Concepts in Social Gerontology Judith E Phillips, Kristine J Ajrouch, Sarah Hillcoat-Nalletamby, 2010-03-18 Far from a dictionary the concepts are portrayed as complex and conflicting definitions and usages are both noted and evaluated Each article includes a necessarily selective set of references and cross references to other concepts included in the book Moreover the coverage and evaluation of the concepts is right at the current leading edge in a rapidly moving field Victor Marshall Department of Sociology and Institute on Aging University of North Carolina at Chapel Hill The concepts are very clear and very relevant and fantastic for my group of undergraduate students I found each concept to be succinctly and simply captured holding enough information to satisfy initial cravings and complex enough to tempt further reading I had originally thought that this book would provide supplementary reading as part of my Healthy Ageing course but have changed my mind to essential reading now I have had the opportunity to read the entire book Dr Meredith Tavener Groningen University Social gerontology is a new and dynamic field reflecting the increasing interest in ageing across the world This book provides a readily accessible guide to well established and contested issues as well as new concepts emerging through cutting edge research in the discipline The entries give concise lucid knowledge on what constitutes the building blocks of social gerontology and sets out a clear review of the core concepts both classic and emerging in this subject area Each concept is explored in terms of its history application usefulness to theory and research and significance in practice They go beyond simple definitions of the concepts to look at how each issue has shaped the discipline of social gerontology today This book is authored by social gerontologists from the UK and the USA Together they present an interdisciplinary perspective and reflect a global approach to the presentation of key concepts in social gerontology

The Invisible Rainbow Arthur Firstenberg, 2020-02-28 The most misunderstood force driving health and disease The story of the invention and use of electricity has often been told before but never from an environmental point of view The assumption of safety and the conviction that electricity has nothing to do with life are by now so entrenched in the human psyche that new research and testimony by those who are being injured are not enough to change the course that society has set Two increasingly isolated worlds that inhabited by the majority who embrace new electrical technology without question and that inhabited by a growing minority who are fighting for survival in an electrically polluted environment no longer even speak the same language In *The Invisible Rainbow* Arthur Firstenberg bridges the two worlds In a story that is rigorously scientific yet easy to read he provides a surprising answer to the question How can electricity be suddenly harmful today when it was safe for centuries

Global Ageing in the Twenty-First Century Zachary Zimmer, 2016-04-22 Population ageing a growth in the proportion of a population that is in older age is now occurring in every region and nearly every country of the world Indeed the growth of older populations is among the important global phenomena of the twenty first century It poses both opportunities and challenges for societies and policy makers but these are far from uniform worldwide Dynamic factors are at work impacting on how ageing will influence people places and policies and there are large variations in the rate and

timing of population ageing across countries owing to differing social health and economic circumstances and a variety of policy options from which to choose Given this variation in the context of global ageing as a backdrop this edited book focuses on three overarching themes that are among the most critical to understand if societies are to age successfully in the twenty first century and beyond Healthy ageing and health care the ageing workforce retirement and the provision of pensions shifting intergenerational relations These three themes are cross cut by other dimensions that are intertwined with the dynamic processes of ageing such as immigration emigration contrasting policy regimes and global and national economic forces This ground breaking book will be of interest to all scholars students and policy makers working within this area of study
