Knox, 2012-11-20 A Companion to Ovid is a comprehensive overview of one of the most influential poets of classical antiquity Features more than 30 newly commissioned chapters by noted scholars writing in their areas of specialization Illuminates various aspects of Ovid s work such as production genre and style Presents interpretive essays on key poems and collections of poems Includes detailed discussions of Ovid s primary literary influences and his reception in English literature Provides a chronology of key literary and historical events during Ovid s lifetime **Literature and the Encounter with God in Post-Reformation England** Michael Martin, 2016-05-23 Each of the figures examined in this study John Dee John Donne Sir Kenelm Digby Henry and Thomas Vaughan and Jane Lead is concerned with the ways in which God can be approached or experienced Michael Martin analyzes the ways in which the encounter with God is figured among these early modern writers who inhabit the shared cultural space of poets and preachers mystics and scientists The three main themes that inform this study are Cura animarum the care of souls and the diminished role of spiritual direction in post Reformation religious life the rise of scientific rationality and the struggle against the disappearance of the Holy Arising from the methods and commitments of phenomenology the primary mode of inquiry of this study resides in contemplation not in a religious sense but in the realm of perception attendance and acceptance Martin portrays figures such as Dee Digby and Thomas Vaughan not as the eccentrics they are often depicted to have been but rather as participating in a religious mainstream that had been radically altered by the disappearance of any kind of mandatory or regular spiritual direction a problem which was further complicated and exacerbated by the rise of science Thus this study contributes to a reconfiguration of our notion of what religious orthodoxy really meant during the period and calls into question our own assumptions about what is or was orthodox and heterodox Literature-Based Teaching in the Content Areas Carole Cox, 2011-01-12 Forty classroom tested classroom ready literature based strategies for teaching in the K 8 content areas

They discuss the continuity of the written word and habits of mind in the world of print the formation and differentiation of readerships and the increasing influence of public opinion The work demonstrates that early modern publications appeared in a wide variety of forms from periodical literature to polemical pamphlets and reflected the radical transformations occurring at the time in the dissemination of knowledge through the written word These forms were far more ephemeral and far more widely available than modern stereotypes of writing from this period suggest Women and Race in Early Modern Texts Joyce Green MacDonald,2002-05-30 Joyce Green MacDonald discusses the links between women s racial sexual and civic identities in early modern texts She examines the scarcity of African women in English plays of the sixteenth and seventeenth centuries the racial identity of the women in the drama and also that of the women who watched and sometimes wrote the plays The coverage also includes texts from the late fourteenth to the early eighteenth centuries by among others Shakespeare Jonson Davenant the Countess of Pembroke and Aphra Behn MacDonald articulates many of her discussions of early modern women s races through a comparative method using insights drawn from critical race theory women s history and contemporary disputes over canonicity multiculturalism and Afrocentrism Seeing women as identified by their race and social standing as well as by their sex this book will add depth and dimension to discussions of women s writing and of gender in Renaissance literature **Literature and Travel** Michael Hanne,2023-12-18 **Writing Captivity in the Early Modern Atlantic** Lisa Voigt,2012-12-01 Drawing on texts written by and about European and Euro American captives in a variety of languages and genres Lisa Voigt explores the role of captivity in the production of knowledge identity and authority in the early modern imperial world The practice of captivity attests to the violence that infused relations between peoples of different faiths and cultures in an age of extraordinary religious divisiveness and imperial ambitions But as Voigt demonstrates tales of Christian captives among Muslims Amerindians and hostile European nations were not only exploited in order to emphasize cultural oppositions and geopolitical hostilities Voigt s examination of Spanish Portuguese and English texts reveals another early modern discourse about captivity one that valorized the knowledge and mediating abilities acquired by captives through cross cultural experience Voigt demonstrates how the flexible identities of captives complicate clear cut national colonial and religious distinctions Using fictional and nonfictional canonical and little known works about captivity in Europe North Africa and the Americas Voigt exposes the circulation of texts discourses and peoples across cultural borders and in both directions across the Atlantic *Anglican Enlightenment* William J. Bulman,2015-05-12 This is an original interpretation of the early European Enlightenment and the religious conflicts that rocked England and its empire under the later Stuarts In a series of vignettes that move between Europe and North Africa William J Bulman shows that this period witnessed not a struggle for and against new ideas and greater freedoms but a battle between several novel schemes for civil peace Bulman considers anew the most apparently conservative force in post Civil War English history the conformist leadership of the Church of England He demonstrates that the church s historical scholarship social science

pastoral care and political practice amounted not to a culturally backward spectacle of intolerance but to a campaign for stability drawn from the frontiers of erudition and globalization In seeking to sever the link between zeal and chaos the church and its enemies were thus united in an Enlightenment project but bitterly divided over what it meant in practice

Performing Economic Thought Bradley Ryner,2013-12-17 This study examines the structural similarities between English mercantile treatises and drama c1600 1642 Bradley D Ryner analyses the representational conventions of plays and mercantile treatises written between the chartering of the English East India Company in 1600 and the closing of the public playhouses at the outset of the English Civil War in 1642 He shows that playwrights manipulation of specific elements of theatrical representation such as metaphor props dramatic character stage space audience interaction and genre exacerbated the tension between the aspects of the world taken into account by a particular representation and those aspects that it neglects

The Death of Hamlet Amir Khan, 2025-01-06 This book is an intervention in Hamlet scholarship In Thus Spake Zarathustra 1885 Nietzsche famously posited the death of God taken to mean the dissolution of all horizons within which human beings construct a plausible ontology that gives words significance The idea of God as a transcendental signified to borrow from Derrida underwrites meaning and values Socrates placed knowing as the highest philosophical good over two millennia ago however once we find that God i e any transcendental signified is unknowable the world vanishes In a world bereft of concepts and meaning Nietzsche's philosophical project becomes one of redeeming pure willing as itself constitutive of world Hamlet and the criticism surrounding it is caught within competing horizons we know are circuitous and unending We tiresomely make theoretical rounds between competing sets of interpretations that boil down to either establishing meaning within the play the text transcending its history and revealing universal truths or situating the text within its proper historical timeframe in order to get it to speak In short we are trapped between contextualizing and decontextualizing approaches Yet we know both approaches as competing horizons we commit to at the outset are dead But to abandon both at the outset means that the text Hamlet is itself dead So how to get it to speak
