02-01 This book is written for students enrolled on media production courses in further and higher education which include modules in radio broadcasting It is particularly well suited to students in the United Kingdom who are taking BTEC Nationals and Higher Nationals or OCR Nationals or similar post school vocational media programmes That said this book contains much that radio trainers and trainees outside the context of mainstream education and even of the UK will also find helpful The rules and conventions may vary but the skills required to do the job are much the same everywhere The emphasis is upon the practical issues that arise when you the student are experiencing for the first time the challenge of working as a member of a team to launch and run a broadcast or internet radio station and you are being assessed on how well you do Making Radio Shawn VanCour,2018 Long before the network era radio writers and programmers developed methods and performance styles that were grounded in emerging audio technologies Making Radio reveals radio as the missing link in the history of modern sound culture *Radio Broadcasting* Dr. Ruchita Sujai Chowdhary,2025-01-04 Radio Broadcasting the history technology and impact of radio as a mass communication medium The evolution of radio from its early experimental phases to its role in modern media landscapes It key aspects such as programming production techniques audience engagement and regulatory frameworks Additionally it examines the influence of radio in shaping public opinion entertainment and news dissemination With insights into both traditional and digital broadcasting this book serves as an essential guide for students professionals and enthusiasts interested in the dynamic world of radio communication Radio
