Religious Pluralism A Metaphorical Approach:

Religious Pluralism, 2000 Religious Pluralism stems from a series of Gifford Research Fellowship lectures A stipulation of these lectures is that they be public popular addressed to the intelligent lay person not just the specialist Religious Pluralism is not written from the stance of any particular faith It addresses issues that might concern anyone who thinks about religion particularly the individual in search of or interested in choosing a faith We live in a religiously plural world one in which Buddhism Christianity Hinduism Islam Judaism Sikhism Taoism etc variously picture the nature purpose of human existence Which religious account if any should we accept on what ground Is it legitimate to construct a world view using material from several faiths Using the image of a hall of mirrors to symbolize our new multi religious consciousness Religious Pluralism A Metaphorical Approach considers how the individual might answer such challenging questions Chris Arthur received a PhD from the University of Edinburgh where he took a First Class Honours degree in Religious Studies In 1984 he was awarded the Gifford Research Fellowship at the University of St Andrews At the University of Wales he teaches courses in Buddhism Religion the Media Methodology

Process and Pluralism Zhihe Wang, 2013-05-02 This book offers a uniquely process relational oriented Chinese approach to inter religious dialogue called Chinese Harmonism The key features of Chinese harmonism are peaceful co existence mutual transformation and openness to change As developed with help from Whiteheadian process thought Chinese harmonism provides a middle way between particularism and universalism showing how diversity can exist within unity Chinese harmonism is open to similarities among religions but it also emphasizes that differences among religions can be complementary rather than contradictory Thus Chinese harmonism implies an attitude of respect for others and a willingness to learn from others without reducing the other to one's own identity that is to sameness By emphasizing the possibility of complementariness a process oriented Chinese harmonism avoids a dichotomy between universalism and particularism represented respectively by John Hick and S Mark Heim and will make room for a genuine openness and do justice to the culturally and religiously other

Globalization of Communications Chris Arthur,1998 The process of globalization has been accelerated by rapid developments in communication technology Behind the political and economic issues raised by the globalization of communication lie important ethical and religious questions such as for example the effect of our constant exposure through the media to the reality of human suffering far away and the effects on religions and religious people of how the media portray faith *A Tale of Two Theologians* Ambrose Mong,2017-03-31 In *A Tale of Two Theologians* Ambrose Mong s observant new work he examines the writings of the Peruvian theologian Gustavo Gutierrez and the Indian theologian Michael Amaladoss and gives fresh attention to their main concerns regarding evangelisation and the poor Why he asks is Gutierrez s liberation theology now accepted and celebrated by the Roman Catholic Church while Amaladoss s Asian theology with a liberation thrust is threatened with censorship Mong argues that the dwindling threat of Communism has made the Marxist overtones of Latin American liberation theology more palatable to the Catholic hierarchy while the challenge of religious pluralism in Asia is as complex and emotive as ever How can the Church learn to balance the need for dialogue between religions with their duty to proclaim the Gospel How can the Church inculturate itself in Asia while maintaining its identity Ambrose Mong tackles these questions with the shrewd clear eyed view of an active priest and scholar exploring the long troubled relationship the Church

has with liberation theology and offering guidance for the future

John Hick's Pluralist Philosophy of World Religions Paul Rhodes Eddy, 2020-08-26 This title was first published in 2002 One of the most fascinating and controversial interpretations of religious diversity is religious pluralism According to John Hick's model of religious pluralism all the world's great religions are equally valid ways of understanding and responding to the ultimate spiritual reality This book offers an exposition of and critical response to John Hick's model Introducing the various interpretations of religious diversity being discussed today this book presents constructive suggestions as to how things could be further developed to offer a more accurate less confusing presentation of the various options in theology of religions The standard threefold typology of responses to religious diversity exclusivism inclusivism and pluralism are explained and defended Hick's pluralist interpretation of religious diversity is traced culminating in a critical assessment of Hick's pluralistic model and an up to date summary of a variety of critiques directed toward Hick's proposal Paul Rhodes Eddy concludes that Hick's present model is ultimately unsuccessful in retaining both of his long cherished goals a robust religious realism and a consistent religious pluralism whilst overcoming the most difficult problem for the pluralist the fact that the world's religions understand the divine in often contradictory ways

Hogue, Dean Phillip Bell, 2022-05-19 This book introduces the theory of interreligious resilience as a means to developing deeper and more effective interreligious engagement and resilience Michael S Hogue and Dean Phillip Bell advocate for interreligious resilience as the ability to grow through encounters with religious difference They argue that rather than the capacity to endure change and return to a normal status quo a deeper more complex resilience is characterized by an ability to learn through disturbances disruptions and uncertainty This book integrates theory and practice by situating the practical tasks of interreligious engagement in theological and social contexts It is systemic and multidimensional rather than staying focused on isolated interreligious issues or interpersonal interreligious encounters This book is essential reading for all religious leaders and other community leaders working with religious people in an interreligious world *The Routledge Companion to the Study of Religion* ,
