Les Manuscrits de Chrétien de Troyes Keith Busby,1993 **The Nabis and Intimate Modernism** Katherine M. Kuenzli,2017-07-05 Providing a fresh perspective on an important but underappreciated group of late nineteenth century French painters this is the first book to provide an in depth account of the Nabis practice of the decorative and its significance for twentieth century modernism Over the course of the ten years that define the Nabi movement 1890 1900 its principal artists included Edouard Vuillard Pierre Bonnard Maurice Denis Paul Sérusier and Paul Ranson The author reconstructs the Nabis relationship to Impressionism mass culture literary Symbolism Art Nouveau Wagnerianism and a revolutionary artistic tradition in order to show how their painterly practice emerges out of the pressing questions defining modernism around 1900 She shows that the Nabis were engaged nonetheless with issues that are always at stake in accounts of nineteenth century modernist painting issues such as the relationship of high and low art of individual sensibility and collective identity of the public and private spheres **The Nabis and Intimate Modernism** is a rigorous study of the intellectual and artistic endeavors that inform the Nabis decorative domestic paintings in the 1890s and argues for their centrality to painterly modernism The book ends up not only re positioning the Nabis to occupy a crucial place in modernism s development from 1860 to 1914 but also challenges that narrative to place more emphasis on notions of decoration totality and interiority **Cézanne's Early Imagery** Mary T. Lewis,Mary Tompkins Lewis,1989-01-01 Examines Cezanne s use of imagery in his earliest works the years before he turned to impressionism **Paris** Paul N. Balchin,2023-02-14 This book offers a new perspective on French architecture describing the impact of political history on the architectural development of Paris Through various stages in history from the Roman to the Medieval Renaissance and Early Modern and Modern Paris **The Shaping of the French Capital** shows how the immense political power of monarchs the aristocracy and church determined the pace and volume of building in Paris and the extent of town planning Whereas many other great cities owe their historic importance to trade and to local government the City of London being a supreme example these attributes were largely absent in Paris throughout most of its history it didn t even have a mayor Arguably because of this gradually over the centuries the French capital emerged as one of the world s most beautiful cities and now is a metropolis with a population in excess of 2 million Paris Exhibition, 1878 ,1878 **Paris and Her Treasures** Ethel E. Bicknell,1912 The Armor of Light Meredith Parsons Lillich,2023-12-22 This landmark study is the first to look closely at the stained glass produced

between 1250 and 1325 in western France during the late Capetian era Generously illustrated with a wealth of color and black and white images never before published including many from French churches now closed to the public Lillich greatly expands our knowledge of both the art and the society from which it emerged The period Lillich chronicles begins with the region s new vitality following the knights return from the crusades and ends with the onset of economic uncertainty and unrest that preceded the Hundred Years War She reveals that the stained glass of this 75 year span is forceful and uninhibited dramatic and dazzling characteristic of what we now term expressionism Lillich tracks and identifies painters glazing shops working methods models and sources to argue that the stained glass is a major style with its own developmental evolution and character putting to rest the notion that this art is merely transitional and provincial This landmark study is the first to look closely at the stained glass produced between 1250 and 1325 in western France during the late Capetian era Generously illustrated with a wealth of color and black and white images never before published including
