Dissociation in Traumatized Children and Adolescents

Sandra Wieland,2015-03-27 *Dissociation in Traumatized Children and Adolescents* presents a series of unique and compelling case studies written by some of the foremost international experts in the study of dissociation in young people In the new edition chapters have been updated to include discussion of the most recent findings in trauma and neuroscience as well as Joyanna Silberg s popular affect avoidance model In addition Sandra Wieland s incisive commentaries on each case study have been updated Each chapter presents a detailed narrative of a therapist s work with a child or adolescent interspersed with the therapist s own thought process and every therapist explains the theory and research behind her clinical decisions The case studies present many aspects of working with traumatized children attachment work trauma processing work with the family interactions with the community psychoeducation related to dissociation and encouragement of communication between the dissociated parts and provide a frank analysis of the difficulties clinicians encounter in various therapeutic situations While the book is exceptional in its clear and detailed descriptions of theory related to dissociation in children most importantly it illustrates how theory can be translated into successful therapeutic interactions

Real Life Heroes

Richard Kagan,2016-12-13 *Real Life Heroes Toolkit for Treating Traumatic Stress in Children and Families* Second Edition is an organized and easy to use reference for practitioners providing therapy to children and caregivers with traumatic stress This step by step guide is an accompanying text to the workbook *Real Life Heroes A Life Story Book for Children* Third Edition and provides professionals with structured tools for helping children to reintegrate painful memories and to foster healing from traumatic experiences The book is a go to resource for practitioners in child and family service agencies and treatment centers to implement trauma informed resiliency centered and evidence supported services for children with traumatic stress

Making It Better Barbara Oehlberg,2014-02-18 The trusted source for over 20 years activities to help children process and heal from stressful and traumatic events

Wounded Angels

Richard Kagan,2017-02-27 *Wounded Angels Inspiration From Children in Crisis* uses vignettes of children in crisis situations to portray how troubling behaviors can act as clues for ways children can grow stronger after traumatic stress This text shows how children can guide caregivers and practitioners

through hidden conflicts and through case examples provide opportunities to develop emotionally supportive relationships. Practitioners and caregivers can use *Wounded Angels* to encourage a resilient perspective for children. In return, this text informs readers how children find their own path towards healing. **Healing the Fractured Child** Frances S.

Waters, 2016-03-28. Anyone who works with troubled children and their families should not miss this book. *Healing the Fractured Child* weaves together comprehensive theory and neurobiology that substantiate practical treatment guidelines for children and their families. The complexity of symptoms, diagnoses, assessment, use of medication, and a variety of innovative treatment approaches for stabilization, trauma processing, and integration are explored and come to life through the clear, practical, and touching clinical illustrations peppered throughout the book. Fran Waters has drawn on her vast clinical experience and thorough knowledge of current perspectives on dissociation and child therapy to write an integrative, readable, and immensely useful masterpiece—a gift to the field of child psychology and psychotherapy and to the many therapists, children, and parents who will benefit from her wisdom. Pat Ogden, PhD, Founder, Sensorimotor Psychotherapy Institute, Author, *Sensorimotor Psychotherapy: Interventions for Trauma and Attachment*. A skillfully written, comprehensive, and remarkable volume. Well grounded in theory and full of rich practical applications and detailed case examples, Waters' outstanding work will expand clinicians' capacity to understand and assess dissociation as well as to effectively accompany children in their healing journeys. An essential resource for therapists of all orientations working with trauma and dissociation. Ana M. G. Mez-McLPC, Author of *EMDR Therapy and Adjunct Approaches with Children: Complex Trauma, Attachment, and Dissociation*. Written by one of the nation's leading practitioners in the field of childhood trauma, abuse, and dissociation, this comprehensive resource fills a void in the literature to provide in-depth knowledge of current interventions for treating dissociation in youth. It describes a detailed, careful assessment process and creative, evidence-supported techniques for helping children and their families to heal from chaotic, traumatizing experiences. With both a theoretical and practical focus, the book offers proven strategies for successfully treating children and adolescents with varying degrees of dissociation and co-morbid symptoms. It also integrates adjunct therapies in environments beyond those of traditional psychotherapy, such as school, and describes how their strategies can be used effectively to augment therapy and understand dissociative children. Based on a model integrating five prominent therapeutic modalities and underscoring the importance of attachment style, the book focuses on the neurobiology of trauma, a high co-morbidity of symptoms, specialized clinical interventions, psychopharmacology, and family intervention techniques. Also addressed are adjunct therapies in art and EMDR. In addition, the book provides a window into the effects of traumatic events, such as medical illness, that may be overlooked, and safe techniques with dissociative youth who are exhibiting dangerous behaviors. Rich clinical examples demonstrate the various phases of treatment and offer a window into the internal world of dissociative children. This resource provides mental health clinicians and other health professionals with a wealth of tools to effectively treat this troubled client population. Key

Features Describes theoretical conceptualization and specialized integrative techniques to treat dissociative children effectively Integrates psychotherapy with EMDR art therapy neurobiology and psychopharmacology Distills current research on neurobiology of trauma and how to intervene with specially designed treatment strategies Provides in depth knowledge of the latest creative interventions for treatment across degrees and ages of dissociation and co morbid symptoms Sensitizes the therapist to often overlooked traumatic events e g medical illness that can exacerbate symptoms *The Child Survivor* Joyanna L. Silberg,2013-03-05 The Child Survivor is a clinically rich comprehensive overview of the treatment of children and adolescents who have developed dissociative symptoms in response to ongoing developmental trauma Joyanna Silberg a widely respected authority in the field uses case examples to illustrate hard to manage clinical dilemmas such as children presenting with rage reactions amnesia and dissociative shut down These behaviors are often survival strategies and in The Child Survivor practitioners will find practical management tools that are backed up by recent scientific advances in neurobiology Clinicians on the front lines of treatment will come away from the book with an arsenal of therapeutic techniques that they can put into practice right away limiting the need for restrictive hospitalizations or out of home placements for their young clients *Attachment-Informed Grief Therapy* Phyllis S. Kosminsky,John R. Jordan,2016-04-14 Attachment Informed Grief Therapy bridges the fields of attachment studies and thanatology uniting theory research and practice to enrich our understanding of how and why people grieve and how we can help the bereaved In its pages clinicians and students will gain a new understanding of the etiology of complicated grief and its treatment and will become better equipped to formulate accurate and specific case conceptualization and treatment plans The authors also illustrate the ways in which the therapeutic relationship is a crucially important though largely unrecognized element in grief therapy and offer guidelines for an attachment informed view of the therapeutic relationship that can serve as the foundation of all grief therapy **Working with High-Risk Youth** Peter Smyth,2017-04-11 This book focuses on high risk youth whose struggles include neglect abuse alcohol and drug abuse the risk of being exploited mental health issues and the inability to self regulate and trust While practice has traditionally focused on punishment consequence interventions this book explores the experience and research that shows how youth can be better served with relationship based practice Setting out a philosophy and framework for harm reduction principles resiliency and strength based approaches community collaboration and an understanding of early trauma Smyth provides strategies for engaging and working with the most disconnected challenging and troubled youth in society

Reviewing **Rebuilding Attachments With Traumatized Children Healing Losses Violence Abuse And Neglect:** Unlocking the Spellbinding Force of Linguistics
