Political Islam and Democracy in Central Asia is a study of moderation of political Islam in Central Asia. It analyses the only Islamic political party that was ever allowed to participate in elections in Central Asia and contributes to the debate on the radicalization or moderation of Islamic political parties. The book examines the Islamic Revival Party of Tajikistan (IRPT) which has been the only legal Islamic party in post-Soviet Central Asia until 2015 and has been recognized by many observers as moderate. Studying the ideological change of the party which happened after its inclusion into the political process, the book identifies their moderation as either tactical or ideological. The author examines and describes the main factors that led the IRPT toward moderation with a focus on the inclusion moderation hypothesis which concludes that inclusion can lead to moderation. Based on extensive analytical data, the author provides reasons for the moderation of the Tajik Islamists. It also challenges the ideological moderation of the Tajik Islamists by examining their attitudes toward the conventions of the modern democratic political system. Providing a detailed analysis of moderate Islamism and its controversial challenges for the modern world, this book will be of interest to researchers in the fields of Political Science, electoral politics, Islamic studies, and Area Studies with particular reference to Central Asia. Global Security Watch—Central Asia Reuel R. Hanks, 2010-10-21

This volume is the only current treatment of security issues in Central Asia for the nonspecialist as well as specialists and policy makers. Global Security Watch Central Asia is the first authoritative examination of the security issues affecting and affected by the region where Russia, South Asia, China, and the Middle East meet. The author provides a comprehensive account of the strategic importance and challenges facing Central Asia, written for policymakers, students, researchers, and interested general readers alike. Global Security Watch Central Asia goes behind the scenes to explore both the internal factors and global influences affecting the stability of the region and the nations that comprise it. Coverage includes the dynamics of each country's domestic politics, the allure of the region's natural resources, Central Asia's role in U.S. Russian relations, and the renewed focus on the region in the aftermath of the attacks of September 11, 2001. *History of Central Asia, The: 4-volume set* Christoph Baumer, 2018-04-18

This set includes all four volumes of the critically acclaimed History of Central Asia series. The epic plains and arid deserts of Central Asia have witnessed some of the greatest migrations as well as many of the most transformative developments in the history of civilization. Christoph Baumer's ambitious four-volume treatment of the region charts the 3000-year drama of Scythians and Sarmatians, Soviets, and transcontinental Silk Roads trade routes and the transmission of ideas across the steppes and the breathless and brutal conquests of Alexander the Great and Chinghiz Khan. Masterfully interweaving the stories of individuals and peoples, the author's engaging prose is richly augmented throughout by colour photographs taken on his own travels. This set includes The Age of the Steppe Warriors Volume 1, The Age of the Silk Roads Volume 2, The Age of Islam and the Mongols Volume 3, and The Age of Decline and Revival Volume 4. **Globalizing Central Asia** Marlene Laruelle, Sébastien Peyrouse, 2015-02-12

In this global era

Central Asia must be understood in both geo economic and geopolitical terms The region s natural resources compel the attention of rivalrous great powers and ambitious internal factions The local regimes are caught between the need for international collaborations to valorize these riches and the need to maintain control over them in the interest of state sovereignty Russia and China dominate the horizon with other global players close behind meanwhile neighboring countries are fractious and unstable with real potential for contagion This pathbreaking introduction to Central Asia in contemporary international economic and political context answers the needs of both academic and professional audiences and is suitable for course adoption

The Central Asia-Afghanistan Relationship Marlene Laruelle, 2017-08-14 Central Asia is a relatively understudied neighbor of Afghanistan The region is often placed into a number of historical and political contexts a section of the Silk Road a pawn in the Great Game the spillover state that exemplifies the failure of US foreign policy that limit scholarly understanding This edited volume contributes by providing a broad long term analysis of the Central Asia Afghanistan relationship over the last several decades It addresses the legacy of Soviet intervention with a unique first hand selection of interviews of former Soviet Central Asian soldiers that fought in the Soviet Afghan War It examines Afghanistan s norther neighbors discussing Russia Uzbekistan Tajikistan and Turkmenistan their strategy for Afghanistan their perception of challenges and opportunities of the country and patterns of cooperation and conflict The collection also looks at recent US strategic initiatives in the region in particular the New Silk Road Initiative that envisions a growing Central Asia South Asia connection

Varieties of Secularism in Asia Nils Ole Bubandt, Martijn Van Beek, 2012-03-12 Varieties of Secularism is an ethnographically rich theoretically well informed and intellectually coherent volume which builds off the work of Talal Asad Charles Taylor and others who have engaged the issue of secularism s and in socio political life The volume seeks to examine theories of secularism secularity and examine concrete ethnographic cases in order to further the theoretical discussion Whereas Taylor s magisterial work draws up the conditions and problems of a belief in God in Western modernity it leaves unexplored the challenges posed by the spiritual in modernity outside of the North Atlantic rim This anthology seeks to begin that task It does so by suggesting that the kind of secularity described by Taylor is only one amongst others By attending to the shifting relationship between proper religion and bad faiths between politically valorised and embarrassing spiritual phenomena between the new visibilities and silences of magic ancestors and religion in democratic politics this book seeks to outline the particular formations of secularism that have become possible in Asia from China to Indonesia and from Bahrain to Timor Leste This book will appeal to students and scholars of Asian religion politics and anthropology
