Project Chess. Graham Wilson, 2025-09-30 The author of *Project Chess* who had a breakdown in 2008 has been studying, arguing and researching the various reasons for his ailing ill health ever since. With the 3 books in his work all titled *Project Chess* coming in separate volumes he attempted to explain the issues dating from the pre-diluvian time period before Noah's flood which although historians accredit to when man first started using stone axes 3 500 000 years ago in an attempt to wrestle with God. Jacob Zeus would attempt to rewrite our world's history forcing our world's Imperial understanding of life to adhere to the rise of his machine corp or in other words the Phoenician courts digital takeover. With the modern day digital switch in 1997 during Tony Blair's era seemingly coinciding with the rise in mental health problems in the modern day the author by the end of book 3 after rampaging throughout the history books brings us up to date in the modern day revealing the real reasons for the mental health crisis and the secret recruitment drives which drove the Anarchists movement throughout the 70s. By using the strings attached to Venom running through our neural networks the Cyber terrorists attempt to launch their ransomware attack on the people of Britain helping the EU attempt to force their way into power here in the UK whilst piggybacking on the countries broadcasting networks helping drive the recruitment to their unions which by the time of 1997 and the digital takeover allowed their banks to attempt to launder their pot of Silver which had grown in size since the time of the Pharaohs to help the EU buy their way into Britain. With the biggest exposure in history of the modern day banking system's attempt to selectively cull us all according to the EU's statistical rule selectively targeting us according to the stored assets behind any particular family's root systems they attempt to launder the toxic tears of Ra our Sun God through the victims accounts whilst using the modern day broadcasting networks and their place in the Intelligence communities ISTAR networks here in the UK to attempt to Phreakout Britain targeting our nations public until we agree to their adjustment courts readjustment to their republican way of life. With Venom the banking systems software controlling the physical traits and attributes of their victims running through the broadcasting networks here in the UK and indeed the European Union throughout their takeover in the 70s this historical piece of software allows the banking sector to hide their trade in human misery adjusting or tweaking the health of their victims using King Minos system of control to hold their health to ransom. By using the Arien software which traditionally flowed from Asia Minor where King Minos river of Silver was first originally accumulated thanks to his protection racket it allowed the Opioid traders Venom running through society to help them control the strengths and weaknesses of man whilst driving their protection racket using it to create a virtual reason for the spread of illness and disease whilst harvesting what became known as our Cypto strength converting it into the monetary payment scheme of the Gods the Crypto currencies used to pay for protection from the electronic storm which they create in return for our Silver Gold.
