Women and Educational Reform in History Joyce Goodman, Setsuko Kagawa, 2025-06-27 This unique collection provides critical analyses of Japanese educational history by bringing together gender transnational and transcultural perspectives It illustrates how Japanese European and American women educators transcended national borders in seeking to reform and reshape Japanese education and society in the midst of social and political change from the Meiji era 1868-1912 to 1948 and beyond including during the American Occupation of Japan It demonstrates how educational practice from Europe and the United States not only flowed into Japan before and after the First and Second World Wars but also became entangled with Japanese perspectives as well as with nationalism colonialism imperialism and regionalism as some Japanese educators sought to reform education for Asian women beyond Japan's

borders In an increasingly connected world where at the same time opportunities for women s education in some countries are declining the volume provides insights for readers into how women educators have co operated historically across national borders in pursuit of reform in education and society in periods of immense social and political change including at moments when nationalism and imperialism were in the ascendancy This volume will be of interest to academics researchers and post graduate students in the fields of Japanese history history of Japanese education Japanese women s history gender perspectives and transnational and transcultural research It will also be of interest to readers curious about the history of Asia more broadly

Feminism and Empire Clare Midgley, 2007-09-28 Feminism and Empire establishes the foundational impact that Britain s position as leading imperial power had on the origins of modern western feminism Based on extensive new research this study exposes the intimate links between debates on the woman question and the constitution of colonial discourse in order to highlight the centrality of empire to white middle class women s activism in Britain The book begins by exploring the relationship between the construction of new knowledge about colonised others and the framing of debates on the woman question among advocates of women s rights and their evangelical opponents Moving on to examine white middle class women s activism on imperial issues in Britain topics include the anti slavery boycott of Caribbean sugar the campaign against widow burning in colonial India and women s role in the foreign missionary movement prior to direct employment by the major missionary societies Finally Clare Midgley highlights how the organised feminist movement which emerged in the late 1850s linked promotion of female emigration to Britain s white settler colonies to a new ideal of independent English womanhood This original work throws fascinating new light on the roots of later imperial feminism and contemporary debates concerning women s rights in an era of globalisation and neo imperialism
