Parental Choice and Educational Policy Michael Adler, Alison Petch, Jack Tweedie, 1989 *Parents and Schools* (1993) Pamela Munn, 2018-01-12 Published in 1993 this book explores the rights that parents have been given over their children's schooling. Parents now have the right to choose the school their children will attend and to be involved with school management. These rights and roles for parents as customers and managers are intended to make schools more responsive to parental concerns and to improve school quality. This book considers these new roles of parents how they affect traditional notions of home school partnerships and the effect on schools. It will appeal to those interested in home school relations in educational governance and in comparing British policy in these areas with that of Europe Education and Society L. Bondi, M. H. Matthews, 2017-04-28 This book first published in 1988 examines the most contentious issues in contemporary education. The political, social, educational and geographical impact of changes in the provision of educational services are discussed and illustrated through a wide range of case studies. Issues are examined from a number of different perspectives amongst them those of the parent, the educational administrator and the organisational theorist with the result that the book is able to evaluate which changes are most consistent with the requirements of each group.
