Research Methods For Criminal Justice:

Research Methods in Criminal Justice and Criminology Lee Ellis, Richard D. Hartley, Anthony Walsh, 2009-12-15
Research Methods in Criminal Justice and Criminology is a core text for criminology and criminal justice research methods courses. It strives to offer a general foundation of knowledge that transcends particular topics or subject areas, allowing students to apply research methods and concepts to a multitude of scenarios. Even though the textbook has been written primarily for criminal justice and criminology majors, there is an underlying recognition that research methods and findings are common among all of the social sciences. This text has been designed to be user friendly even when dealing with some fairly complex statistical and theoretical concepts. The most critical points are clearly stated and illustrated with examples chosen to be interesting in their own right.

Criminal Justice Research Methods William Lawrence Neuman, Bruce Wiegand, John Winterdyk, 2004
Designed for use at the undergraduate or graduate level in Criminology or Criminal Justice research methods courses. This up-to-date and comprehensive text, now in its first Canadian edition, offers a thorough discussion of qualitative and quantitative research methods. This up-to-date and comprehensive text, now in its first Canadian edition, offers a thorough discussion of qualitative and quantitative research methods. The authors discuss the underlying logic of each approach as well as how to collect and analyze data for each. The text shows students the larger context in which criminal justice science is utilized, helping them see the importance of making alternative philosophical assumptions when conducting research. The interdependence between theory, methods, and comparative examples is emphasized throughout. The text gives students the solid foundation necessary to continue their study of methodology or to utilize it in applied settings.

Research Methods in Criminal Justice and Criminology Callie Marie Rennison, Timothy C. Hart, 2022-01-19
Research Methods in Criminal Justice and Criminology connects key concepts to real field research and practices using contemporary examples and recurring case studies throughout the book that demonstrate how concepts relate to students' lives. Authors Callie M. Rennison and Timothy C. Hart introduce practical research strategies used in criminal justice to show students how a research question can become a policy that changes or influences criminal justice practices. The book's student-driven approach addresses both the why and the how as it covers the research process and focuses on the practical application of data collection and analysis. By demonstrating the variety of ways research can be used and reinforcing the need to discern quality research, the book prepares students to become critical consumers and ethical producers of research. The Second Edition includes two new case studies woven throughout and new expert profiles to highlight contemporary topics. Editable PowerPoint slides and a test bank are available to instructors.

Research Methods for Criminal Justice and Criminology Michael G. Maxfield, Earl R. Babbie, 2001 **INTRODUCTION**

TO CRIMINAL JUSTICE RESEARCH METHODS Gennaro F. Vito, Julie C. Kunselman, Richard Tewksbury, 2014-08-01 This third edition is designed as an introduction to research methods in criminal justice techniques. The detailed information that is generated by research is a management tool that has become a significant part of criminal justice operations. The text discusses the purposes, process, and uses of research that focus on identifying what information is already known about a particular topic or question. Ethical issues in criminal justice research are reviewed as is investigating the validity and reliability of crime data sources. Also offered is an introduction to research design, the plan or blueprint for a complete research project. The principles of sampling are thoroughly discussed as is survey research, a common form of gathering information in the criminal justice setting. A review of the concept of scaling and some common methods of scale construction are introduced. Additional major topics include qualitative interviews and observational studies in qualitative research as well as a wide variety of research techniques that comprise evaluation research. The definitions and examples provided in the book will help students and practitioners to both comprehend research articles and reports and to conduct their own research. Each of the authors brings specific areas of expertise to the text and they are familiar with the research process and have worked together on several published studies. The text is designed primarily for persons with little or no research background and provides real world examples and clear definitions of terms and concepts.
