*Writing on the Wall* Karen B. Stern, 2020-11-03 What ancient graffiti reveals about the everyday lives of Jews in the Greek and Roman world Few direct clues exist to the everyday lives and beliefs of ordinary Jews in antiquity Prevailing perspectives on ancient Jewish life have been shaped largely by the voices of intellectual and social elites preserved in the writings of Philo and Josephus and the rabbinic texts of the Mishnah and Talmud Commissioned art architecture and formal inscriptions displayed on tombs and synagogues equally reflect the sensibilities of their influential patrons The perspectives and sentiments of nonelite Jews by contrast have mostly disappeared from the historical record Focusing on these forgotten Jews of antiquity *Writing on the Wall* takes an unprecedented look at the vernacular inscriptions and drawings they left behind and sheds new light on the richness of their quotidian lives Just like their neighbors throughout the eastern and southern Mediterranean Mesopotamia Arabia and Egypt ancient Jews scribbled and drew graffiti everywhere in and around markets hippodromes theaters pagan temples open cliffs sanctuaries and even inside burial caves and synagogues Karen Stern reveals what these markings tell us about the men and women who made them people whose lives beliefs and behaviors eluded commemoration in grand literary and architectural works Making compelling analogies with modern graffiti practices she documents the overlooked connections between Jews and their neighbors showing how popular Jewish practices of prayer mortuary commemoration commerce and civic engagement regularly crossed ethnic and religious boundaries Illustrated throughout with examples of ancient graffiti *Writing on the Wall* provides a tantalizingly intimate glimpse into the cultural worlds of forgotten populations living at the crossroads of Judaism Christianity paganism and earliest Islam

**A Tale of Two Churches** UnChan Jung, 2021-09-07 Though a majority of commentators have admitted or naturally assumed that there were many divergences

amongst the Pauline churches many tend to concentrate on similarities more than dissimilarities contra John M G Barclay Craig de Vos Especially the previous scholarly treatments of divergences in the Pauline churches have shed little light on certain areas of study in particular the early Christians socio economic status The thesis therefore underlines the conspicuous differences between the Thessalonian and Corinthian congregations concerning their socio economic compositions social relationships and further social identities while extrapolating certain circles of causality between them through socio economic and social scientific criticism This study concludes Paul s teachings of grace community and ethics were manifested and modified in different communities in different ways because of these different socio economic contexts

**Sacramental Charity, Creditor Christology, and the Economy of Salvation in Luke's Gospel** Anthony

Giambrone,2017-07-20 In this work Anthony Giambrone investigates the appropriation and development of Jewish charity discourse in Luke s Gospel In contrast to previous scholarship neither the coherence of Lukan wealth ethics nor its contemporary actualization defines his study Instead the sacramental significance of almsgiving becomes the starting point for a more theologically oriented exegesis The end result recognizes Luke s Christological mutation of the inherited tradition The text is organized around three exegetical probes each handling parabolic material i e Luke 7 36 50 10 25 37 and 16 1 31 The author advances an approach to these parables that highlights Christological allegory metalepsis as a Lukan narrative device A break is thus implied with the dominant rationalist constructions of Luke s parabolic art and ethics Also in contrast to a dominant trend stress is laid upon Luke s Jewish rather than Greco Roman context

**Who Were the First Christians?** Thomas Arthur Robinson,2017 Challenges the consensus view of the urban character of early Christianity Demonstrates that almost every scenario in reconstructing early Christian growth is mathematically improbable and in many case impossible unless a rural dimension of the Christian movement is factored in Points to the likelihood that the marginal and the rustic made up a larger part of its membership than is generally recognized

*Ancient Letters and the Purpose of Romans* Aaron Ricker,2020-09-17 Aaron Ricker locates the purpose of Romans in its function as a tool of community identity definition Ricker employs a comparative analysis of the ways in which community identity definition is performed in first century association culture including several ancient network letters comparable to

Romans Ricker's examination of the community advice found in Rom 12-15 reveals in this new context an ancient example of the ways in which an inscribed addressee community can be invited in a letter to see and comport itself as a proper association network community. The ideal community addressed in the letter to the Romans is defined as properly unified and orderly as well as accommodating to and clearly distinct from cultures outside. Finally, it is defined as linked to a proper network with recognised leadership, i.e. the inscribed Paul of the letter and his network. Paul's letter to the Romans is in many ways a baffling and extraordinary document. In terms of its community defining functions and strategies, however, Ricker shows its purpose to be perfectly clear and understandable. Fragments of Colossae Alan Cadwallader, 2015-09-11

**Within Judaism? Interpretive Trajectories in Judaism, Christianity, and Islam from the First to the Twenty-First Century** Anders Runesson, Karin Hedner Zetterholm, 2023-11-27. This book charts the shifting boundaries of Judaism from antiquity to the modern period in order to bring clarity to what scholars mean when they claim that ancient texts or groups are within Judaism, as well as exploring how rabbinic Jews, Christians, and Muslims have negotiated and renegotiated what Judaism is and is not in order to form their own identities. Belief in Jesus as the Messiah was seen as part of first-century Judaism, but by the fourth or fifth century the boundaries had shifted and adherence to Jesus came to be seen as outside of Judaism. Resituating New Testament texts within first or second-century Judaism is an historical exercise that may broaden our view of what Judaism looked like in the early centuries CE, but normatively these texts remain within Christianity because of their reception history. The historical within-Judaism perspective, however, has the potential to challenge and reshape the theology of contemporary Christianity while at the same time the long-held consensus that belief in Jesus cannot belong within Judaism is again challenged by the modern Messianic Jewish movement.

**Clothing the Body of Christ at Colossae** Rosemary Canavan, 2012. What we think of our bodies and what we wear says something about who we are and how we belong. This was the same in the ancient world. Rosemary Canavan explores the imagery of clothing and body in the first century CE Christian writing. An examination of statuary, funerary monuments, and coins in this geographical location contemporaneous with the letter's writing reveals how clothing and body images were understood. This is then placed in dialogue with the metaphorical use of clothing and body in other texts, especially the Letter to the Colossians. Social identity and rhetorical studies draw on archaeological, epigraphical, iconographical, and literary sources to formulate a new approach to biblical interpretation aptly named visual exegesis.

**Travel and Religion in Antiquity** Philip A. Harland, 2011-03-08. Travel and Religion in Antiquity considers the importance of issues relating to travel for our

understanding of religious and cultural life among Jews Christians and others in the ancient world particularly during the Hellenistic and Roman eras The volume is organized around five overlapping areas where religion and travel intersect travel related to honouring deities including travel to festivals oracles and healing sanctuaries travel to communicate the efficacy of a god or the superiority of a way of life including the diffusion of cults or movements travel to explore and encounter foreign peoples or cultures including descriptions of these cultures in ancient ethnographic materials migration and travel to engage in an occupation or vocation With interdisciplinary contributions that cover a range of literary epigraphic and archeological materials the volume sheds light on the importance of movement in connection with religious life among Greeks Romans Nabateans and others including Judeans and followers of Jesus Dynamics of Identity in the World of the Early Christians

Philip A. Harland, 2009-11-19 This study sheds new light on identity formation and maintenance in the world of the early Christians by drawing on neglected archaeological and epigraphic evidence concerning associations and immigrant groups and by incorporating insights from the social sciences The study's unique contribution relates in part to its interdisciplinary character standing at the intersection of Christian Origins Jewish Studies Classical Studies and the Social Sciences It also breaks new ground in its thoroughly comparative framework giving the Greek and Roman evidence its due not as mere background but as an integral factor in understanding dynamics of identity among early Christians This makes the work particularly well suited as a text for courses that aim to understand early Christian groups and literature including the New Testament in relation to their Greek Roman and Judean contexts Inscriptions pertaining to associations provide a new angle of vision on the ways in which members in Christian congregations and Jewish synagogues experienced belonging and expressed their identities within the Greco Roman world The many other groups of immigrants throughout the cities of the empire provide a particularly appropriate framework for understanding both synagogues of Judeans and groups of Jesus followers as minority cultural groups in these same contexts Moreover there were both shared means of expressing identity including fictive familial metaphors and peculiarities in the case of both Jews and Christians as minority cultural groups who like other foreigners were sometimes characterized as dangerous alien anti associations By paying close attention to dynamics of identity and belonging within associations and cultural minority groups we can gain new insights into Pauline Johannine and other early Christian communities **Early Christ Groups and Greco-Roman Associations**

Richard S. Ascough, 2022-06-20 Over the past two and a half decades there has been an increasing interest in how the data from the associations known primarily from inscriptions and papyri can help scholars better understand the development of Christ groups in the first and second centuries Richard Ascough's work has been at the forefront of promoting the associations and applying insights from inscriptions and papyri to understanding early Christian texts This book collects together his most important contributions to the scholarly trajectory as it developed over a two decade period A fresh introduction orients the sixteen previously published articles and essays which are arranged into three sections the first dealing with associations as

a model for Christ groups the second focused on how associations and Christ groups interacted over recruitment and the third on two key elements of group life meals and memorializing the dead
