**Sandinista Nicaragua's Resistance to US Coercion** Héctor Perla, Jr, 2017-02-17 How was the Sandinista National Liberation Front FSLN of Nicaragua able to resist the Reagan Administration s coercive efforts to rollback their revolution H ctor Perla challenges conventional understandings of this conflict by tracing the process through which Nicaraguans both at home and in the diaspora defeated US aggression in a highly unequal confrontation He argues that beyond traditional diplomatic military and domestic state policies a crucial element of the FSLN s defensive strategy was the mobilization of a transnational social movement to build public opposition to Reagan s policy within the United States thus preventing further escalation of the conflict Using a contentious politics approach the author reveals how the extant scholarly assumptions of

international relations theory have obscured some of the most consequential dynamics of the case This is a fascinating study illustrating how supposedly powerless actors were able to constrain the policies of the most powerful nation on earth

**Nicaragua's Other Revolution** Michael Dodson,Laura Nuzzi O'Shaughnessy,2000-11-09 The 1979 rebellion in Nicaragua was the first in modern Latin America to be carried out with the active participation and support of Christians Like all revolutions the Nicaraguan Revolution has provoked controversy and hostility and the Christian presence has been a focal point in the debate In this work Michael Dodson and Laura Nuzzi O Shaughnessy offer a detailed study of the religious sources of the revolution set against the background of the revolutionary traditions of the United States Nicaragua s Other Revolution places the experience of the Nicaraguan Revolution in a historical framework that extends back to the Protestant Reformation and in an institutional framework that encompasses the whole of Nicaraguan politics Examining the broad process of religious change this work explores how that process interacted with the political struggles that culminated in the revolution Dodson and O Shaughnessy conclude that the religious values and attitudes arising out of postconciliar renewal in the church contributed powerfully to demands for revolutionary change in Nicaragua In England and America the Protestant Reformation gave a tremendous boost to demands for democratic changes in society and politics This work shows that something similar happened in Catholic Central America in the post Medellin period Changes in religious thought and action were part of and served to reinforce and stimulate a wider movement for social and political change Without denying the importance of Marxism the authors demonstrate that other important influences are at work there Originally published in 1990 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value
