Radical Islam Rising Muslim Extremism In The West:

Radical Islam Rising Quintan Wiktorowicz, 2005-07-21 This unique book represents one of the first systematic attempts to explain why thousands of Westerners heed international calls to jihad and join radical Islamic groups Drawing on his unprecedented access to a radical Islamic group Quintan Wiktorowicz details the subtle process that can turn seemingly unreligious people into supporters of religious violence The author's extraordinary fieldwork forms the basis of a detailed case study of al Muhajiroun a transnational movement based in London that supports Bin Laden and other Islamic terrorists Through its rich empirical detail the case study explains the larger question of why ordinary people join extremist movements

Radical Islam and International Security Efraim Inbar, Hillel Frisch, 2007-12-12 Radical Islam poses a political challenge in the modern world which is like that of no other radical religious movement Ideologically it is perceived by Western policy makers as threatening the liberal democratic ideology by which most states in the West abide and which most other states rhetorically espouse This book serves as a welcome addition to the intellectual and policy debate on the nature of the radical Islam phenomenon and how to respond to it The collection is divided into three parts the first part seeks to understand the Islamic challenge in broad comparative and historical terms while the second part deals with specific regional case studies which seek to identify patterns of uniformity and variation in radical Islam across a wide swath of terrain The third part is policy oriented suggesting possible responses to the Islamic challenge The contributors include distinguished researchers from Europe North America and the Middle East This book will be of much interest to students of Islamism political violence international security and Middle Eastern politics

Extreme Britain Elizabeth Pearson, 2024 Drawing on interviews with extremists this timely study explores the relationship between gendered culture and political radicalism using Britain as a case study

'Home-grown' Jihad: Understanding Islamist Terrorism In The Us And Uk Samuel John Mullins, 2015-11-09 Based on seven years of original research this book contains one of the most detailed and comprehensive assessments of home grown Islamist terrorism HGIT in the US and UK to date Beginning with an examination of the development of militant networks during the 1980s and 1990s it traces the origins of HGIT and highlights the significance of these early experiences in different countries for shaping the future trajectory of the threat The book also examines the range of motivations for violent jihad in the West suggesting a composite theoretical model that specifies three necessary conditions for involvement and challenges popular explanations for differential rates of terrorism which emphasize socioeconomic factors The book analyzes the background and operational activities of nearly 800 American and British jihadis who mobilized between 1980 and September 11th 2013 including factors such as mental health education processes of radicalization leadership use of the Internet sources of funding and links to foreign terrorist organizations This analysis is then complemented with an examination of how these individuals have been dealt with by the respective security services From the first proponents of global jihad to the recent wave of volunteers inspired by events in the Middle East this book provides an extensive yet lucid

analysis of one of the greatest security concerns facing America and Great Britain today Home Grown Jihad challenges existing studies on a number of key issues and expands our understanding of HGIT It will be invaluable to academics practitioners and policymakers alike *The Politics of Terrorism and Counterterrorism in Bangladesh* Saimum Parvez, Mohammad Sajjadur Rahman, 2022-12-30 This book examines contemporary issues and debates of terrorism in Bangladesh including national and transnational terrorist outfits operating within the country their narratives and counternarratives ideologues women and the youth media representation counterterrorism laws and challenges Bangladesh is a fascinating and often paradoxical case study for terrorism studies The book examines major terrorist groups in contemporary Bangladesh and their international connections and narratives as well as a case study of an influential ideologue who encouraged some Bangladeshis to engage in violence The chapters discuss how women and youth play a role in Bangladeshi terrorism how the internet is used for recruiting terrorists the discourses of the media and state regarding terrorism as well as the politics of law and counterterrorism initiatives including critically evaluating non state actors and government responses In addition to providing an up to date analysis of terrorism and counterterrorism in Bangladesh this book offers a balanced and unbiased perspective on this subject It will appeal to academics and international policymakers who are researching violence and extremism in South Asia **ISIS and the Pornography of Violence** Simon

Cottee, 2019-05-30 ISIS and the Pornography of Violence is a collection of iconoclastic essays on ISIS spanning the four year period from its ascendancy in late 2014 to its demise in early 2018 From a trenchant critique of the infantilization of jihadists to a probing examination of the parallels between gonzo porn and ISIS beheading videos the pieces collected in this volume challenge conventional ways of thinking about ISIS and the roots of its appeal Simon Cottee's core argument is that Western ISIS recruits far from being brainwashed or vulnerable dupes actively responded to the group's promise of redemptive violence and self sacrifice to a total cause **The World Almanac of Islamism** American Foreign Policy

Council, 2014-01-30 From Western Europe to Asia from the Middle East to the Horn of Africa societies are finding themselves under growing assault from radical Islamist forces In some countries such as Spain and France the challenge posed by radical Islam is still limited in scope and embryonic in nature But in others including Somalia and Pakistan it poses a mortal danger to the future of the existing state The World Almanac of Islamism is the first comprehensive reference work to detail the global reach of Islamism across six continents Each country study written by leading subject matter experts examines the full scope of the Islamist phenomenon from the activities of radical Islamist groups to the role of Islamist actors and ideas in society to the response or complicity of the local government An additional series of movement studies explores the global reach ideology and capabilities of the world's most powerful transnational Islamist movements Finally Almanac includes regional summaries and a global overview designed to provide context and strategic insights into current and emerging trends relating to Islamism the world over Features of the new edition include Three new country studies Nigeria Brazil

Tanzania Two new movement studies the Gulen movement and Boko Haram Updates to all original chapters Consolidation of trends analyses into one Global Overview The Handbook of the Criminology of Terrorism Gary LaFree, Joshua D. Freilich, 2016-11-29 The Handbook of the Criminology of Terrorism features a collection of essays that represent the most recent criminological research relating to the origins and evolution of along with responses to terrorism from a criminological perspective Offers an authoritative overview of the latest criminological research into the causes of and responses to terrorism in today s world Covers broad themes that include terrorism s origins theories methodologies types relationship to other forms of crime terrorism and the criminal justice system ways to counter terrorism and more Features original contributions from a group of international experts in the field Provides unique insights into the field through an exclusive focus on criminological conceptual frameworks and empirical studies that engage terrorism and responses to it

Terrorist Movements and the Recruitment of Arab Foreign Fighters Roger Warren, 2020-02-20 This book offers the first detailed in depth account of how and why some Arab foreign fighters subsequently became involved in Islamist terrorism Drawing on a personal dataset of 3 010 Arab foreign fighters compiled using biographies martyrdom eulogies and postings on jihadi websites Terrorist Movements and the Recruitment of Arab Foreign Fighters suggests that the subsequent involvement in Islamist terrorism by some Arab foreign fighters is primarily forged in the crucible of defensive jihad

Constructions of Terrorism Michael Stohl, Richard Burchill, Scott Englund, 2017-08 This publication is part of the Constructions of Terrorism Research Project being carried out through a partnership between TRENDS Research Advisory Abu Dhabi UAE and the Orfalea Center for Global and International Studies University of California Santa Barbara
