Reality Of Faith The Problem Of Subjecti

Samuel Phillips Newman Smyth

Reality Of Faith The Problem Of Subject:

The reality of faith. Authorized copyright ed Samuel Phillips Newman Smyth, 1885 **Experiencing the Knowing of Faith** Sharon Warner, 2000 What is religious faith And how does modern society view truth Sharon Warner in Experiencing the Knowing of Faith discusses the understanding formed by deep truth or knowledge intrinsic to a person's self identity She critiques today's susceptibility to the paradigm of Cartesian dualities such as mind body and subject object and in doing so utilizes the philosophy of Alfred North Whitehead and Michael Polanyi Concluding with an exploration of the relevance of this theory for teaching faith the work will be of great use to religious scholars and to philosophers The Reconstruction of Religion Jan-Olav Henriksen, 2015-03-13 The Reconstruction of Religion explores the thoughts of three influential philosophers G E Lessing Søren Kierkegaard and Friedrich Nietzsche looking in particular at their influential approaches to the relationship between religion and modernity In a period of a little more than one hundred years Lessing Kierkegaard and Nietzsche each developed a different theory of religion Rejecting the possibility of maintaining religious faith on the old foundation of church tradition these thinkers formulated new ways of understanding religion in response to the challenges of modernity Though the conclusions of each system are different there remain important elements in common between them such as the importance of religious subjectivity Jan Olav Henriksen compares and contrasts the thought of Lessing Kierkegaard and Nietzsche showing that each of these philosophers still has something important to contribute to understanding religion in our own postmodern era For anyone interested in the position of religious belief in today's world these reconstructions of religion are of great value In addition to their place in the history of ideas these three philosophical approaches anticipate some of the recent issues relating to religion in postmodernity Henriksen's perceptive work moves beyond the level of historical analysis to insightful rereadings of Lessing Kierkegaard and Nietzsche that help us better understand the place of religion in our pluralistic society **Johann Georg Hamann Philosophy and Faith** W.M. Alexander, 2012-12-06 THE PROBLEM OF THE INTERPRETATION OF HAMANN Johann Georg Hamann is an intriguing but poorly known figure in the contemporary intellectual world Yet this is the man whom Kierkegaard saluted as Emperor whose writings were to have been arranged for publication by none other than Goethe himself and whom Dilthey numbered among the primordial figures in the rise of modern historical consciousness There are reasons for the persistence of this general ignorance Hamann is deep And in addition there is his forbidding style The readers of Kierkegaard and Dilthey two other giants who themselves achieved late recognition have not had to face this kind of imposing obstacle Not only does Hamann expect his readers to handle themselves in deep water but to intuit their way between his ideas which bob up like islands with no visible connection between them Like Kierkegaard too Hamann has had his troubles with the public He himself referred to the hope that he would be understood by a better posterity In fact only the last few years have seen the printing of some of his more controversial writings in particular his theories on the nature of human sexuality **The End of**

Democracy and Faith Sean Wallace,2016-03-15 We are born into an automatic social contract democracy that we never consent to While seemingly championing the individual and the value of individual choice democracy ultimately degenerates into collectivism and mob rule Coupled with a reified religious mythology widespread economic and market collapse and deep political corruption the individual is lost within a democracy to the collective majority However can a just viable form of governance and society exist without the coercion of democracy The End of Democracy and Faith presents an alternative vision that wrests the value of individual choice from mob rule and restores the consent and supremacy of the individual in the social contract Eschewing faith and hope instead for a movement toward building bonds with our fellow men and women and for taking the reins and helping each other save our future it explores the connections between our morality identity history philosophy and economy And with the introduction of the concept of the voluntary state it offers a philosophical foundation in support of using freedom instead of coercion to handle our responsibilities regarding our own income retirement health care and way of life The promises of democracy and any individualism inherent to the founding of the nation have been largely replaced by a perilous disenfranchising collectivism Pursuing an alternative social reality one that can truly enable free markets overcome religious myth and restore individual choice represents a true challenge to the moral depravity of democracy and faith There are certain elements holding back our economy the author asserts though economists rarely make mention of them due to their status as societal sacred cows His arguments against democracy are the most engaging sections of the book in part because such cases are so infrequently made Kirkus Reviews *The Modern Theologians* David F. Ford,2013-09-23 This popular text has been updated to ensure that it continues to provide a current and comprehensive overview of the main Christian theologies of the twentieth and twenty first centuries Each chapter is written by a leading theologian and gives a clear picture of a particular movement topic or individual New and updated treatments of topics covered in earlier editions with over half the chapters new to this edition or revised by new authors New section singling out six classic theologians of the twentieth century Expanded treatment of the natural sciences gender Roman Catholic theology since Vatican II and African Asian and Evangelical theologies Completely new chapters on spirituality pastoral theology philosophical theology postcolonial biblical interpretation Pentecostal theology Islam and Christian theology Buddhism and Christian theology and theology and film As in previous editions the text opens with a full introduction to modern theology Epilogue discussing the present situation and prospects of Christian theology in the twenty first century **Some Problems of Lotze's Theory of Knowledge** Edwin Proctor Robins,1900 **Truth and Near Truth** William Henry Sexton,1908 **Faith in Christ Today Invitation to Systematic Theology** Klaus Nurnberger,2016-06-29 In Volume I the author analyses the Word of God and the response of the Christian community in a lucid and accesible way In this second volume he interprets the classical assertions of the Christian faith in terms of Gods creative and redemptive project in the world of today His experiential approach is meant to restore the credibility vibrancy and relevance of faith in

Christ for our times *Christian Faith* Hendrikus Berkhof, 1991 In today's secular world the Christian faith is viewed as only one aspect of what could be called religious life Acknowledging this Hendrikus Berkhof begins this thought provoking study with a sketch of religion and faith in general before narrowing it down to a discussion of the specific place of Christian faith in all of reality
