Rebels And Bureaucrats Chinas December 9ers:

Rebels and Bureaucrats John Israel, Donald W. Klein, 1974 **Inventing China through History** Q. Edward Wang, 2001-01-01 A critical examination of the rise of national history in early twentieth century China *Tools of War, Tools of State* Robert Tynes, 2018-09-01 Examines why many governments rebels and terrorist organizations are using children as soldiers Despite the supposed taboo against the practice many governments rebels and terrorist groups use children in war to spy and kill In *Tools of War Tools of State* Robert Tynes examines this complex problem demonstrating that the modern use of children in war is a tactical innovation He discusses how boys and girls on the battlefield bolster troop size create moral dilemmas and deepen the level of fear He also reveals how the practice has become an essential component for groups such as ISIS and al Shabaab in their state making projects Using statistical methods to analyze conflicts from 1987 to 2007 Tynes shows how widespread child soldier use is and confirms the theory that it is tactically advantageous Through historical analysis he explains how child soldiering developed out of Mao s protracted war theory and the militarization of youth during the twentieth century A case study of the civil war in Sierra Leone which details the brutality involved when children are forced to fight is included **Constitutional Reform and the Future of the Republic of China** Harvey Feldman, Columbia University. Taiwan Area Studies Program, 1991 The conference that forms the basis for this book was held in Taipei in 1989 With contributions by political figures from both the Kuomintang and the opposition Democratic Progressive Party as well as leading scholars from Taiwan and the US this book discusses the critical issues affecting the future of Taiwan The book discusses Taiwan s economic achievements its pathbreaking experiments with political reform its unique patterns of political participation its example as a fully modernized Chinese cultural community its importance in the world trading system and its key role in Pacific Basin international relations It also discusses how these factors have made Taiwan a focus of interest for students of economic development comparative politics and international relations *Mobilizing Shanghai Youth* Kristin Mulready-Stone, 2014-11-27 In the late nineteenth and early twentieth centuries youth emerged as a new and important social force in many parts of the world In China the image of this new youth imprinted itself on Chinese consciousness and made clear to potential national leaders that future governments would not be able to ignore China s youth or expect them simply to step in line For this and other reasons the Chinese Communist Party CCP the Chinese Nationalist Party GMD and a string of War of Resistance era collaborationist governments all formed youth organizations in an effort to win youth over and harness their vitality and enthusiasm to further their agendas *Mobilizing Shanghai Youth* explores the similarities and differences among three youth organizations that were connected to Chinese political parties or governments in Shanghai spanning from the beginning of the May Fourth Movement just as youth began to emerge as a powerful social and political force in China to World War II when Nationalist Communist and Japanese forces were still competing for dominance It takes a comparative approach in exploring the similarities and differences trials and tribulations

in how the Chinese Communist Party Chinese Nationalist Party and a series of collaborationist regimes sought to appeal to youth through the Communist Youth League the Three People s Principles Youth Corps and the China Youth Corps Focusing on Greater Shanghai allows a detailed exploration of the rise and fall of the original Communist Youth League and its connections to international communism The spotlight on Shanghai also yields the extraordinary finding that the Three People s Principles Youth Corps was a valuable asset to the Nationalist Party operating as a potent resistance organization in Japanese controlled Shanghai whereas branches in Nationalist controlled territory were factionalized dysfunctional and a terrible liability for the Party Most surprisingly the collaborationist China Youth Corps took the most practical and in some ways the most successful approach to mobilizing China s youth The result of exhaustive archival research this book will be of huge interest to students and scholars of Chinese history modern history Communism and the role of youth in revolution

New Perspectives on Yenching University, 1916-1952 Arthur Lewis Rosenbaum, 2015-01-08 Essays in New Perspectives on Yenching University 1916-1952 reevaluate the experience of China's preeminent Christian university in an era of nationalism and revolution Although the university was denounced by the Chinese Communists and critics as an elitist and imperialist enterprise irrelevant to China's real needs the essays demonstrate that Yenching's emphasis on biculturalism cultural exchange and a broad liberal education combined with professional expertise ultimately are compatible with nation building and a modern Chinese identity They show that the university fostered transnational exchanges of knowledge changed the lives of students and faculty and responded to the pressures of nationalism war and revolution Topics include efforts to make Christianity relevant to China's needs promotion of professional expertise gender relationships and coeducation the liberal arts Sino American cultural interactions and Yenching's ambiguous response to Chinese nationalism Japanese invasion and revolution

Wu Han, Historian Mary G. Mazur, 1955-01-01 This biography spotlights the life of a key Chinese intellectual Wu Han well known in China as a major twentieth century historian and democratic political figure World attention was drawn to Wu in the mid 1960s as the first of Mao Zedong's targets in the Cultural Revolution The biography locates Wu in the rapid changes in the social and political environment of his times from the early years of the twentieth century until his death in prison in 1969 With Wu Han's life as the focus the narrative deals with the momentous changes in Chinese society and government during the last century Mazur bases the biographical account on extensive interviewing in China and penetrates a great deal deeper than the conventional conception of the shift from Nationalist to Communist regimes in the PRC The complex life of Wu Han is of interest to specialist and non specialist readers alike both because of the broad relevance of the historical and political issues he and those around him confronted in the context of the times in China and because of the direct narrative biographical style revealing the conflicts and depth in the human situation Mazur relates Wu Han's life to the momentous changes and conflicts surging through Chinese society with special emphasis on the complex role intellectuals have played during the course of change
