Religion And Sexuality In American Literature:

Religion and Sexuality in American Literature Ann-Janine Morey, 1992-06-26 Although sometimes religion and sexuality are treated as an aberrant theme in American literary and religious history American writers from Nathaniel Hawthorne to John Updike have been fascinated with the connection between religious and sexual experience Through the voice of American fiction *Religion and Sexuality in American Literature* examines the relations of body and spirit religion and sexuality Using both canonical and non canonical fiction Ann Janine Morey examines novels dealing with the ministry as the medium wherein so many of the tensions of religion and sexuality are dramatised and then moves to contemporary novels that deal with moral and religious issues through metaphor Based upon a sophisticated and selective application of metaphor theory deconstruction and feminist postmodernism Morey argues that while American fiction has replicated many traditional animosities there are also some rather surprising resources here for commonality between men and women if we

Embodiment and the New Shape of Black Theological Thought Anthony B. Pinn,2010-06-01

Black theology tends to be a theology about no body Though one might assume that black and womanist theology have already given significant attention to the nature and meaning of black bodies as a theological issue this inquiry has primarily taken the form of a focus on issues relating to liberation treating the body in abstract terms rather than focusing on the experiencing of a material fleshy reality By focusing on the body as a physical entity and not just a metaphorical one Pinn offers a new approach to theological thinking about race gender and sexuality According to Pinn the body is of profound theological importance In this first text on black theology to take embodiment as its starting point and its goal Pinn interrogates the traditional source materials for black theology such as spirituals and slave narratives seeking to link them to materials such as photography that highlight the theological importance of the body Employing a multidisciplinary approach spanning from the sociology of the body and philosophy to anthropology and art history Embodiment and the New Shape of Black Theological Thought pushes black theology to the next level

Culture and Redemption Tracy Fessenden, 2011-06-27 Many Americans wish to believe that the United States founded in religious tolerance has gradually and naturally established a secular public sphere that is equally tolerant of all religions or none Culture and Redemption suggests otherwise Tracy Fessenden contends that the uneven separation of church and state in America far from safeguarding an arena for democratic flourishing has functioned instead to promote particular forms of religious possibility while containing suppressing or excluding others At a moment when questions about the appropriate role of religion in public life have become trenchant as never before Culture and Redemption radically challenges conventional depictions celebratory or

damning of America's secular public sphere Examining American legal cases children's books sermons and polemics together with popular and classic works of literature from the seventeenth to the twentieth centuries Culture and Redemption shows how the vaunted secularization of American culture proceeds not as an inevitable by-product of modernity but instead through concerted attempts to render dominant forms of Protestant identity continuous with democratic civil identity Fessenden shows this process to be thoroughly implicated moreover in practices of often violent exclusion that go to the making of national culture Indian removals forced acculturations of religious and other minorities internal and external colonizations and exacting constructions of sex and gender Her new readings of Emerson Whitman Melville Stowe Twain Gilman Fitzgerald and others who address themselves to these dynamics in intricate and often unexpected ways advance a major reinterpretation of American writing

American Christianities Catherine A. Brekus, W. Clark Gilpin, 2011-12-01 From the founding of the first colonies until the present the influence of Christianity as the dominant faith in American society has extended far beyond church pews into the wider culture Yet at the same time Christians in the United States have disagreed sharply about the meaning of their shared tradition and divided by denominational affiliation race and ethnicity they have taken stances on every side of contested public issues from slavery to women's rights This volume of twenty-two original essays contributed by a group of prominent thinkers in American religious studies provides a sophisticated understanding of both the diversity and the alliances among Christianities in the United States and the influences that have shaped churches and the nation in reciprocal ways American Christianities explores this paradoxical dynamic of dominance and diversity that are the true marks of a faith too often perceived as homogeneous and monolithic Contributors Catherine L Albanese University of California Santa Barbara James B Bennett Santa Clara University Edith Blumhofer Wheaton College Ann Braude Harvard Divinity School Catherine A Brekus University of Chicago Divinity School Kristina Bross Purdue University Rebecca L Davis University of Delaware Curtis J Evans University of Chicago Divinity School Tracy Fessenden Arizona State University Kathleen Flake Vanderbilt University Divinity School W Clark Gilpin University of Chicago Divinity School Stewart M Hoover University of Colorado at Boulder Jeanne Halgren Kilde University of Minnesota David W Kling University of Miami Timothy S Lee Brite Divinity School Texas Christian University Dan McKanan Harvard Divinity School Michael D McNally Carleton College Mark A Noll University of Notre Dame Jon Pahl The Lutheran Theological Seminary at Philadelphia Sally M Promey Yale University Jon H Roberts Boston University Jonathan D Sarna Brandeis University Toni Morrison's Fiction David L. Middleton, 2016-01-28 This collection of contemporary criticism explores her concern with racial and gender issues and analyzes her in relation to other major modern authors her philosophical and religious speculations and her preoccupation with the process of fiction making These classics provide a broad look at critical argument about Toni Morrison's meanings and significance during the past 10 years From the formative effects of learning one's Otherness as a result of majority perception to the apocalyptic implications of racial memory to the moral and psychologically constructive

act of storytelling to the structural function served by improvisational jazz music to the imagery associated with both flight and naming to the uniquely female experience of community major issues raised by Morrison's body of work are explicated here

Sharif Williams, 2018-10-24 Sexuality Religion and the Sacred is a thoughtful collection of bisexual polysexual and pansexual scholarship on religion and spirituality It examines how religious and spiritual traditions address sexuality whilst also exploring the ways in which bisexually polysexually and pansexually active people embrace religious and spiritual practice The volume offers a comprehensive analysis of these prevalent themes by focusing on five main areas of discussion Christian and Unitarian Discourses Indigenous and Decolonizing Spiritual Discourses Feminist Spiritual Discourses Buddhist Discourses and Neo Pagan Discourses Sexuality Religion and the Sacred offers an accessible yet scholarly treatment of these topics through a collection of critical essays by academics of theology humanities cultural studies and social sciences as well as sexology professionals and clergy from various faith and spiritual traditions It gives readers an insight into the intersection of sexualities and spiritualities and attempts to disrupt this very dichotomy through its careful consideration of a wide variety of discourses This book was originally published as a special issue of the Journal of Bisexuality

America's Religions Peter W. Williams, 2008 A panoramic introduction to religion in America newly revised and updated

Sex and Religion Dag Ølstein Endsjø, 2012-01-01 Sex and religion are inevitably and intricately linked There are few realms of human experience other than sex in which religion has greater reach and influence The role of religion of any faith to prohibit regulate condemn and reward is unavoidably prominent in questions of sex namely with whom when how and why In *Sex and Religion* Dag Ølstein Endsjø examines the myriad and complex religious attitudes towards sex in cultures throughout the world Endsjø reflects on some of the most significantly problematic areas in the relationship between sex and religion from sex before or outside of marriage to homosexuality Through many examples from world religions he outlines what people mean by sex in a religious context with whom it's permissible to have sex how sex can be a directly religious experience and what consequences there are for deviance for both the individual and society As Endsjø explains while Buddhist monks call attention to gay sex as a holy mystery the Christian church questions a homosexual's place in the church Some religions may believe that promiscuity leads to hurricanes and nuclear war and in others God condemns interracial marriage *Sex and Religion* reveals there is nothing natural or self evident about the ways in which various religions prescribe or proscribe and bless or condemn different types of sexuality Whether sex becomes sacred or abhorrent depends entirely on how a religion defines it *Sex and Religion* is a fascinating investigation of mores meanings rituals and rules in many faiths around the globe and will be of interest to anyone curious about the intersection of these fundamental aspects of human history and experience

Gender and the Intersubjective Sublime in Faulkner, Forster, Lawrence, and Woolf Erin Speese, 2017-09-22 Exploring how the modern novel's complex depictions of parenthood restructure traditional conceptions of the Romantic sublime Erin K Johns Speese shows

how William Faulkner E M Forster D H Lawrence and Virginia Woolf use related strategies to rewrite the traditional sublime as an intersubjective experience Speese shows that this reframing depends on the recognition of social objectification and an ethics of reciprocal empathy between mothers and fathers She juxtaposes traditional aesthetics and Slavoj i ek s concept of the sublime object of ideology with recent theoretical work regarding identity arguing that these modern novelists construct what she terms a sublime subject that is a person who functions in the space of the traditional sublime object In revealing the possibility of transcendent emotional connection over reason these novelists critique the objectification of the other in favor of a sublime experience that reveals the subject shattering power of empathy *Sexuality, Religion, and Magic* Michael A.
