Myrtle Beach Pavilion

Lesta Sue Hardee, Janice McDonald, 2010 For almost a century the heart of Myrtle Beach was defined by a place simply called the Pavilion. From the original structure built in 1908 the Pavilion was the center of the resort town's growing tourism industry. It was a destination point for anyone coming to the Grand Strand. Here you could stroll the Boardwalk, play arcade games, make faces in fun mirrors, ride rides, dance the Carolina Shag or sit on a bench and watch everyone else do all of the above. The Pavilion underwent several incarnations. The first ones were wooden and vulnerable but the final was concrete and seemingly indestructible, standing for nearly 60 years. Hardly an architectural marvel, what the Pavilion lacked in grandeur it made up for in pure old-fashioned fun. The beloved structure and its rides fell prey to economics and a wrecking ball in 2006. Myrtle Beach natives Lesta Sue Hardee and Janice McDonald trace the origins of the Pavilion from its early days as a recreational site for guests of Myrtle Beach's first hotel, the Sea Side Inn, to its heyday as the location for beach activities on the East Coast and finally to the Pavilion's Farewell Season. The Images of America series celebrates the history of neighborhoods, towns and cities across the country. Using archival photographs, each title presents the distinctive stories from the past that shape the character of the community today. Arcadia is proud to play a part in the preservation of local heritage, making history available to all.

Old Sylvan Beach and the Pavilions

Ann Uloth Malone, Dan Becker, 2014-07-21 Sylvan Beach is synonymous with bathing beauties, moonlit pavilions, the jitterbug, the Charleston, and a train called the Moonlight Express, as well as picnics, carnivals, music, romance, love, and legend. The unlikely truth is that familiarity and age can make our most beautiful treasures banal if we do not pause to remember and observe and venerate the events and moments when we first saw or most appreciated a place like Sylvan Beach. For this reason we ask you to come back with us to Sylvan Beach where for over 100 years Houston and much of Texas has come to play, dance, pray, fall in love, relax, or simply swim in the bay. Today the park and its pavilion are enjoying renewed popularity.

Coney Island Zoe Ryan, Jonathan Cohen-Litant, 2007 For almost

100 years Coney Island was the most popular seaside destination in the United States. Each year millions escaped the heat of New York City to savor the thrills of the Cyclone roller coaster and Wonder Wheel at the Astroland amusement park. They came to sample an original Nathan's Famous hot dog, witness the first demolition derby, or to take a chance at a game of three-card Monte on the legendary boardwalk. The advent of air conditioning, concerns about Coney's tawdry entertainment, and faster transportation to other beaches hastened the demise of what had become a uniquely American icon of entertainment and a defining terminus of New York at the water's edge. In an effort to revitalize the area, the Van Alen Institute in concert with the Coney Island Development Corporation held the Parachute Pavilion Competition, a contest to design a year-round pavilion in the shadow of the Parachute Jump, a landmark built for the 1939 World's Fair. Coney Island

The Parachute Pavilion Competition presents all 864 submissions from the feasible to the fantastic received from around the world. The winning design by London based Carmody Groarke Hardie is a mesmerizing attraction in its own right composed of two provocative trapezoids illuminated by thousands of colored light bulbs. The design respects the historic icon under which it is located but also promises to become an icon in its own right and bring the fun loving spirit of Coney Island into the twenty first century. Featuring essays photographic documentation and jury comments Coney Island The Parachute Pavilion Competition is a critical resource for students designers city officials and anyone interested in Coney Island and the reinvention of the historic recreation sites of our cities.

Java in the 14th Century Theodore G.Th. Pigeaud, 2013-03-09

Essentially the following commentary on the contents of the N gara Kert gama has been made up from notes by former editors of the text together with remarks criticisms and digressions by the present author. As Kern Krom and their contemporaries were especially interested in dynastie history and archeology their notes on those subjects are legion and as a result of their studies on many points a communis opinio has been reached. The argumentations which led up to this end are not reproduced in the present edition. The interested reader is referred to Krom s great books *Oud Javaansche Kunst* and *Hindoe Javaansche Geschiedenis*. It is to be expected that before long the results of Krom s life work will be made accessible for English readers by De Casparis. On the other hand cultural history religion economics and sociology have been rather neglected by the first editors of the N gara Kert gama. The present author has done his best to remedy that omission. The reader will find that the greater part of the following commen taries is concerned with those subjects. The contemporaneous minor texts and the charters that are published translated and annotated in the present book in the same manner as the N gara Kert gama have been chosen almost exc1usively for the valuable information on social economic and religious conditions in the 14th century Majapahit realm that is afforded by them.

Japan Report ,1980 **Railway International Passenger and Ticket Agents Journal** ,1917 The Art History of the Ming Dynasty Li Shi, The book is the volume of The Art History of the Ming Dynasty among a series of books of Deep into China Histories. The earliest known written records of the history of China date from as early as 1250 BC from the Shang dynasty c 1600 1046 BC and the Bamboo Annals 296 BC describe a Xia dynasty c 2070 1600 BC before the Shang but no writing is known from the period. The Shang ruled in the Yellow River valley which is commonly held to be the cradle of Chinese civilization. However Neolithic civilizations originated at various cultural centers along both the Yellow River and Yangtze River. These Yellow River and Yangtze civilizations arose millennia before the Shang. With thousands of years of continuous history China is one of the world s oldest civilizations and is regarded as one of the cradles of civilization. The Zhou dynasty 1046 256 BC supplanted the Shang and introduced the concept of the Mandate of Heaven to justify their rule. The central Zhou government began to weaken due to external and internal pressures in the 8th century BC and the country eventually splintered into smaller states during the Spring and Autumn period. These states became independent and warred with one another in the following Warring States period. Much

of traditional Chinese culture literature and philosophy first developed during those troubled times In 221 BC Qin Shi Huang conquered the various warring states and created for himself the title of Huangdi or emperor of the Qin marking the beginning of imperial China However the oppressive government fell soon after his death and was supplanted by the longer lived Han dynasty 206 BC 220 AD Successive dynasties developed bureaucratic systems that enabled the emperor to control vast territories directly In the 21 centuries from 206 BC until AD 1912 routine administrative tasks were handled by a special elite of scholar officials Young men well versed in calligraphy history literature and philosophy were carefully selected through difficult government examinations China's last dynasty was the Qing 1644 1912 which was replaced by the Republic of China in 1912 and in the mainland by the People's Republic of China in 1949 Chinese history has alternated between periods of political unity and peace and periods of war and failed statehood the most recent being the Chinese Civil War 1927 1949 China was occasionally dominated by steppe peoples most of whom were eventually assimilated into the Han Chinese culture and population Between eras of multiple kingdoms and warlordism Chinese dynasties have ruled parts or all of China in some eras control stretched as far as Xinjiang and Tibet as at present Traditional culture and influences from other parts of Asia and the Western world carried by waves of immigration cultural assimilation expansion and foreign contact form the basis of the modern culture of China
